EAST OAK 1.3L

EAST OAK 1.3L Cordless Electric Lunch Box User Manual

Model: 1.3L | Brand: EAST OAK

1. INTRODUCTION

The EAST OAK 1.3L Cordless Electric Lunch Box is designed to provide warm meals without the need for external power outlets. It features a high-performance 59.2Wh lithium battery, offering approximately 2 hours of continuous heating followed by 1 hour of automatic heat preservation. This manual details the proper use and care of your electric lunch box.

Key features include dual heating modes (Smart Reservation and Instant-On), a memory function for settings, and a spacious 1.3L capacity. The inner container is made of food-grade 304 stainless steel, and components are designed for easy cleaning.

2. SETUP

2.1 Initial Charging

Before first use, fully charge the lunch box using the provided charger. The numeric display will indicate the battery level. A full charge ensures optimal performance.

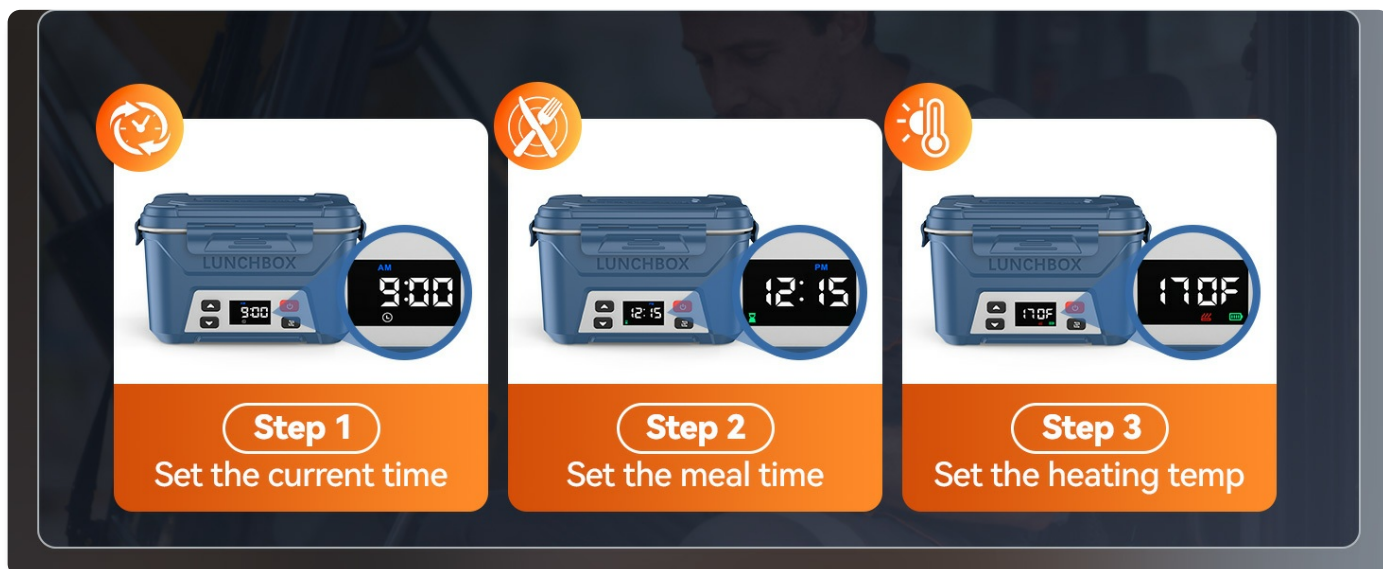

Image: The lunch box display showing battery level and charging status indicators.

2.2 Setting Current Time

Upon first use, calibrate the internal clock to the actual current time. This is essential for the Smart Reservation Mode to function correctly.

1. **Step 1:** Set the current time.
2. **Step 2:** Set your desired meal time.
3. **Step 3:** Set the heating temperature.

3. OPERATING INSTRUCTIONS

3.1 Smart Reservation Mode

This mode allows you to set a target meal time. The lunch box will automatically calculate and begin heating approximately 2 hours in advance to ensure your food is warm when needed. Ensure the lunch box is turned on at least 2 hours before your set meal time for the preheating cycle to initiate.

Image: The lunch box automatically preheating 2 hours before the scheduled meal time.

3.2 Instant Heating Mode

For immediate heating, activate the Instant Heating mode with a single tap. This mode initiates a full 2-hour heating cycle, adapting to spontaneous meal schedules.

3.3 Memory Function

The lunch box saves your last set meal time and temperature. When powered on again, these settings are automatically loaded, eliminating the need for repeated input.

