MAINTENANCE

Regular maintenance will ensure the longevity and safety of your BYSAUD bunk bed.

- **Cleaning:** Wipe down metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Upholstery Care:** For the upholstered headboard, spot clean with a mild detergent and water solution. Test on an inconspicuous area first.
- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they are tight. Retighten if necessary.
- **Slat Inspection:** Ensure all metal slats are securely in place and free from damage.
- **LED Lights:** If LED lights malfunction, check connections. Do not attempt to repair electrical components yourself.

TROUBLESHOOTING

This section addresses common issues you might encounter. For problems not listed here, please contact customer support.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware; anti-tipping device not installed or secured.	Check and tighten all bolts and screws. Ensure the anti-tipping device is properly anchored to the wall.
Noise from bed frame.	Loose slats or connections.	Verify all slats are correctly seated in their buckle design. Tighten any loose frame connections.
LED lights not working.	Power connection issue; remote control battery dead; app not connected.	Check if the power adapter is securely plugged in. Replace remote control batteries. Ensure the app is correctly paired via Bluetooth.
Charging station not providing power.	Power outlet not active; device cable faulty.	Ensure the bed's main power is connected. Test with a different device or cable.
