3.2 Device Pairing

Follow these steps to connect your smart watch to the "FitCloudPro" app and enable calling features:

1. Ensure your phone's Bluetooth function is turned on.
2. Open the "FitCloudPro" app.
3. In the app, navigate to "Device" or "Add Device" and select "Connect device".
4. The app will search for available devices. Select "P97" from the list to bind it.
5. After selecting "P97" to connect, a mobile phone system pop-up pairing request will appear. Select "Pairing".
6. Turn on the call Bluetooth switch on the watch. This enables the watch to make and play media sound.
7. In your phone's Bluetooth settings, grant necessary permissions for the P97.
8. Once connected, you can use the watch to answer/make calls anytime.

Bluetooth 5.3 Phone Call

After connecting to a mobile phone, the smart watch can make and receive calls directly.

Image: Visual instructions for downloading the FitCloudPro app from Google Play or App Store, turning on Bluetooth, connecting the device, and enabling call functionality through phone settings.

5. MAINTENANCE

5.1 Water Resistance

The P97 Smart Watch has an IP68 waterproof rating.

- It is resistant to sweat, hand washing, and rain.
- It can withstand sudden rain showers and splashes.
- **Note:** While IP68 rated, prolonged submersion or use in hot water (e.g., showers, saunas) is not recommended as it may affect the device's seals over time.

BLOOD OXYGEN MONITOR

Track your blood oxygen level at any time optimize you body health status to a higher level.

Image: A person swimming while wearing the smartwatch, illustrating its IP68 waterproof level, suitable for hand washing, sweating, rain showers, and splashes.

5.2 Battery Life and Charging

The watch is equipped with a large capacity battery.

- **Charging Time:** Approximately 2 hours for a full charge.
- **Usage Time:** Up to 7 days of continuous use.
- **Standby Time:** Up to 30 days.

- Use the provided USB charging cable to charge the device.

Sleep Tracker

Automatically tracks how long you sleep each night and time spent in light, deep and REM sleep stages. Build better bedtime with sleep tracking.

(Note: When use the "Sleep Monitor" function, you need to keep the smart watch connected to the app and do not wear it too loosely)

Image: The smartwatch displaying a charging icon, with text indicating 2 hours charging time, 6-8 days usage time, and 30 days standby time, highlighting its ultra-long battery life.

100+ Watch Face

Select your favorite dials from 100+ choices for your fitness watch

Image: The smartwatch and its charging cable, with text indicating 2 hours charging, 5-7 days usage time, and 30 days for standby, emphasizing ultra-long battery life and larger capacity.

6. TROUBLESHOOTING

If you encounter issues with your Jugeman Smart Watch P97, refer to the following common solutions:

- **Watch not connecting to app:** Ensure Bluetooth is enabled on your phone and the watch. Restart both the watch and the phone, then try pairing again through the "FitCloudPro" app.
- **Notifications not appearing:** Check app permissions on your phone to ensure "FitCloudPro" has access to notifications. Verify that message receiving privileges are enabled within the app settings for your smartwatch.
- **Call function not working:** Confirm that the call Bluetooth switch is enabled on the watch and that the watch is properly paired for calls in your phone's Bluetooth settings.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, but not too tightly. Clean the sensor on the back of the watch regularly.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring if not needed. Ensure the watch is fully charged.
- **Screen unresponsive:** Try restarting the watch. If the issue persists, ensure the screen is clean and dry.