3.4 Heating Tips for Optimal Results

- **Temperature Display:** The screen shows the heating plate's temperature. The food's core temperature will be slightly lower, designed to prevent overheating and preserve taste.
- **Boost Efficiency:** Use the included insulation bag to improve heating speed and heat retention.
- **Even Heating:** For drier foods, add a small amount of water to create steam. Ensure food is in contact with the bottom of the container. For large items, adding a small amount of sauce or water can promote thermal circulation.
- **Thorough Heating:** If more thorough heating is desired, moderately increase the temperature or set the reservation time 20-30 minutes earlier.
- **Frozen Foods:** For best results, thaw frozen food in the refrigerator overnight before heating.

Max Temp 220°F

Heats food thoroughly

Image: The lunch box heating food, demonstrating thorough and even heat distribution up to 220°F.

Automatic Keep Warm

Stays warm after heating

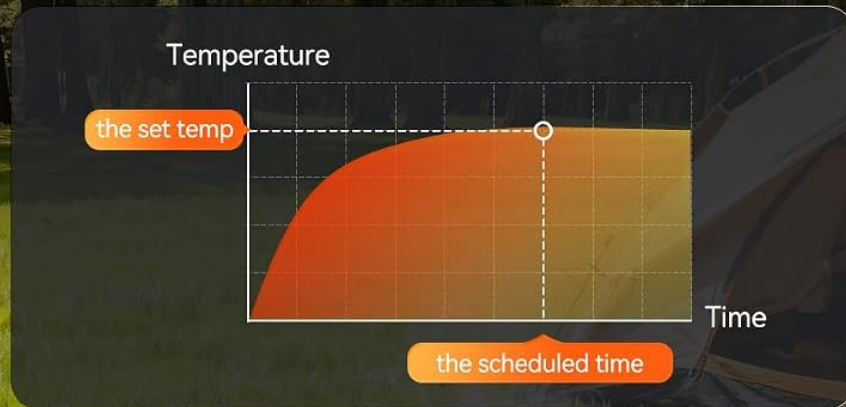

Image: The automatic keep warm function maintains food temperature after the heating cycle is complete.

4. MAINTENANCE AND CARE

4.1 Cleaning

The inner container, removable divider, and utensils are dishwasher safe for convenient cleaning. Ensure all components

are dry before reassembly.

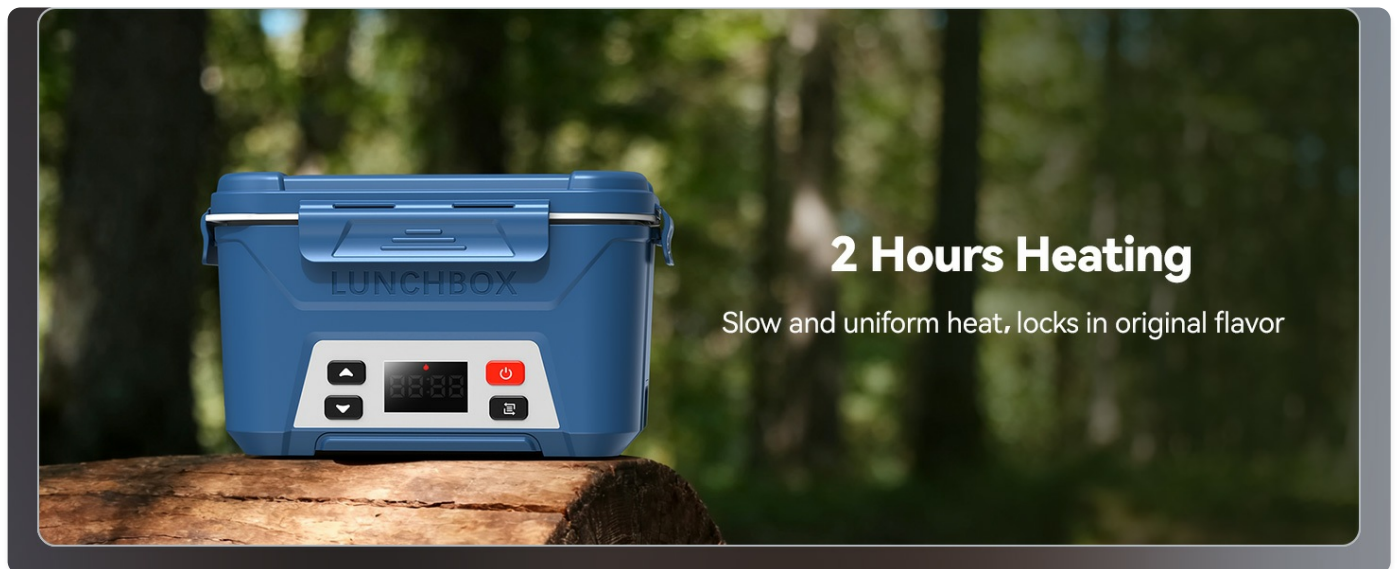

Image: Dishwasher-safe components of the lunch box, including the inner container and divider.

