AGARO 34496

AGARO Regency 16A Wi-Fi Smart Plug User Manual

Model: 34496

INTRODUCTION

The AGARO Regency 16A Wi-Fi Smart Plug allows you to control your home appliances remotely, monitor energy consumption, and set schedules using a smartphone app or voice commands. This smart plug is designed for heavy-duty appliances such as geysers and air conditioners, providing convenience and energy management capabilities.

Plug in & make your normal **appliances smart**

SAFETY INFORMATION

- Ensure the smart plug is used within its specified electrical ratings (16A). Overloading can cause damage or fire.
- Do not disassemble or modify the device.
- Keep the device away from water and high humidity environments.
- Do not use the smart plug with medical or life-support equipment.
- For indoor use only.

PACKAGE CONTENTS

The package includes the following items:

- 1 x AGARO Regency 16A Wi-Fi Smart Plug
- 1 x User Manual (this document)

PRODUCT FEATURES

The AGARO Regency 16A Wi-Fi Smart Plug offers several features for enhanced home automation:

- **16A High Current Support:** Suitable for heavy appliances like geysers, air conditioners, and water heaters.
- **Energy Monitoring:** Track real-time energy usage of connected devices via the smart app.
- **App Control:** Manage devices remotely from your smartphone via Wi-Fi, no hub required.
- **Voice Control:** Compatible with Amazon Alexa and Google Assistant for hands-free operation.
- **Scheduling & Timer Function:** Set automated on/off times to save energy and enhance convenience.
- **Manual On/Off Button:** Physical button for direct control on the device.

Everything is under control when all your devices are **seamlessly connected**

SETUP GUIDE

1. App Installation

1. Download the "Smart Life" app from the Apple App Store or Google Play Store.
2. Register for a new account or log in if you already have one.

2. Device Pairing

1. Plug the AGARO Smart Plug into a power outlet.
2. Ensure the indicator light on the smart plug is blinking rapidly. If not, press and hold the power button for 5-10 seconds until it blinks rapidly.
3. Open the Smart Life app, tap the "+" icon in the top right corner to add a device.
4. Select "Electrical Outlet" or "Smart Plug" from the device list.
5. Confirm that the indicator light is blinking rapidly in the app.
6. Enter your Wi-Fi network name and password (ensure it's a 2.4GHz network).
7. Wait for the app to connect to the device. Once connected, you can rename the smart plug for easier identification.

OPERATING INSTRUCTIONS

1. Manual Control

Press the physical power button on the smart plug to manually turn the connected appliance on or off.

2. App Control

After successful pairing, you can control the smart plug via the Smart Life app:

- **On/Off:** Tap the power icon next to the device name to toggle power.
- **Scheduling:** Navigate to the device settings in the app and select "Schedule" to set specific times for the appliance to turn on or off automatically.
- **Timer:** Use the "Timer" function to set a countdown for the appliance to turn off after a specified duration.
- **Energy Monitoring:** Access the energy monitoring section within the app to view real-time and historical power consumption data for the connected appliance.

Image: A split image showing an air conditioner connected to the smart plug on the left, illustrating "Automate your daily routine" with app schedules. On the right, a water heater connected to the smart plug demonstrates "Set smart timers" for automatic control. This highlights the scheduling and timer functions for various appliances.

3. Voice Control (Alexa/Google Assistant)

To enable voice control, link your Smart Life account to Amazon Alexa or Google Assistant:

1. Open the Alexa or Google Home app.
2. Go to "Skills & Games" (Alexa) or "Works with Google" (Google Home).
3. Search for "Smart Life" and enable the skill/service.
4. Link your Smart Life account using your credentials.
5. Discover devices. Once discovered, you can use voice commands like:
 - "Alexa, turn on the [device name]"
 - "Hey Google, turn off the [device name]"

Control Devices Hands-Free with Voice Command

Image: A person using a smartphone while sitting with a laptop, with logos for Google Assistant and Amazon Alexa displayed. The text "Alexa, Turn on the AC" illustrates how voice commands can be used to control devices connected to the smart plug.

MAINTENANCE

- Keep the smart plug clean by wiping it with a dry, soft cloth.
- Do not use harsh chemicals or abrasive cleaners.
- Ensure the plug is disconnected from power before cleaning.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Smart plug not connecting to Wi-Fi.	Incorrect Wi-Fi password, 5GHz Wi-Fi network, weak signal, or plug not in pairing mode.	Verify Wi-Fi password. Ensure you are connected to a 2.4GHz Wi-Fi network. Move the smart plug closer to the Wi-Fi router. Reset the smart plug by holding the power button until the indicator blinks rapidly.
Appliance not turning on/off.	Smart plug is offline, appliance is faulty, or smart plug is not receiving power.	Check if the smart plug is online in the app. Ensure the smart plug is firmly plugged into the wall outlet and the appliance into the smart plug. Test the appliance by plugging it directly into a wall outlet.
Voice control not working.	Smart Life skill/service not linked, incorrect device name, or internet connectivity issues.	Ensure the Smart Life skill/service is enabled and linked in your Alexa/Google Home app. Use the exact device name configured in the Smart Life app. Check your internet connection.
