5. MAINTENANCE

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid abrasive materials or harsh chemicals.
- **Software Updates:** Regularly check for and install system updates to ensure optimal performance and security. Go to *Settings > System > System update*
- **Storage Management:** Periodically clear unnecessary files and apps to free up storage space and maintain performance.
- **Battery Care:** Avoid extreme temperatures. For long-term storage, charge the battery to around 50% to prolong its lifespan.

6. TROUBLESHOOTING

If you encounter issues with your SVITOO P08 Tablet, refer to the following common solutions:

- **Device Not Powering On:** Ensure the battery is charged. Connect the tablet to the charger and wait a few minutes before attempting to power it on again.
- **Slow Performance:** Close unused applications, clear cache, or restart the tablet. Ensure sufficient storage space is available.
- **Wi-Fi/Bluetooth Connectivity Issues:** Try restarting the tablet and your Wi-Fi router/Bluetooth device. Ensure the tablet is within range.
- **MicroSD Card Not Detected or Difficult to Remove:** Ensure the card is inserted correctly into the slot. If removal is difficult, use a small, non-sharp tool (like a SIM ejector tool or a paperclip) to gently press the card until it clicks and ejects. Avoid forcing the card.
- **Bluetooth Audio Lag:** This can sometimes occur with certain Bluetooth devices or applications. Try disconnecting and reconnecting the Bluetooth device, or restarting the tablet. Ensure the tablet's software is up to date.
- **Screen Unresponsive:** If the screen is frozen, press and hold the Power Button for about 10-15 seconds to force a restart.