4.2 Leak-Resistant Design

The lunch box is designed with a silicone seal ring to prevent leaks during transport. Ensure the lid is properly secured to maintain the seal.

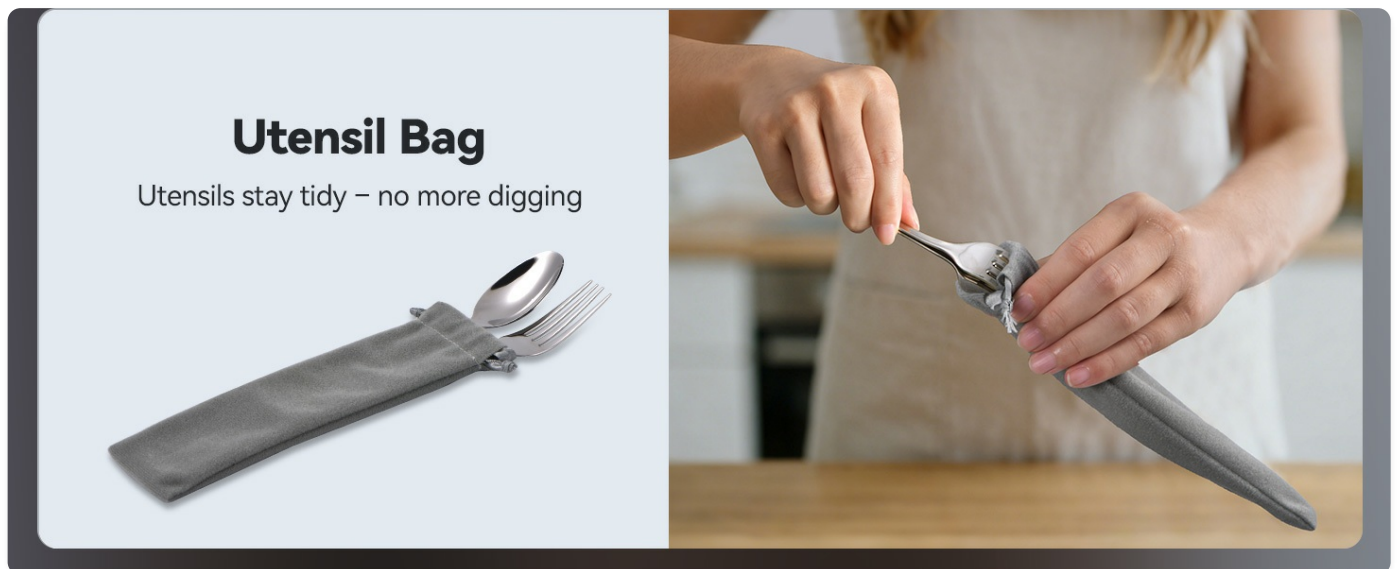

Image: Detail of the leak-proof silicone seal on the lunch box lid.

5. TROUBLESHOOTING

5.1 Error Code E1

If the E1 error code appears, follow these steps for a potential self-repair:

1. **Remove & Open:** Remove the four screws and gently pry open the left and right clips.
2. **Disconnect Battery:** Remove the battery cover, then pull out and completely disconnect the battery connector.
3. **Discharge Key:** With the screen black, press the power button several times.
4. **Reassemble:** Put the device back together.

Note: This operation involves disassembly. Proceed with caution. If you are unsure, contact official customer service for guidance.

6. SPECIFICATIONS

Feature	Specification
Model	1.3L Cordless Electric Lunch Box
Capacity	1.3 Liters (5.5 Cups)
Color	Navy Blue
Material	Food-grade 304 Stainless Steel (inner container), Steel
Battery	59.2Wh Lithium Battery
Heating Time	Approx. 2 hours continuous heating + 1 hour automatic keep warm
Max Heating Plate Temp	220°F (104°C)
Special Features	Dishwasher Safe (removable parts), Leak-Resistant Seal, Memory Function, Automatic Keep Warm
Included Components	Lunch box, inner container, removable divider, utensils, insulated bag
UPC	850079821873
ASIN	B0GQH1Q545

30% More Capacity
