Heybly HCT029W

Heybly HCT029W 53.1 inch Corner Cat Tree Instruction Manual

Model: HCT029W

INTRODUCTION

This manual provides instructions for the assembly, operation, maintenance, and troubleshooting of your Heybly 53.1 inch Corner Cat Tree. This multi-level cat tower is designed to offer a stable and engaging environment for your cats, featuring various platforms, scratching posts, a hammock, and a cat condo.

SAFETY INSTRUCTIONS

- Ensure all components are securely fastened during assembly to prevent instability.
- Place the cat tree on a flat, stable surface, preferably in a corner for enhanced stability.
- Utilize the included anti-tip strap to secure the cat tree to a wall, especially if you have active or multiple cats.
- Regularly inspect the cat tree for loose parts, wear, or damage. Tighten screws and replace worn components as needed.
- Keep small children away from the cat tree during assembly and ensure they do not climb on it.
- This product is intended for indoor use by cats only.

Anti-Tip Device for Stability

Built-in anti-tip design secures the structure, keeping cats safe during play and rest.

ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your Heybly HCT029W Cat Tree. It is recommended to assemble the unit on a soft, clean surface to prevent damage.

1. **Step 1: Base Assembly.** Begin by attaching the lowest support posts to the sturdy base plate. Ensure they are tightened securely.
2. **Step 2: First Level Platforms.** Connect the first set of platforms and the hammock structure to the base posts.
3. **Step 3: Cat Condo and Mid-Level Platforms.** Assemble the cat condo and attach it along with the next set of platforms and scratching posts.
4. **Step 4: Upper Levels and Basket.** Continue building upwards, attaching the remaining platforms, scratching posts, and the cat basket.
5. **Step 5: Top Perch.** Secure the enlarged fan-shaped top perch to the uppermost posts.

6. **Step 6: Anti-Tip Device.** Once fully assembled, position the cat tree in its desired corner location. Use the provided anti-tip strap to secure the top of the tree to a wall stud or appropriate anchor point.

7. **Step 7: Final Check.** Verify that all screws are tight and the structure is stable before allowing your cats to use it.

OPERATING AND USAGE

The Heybly HCT029W Cat Tree provides multiple areas for your cat's activity and rest:

- **Top Perch:** The enlarged fan-shaped top perch offers an elevated spot for observation and rest. The cushion is detachable for easy cleaning.
- **Hanging Hammock:** A spacious square hammock provides a secure and comfortable resting area.
- **Cat Basket:** An 11.8" round cat basket offers an additional cozy spot for napping.
- **Cat Condo:** The enclosed cat cave provides privacy and a sense of security for your cat.
- **Scratching Posts:** Multiple posts wrapped in natural sisal rope encourage healthy scratching habits, protecting your furniture.
- **Pompom Toy:** An attached pompom toy provides interactive play.

Enlarged Top Perch

MAINTENANCE

- **Cleaning:** The detachable cushion on the top perch can be removed for cleaning. For other plush surfaces, use a lint roller or a vacuum cleaner with a brush attachment to remove cat hair and debris. Spot clean soiled areas with a mild detergent and damp cloth, then air dry.
- **Sisal Rope:** The sisal scratching posts are designed for durability. If the sisal rope becomes heavily frayed or

damaged, consider wrapping new sisal rope around the post or replacing the post if possible.

- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten as necessary to maintain the tree's stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cat tree is wobbly.	Loose connections; uneven floor; anti-tip strap not installed.	Tighten all screws. Ensure the tree is on a level surface. Install or re-secure the anti-tip strap to a wall.
Cat is not using the tree.	Unfamiliarity; preference for other scratching surfaces; location.	Place catnip on the tree. Encourage use with toys. Ensure the tree is in a prominent, appealing location for your cat.
Sisal rope is fraying quickly.	Normal wear and tear; aggressive scratching.	This is expected with regular use. Consider wrapping new sisal rope or replacing the affected post if wear is excessive.
Plush material shedding.	Initial shedding; wear from use.	Vacuum regularly to remove loose fibers. Initial shedding is common and should decrease over time.

SPECIFICATIONS

- **Model Name:** HCT029W
- **Product Dimensions:** 17.7"L x 17.7"W x 53.2"H (45cm L x 45cm W x 135cm H)
