Baseus E00294

Baseus AC22 20000mAh 45W Mini Power Bank User Manual

Model: E00294

INTRODUCTION

The Baseus AC22 Mini Power Bank is a compact, high-capacity portable charger designed for convenience and efficiency. With a 20000mAh battery and 45W Power Delivery (PD) fast charging, it provides reliable power for various devices, including smartphones and tablets. Its integrated USB-C cable enhances portability and ease of use. This manual provides essential information for the safe and effective operation of your power bank.

SETUP

1. Initial Charging of the Power Bank

Before first use, fully charge your Baseus AC22 Mini Power Bank.

1. Connect the integrated USB-C cable or an external USB-C cable to the power bank's input port.
2. Connect the other end of the cable to a compatible USB-C wall charger (not included).
3. The digital display will show the charging progress. Charge until the display shows 100%. A full charge takes approximately 3.3 hours with a 45W charger.

1. Charging Devices

The Baseus AC22 offers two methods for charging your devices:

Using the Integrated USB-C Cable:

1. Unclip the integrated USB-C cable from its storage position.
2. Connect the USB-C connector to your device's charging port.
3. The power bank will automatically begin charging your device. The digital display will show the remaining battery percentage.

Using the Additional USB-C Port:

1. Connect a compatible USB-C to USB-C cable (not included) to the additional USB-C output port on the power bank.
2. Connect the other end of the cable to your device's charging port.
3. The power bank will automatically begin charging your device.

Note: You can charge two devices simultaneously using both the integrated cable and the additional USB-C port. The power bank supports 45W fast charging, capable of charging an iPhone 17 Pro Max up to 67% or a Samsung Galaxy S25 up to 62% in 30 minutes.

2. Understanding the Digital Display

The intelligent digital indicator on the side of the power bank shows the exact percentage of battery remaining and the real-time charging status. This allows you to monitor the power bank's charge level and your device's charging progress.

MAINTENANCE

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use harsh chemicals or abrasive

materials.

- **Battery Care:** To prolong battery life, fully charge the power bank at least once every three months if not in regular use. Avoid completely draining the battery frequently.
- **Safety:** Do not disassemble, crush, puncture, or short-circuit the power bank. Keep away from water and fire.

TROUBLESHOOTING

- **Power bank not charging:**
 - Ensure the charging cable is securely connected to both the power bank and the wall charger.
 - Verify that the wall charger is functioning correctly and connected to a live power outlet.
 - Try using a different USB-C cable or wall charger.
- **Device not charging from power bank:**
 - Check if the power bank has sufficient charge (digital display should show more than 0%).
 - Ensure the integrated USB-C cable or external USB-C cable is securely connected to both the power bank and your device.
 - Try pressing the power button on the power bank to initiate charging if it doesn't start automatically.
 - Verify that your device's charging port is clean and undamaged.
- **Slow charging:**
 - Ensure both the power bank and your device support fast charging protocols.
 - Use a high-quality USB-C cable that supports fast charging.
 - Charging multiple devices simultaneously may reduce the charging speed for individual devices.
- **Power bank feels warm during use:**
 - It is normal for the power bank to become slightly warm during fast charging or discharging.
 - If it becomes excessively hot, disconnect it immediately and contact customer support. The power bank has multiple safety protections against overheating.

Multiple Safety Protections

Designed to maintain cool and stable charging.
