## Merax JY00328

# Merax California King Size Teddy Fleece Upholstered Platform Bed Instruction Manual

Model: JY00328

### IMPORTANT SAFETY INFORMATION

---

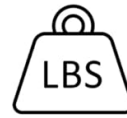

Avoid exposing the bed to open flames or high heat. Always follow the assembly instructions carefully to prevent injury. This bed frame is heavy and may require two adults to assemble safely.

### PRODUCT SPECIFICATIONS

---

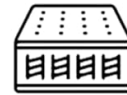

| Feature                        | Detail                               |
|--------------------------------|--------------------------------------|
| Size                           | California King                      |

## PACKAGE CONTENTS

---

Before beginning assembly, please verify that all components are present and undamaged. Refer to the included installation manual for a detailed parts list and illustrations.

- Headboard
- Footboard
- Side Rails (2)
- Center Support Bar(s)
- Wooden Slats
- Support Legs (for frame and center support)
- Hardware Pack (bolts, washers, Allen wrench, etc.)

## SETUP AND ASSEMBLY INSTRUCTIONS

---

Assembly typically requires two adults and can be completed within one hour. Lay out all components on a clean, soft surface (e.g., a rug or blanket) to prevent scratches during assembly.

### 1. Step 1: Attach Side Rails to Headboard and Footboard.

Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure and tightened appropriately. Do not overtighten.

Image: Side view of the Merax California King bed frame, illustrating the connection points between the side rails, headboard, and footboard. The internal structure for slats is visible.

**2. Step 2: Install Center Support Legs and Bars.**

Attach the center support legs to the designated crossbars of the bed frame. These components provide crucial stability and support for the mattress.

**3. Step 3: Place Wooden Slats.**

Position the wooden slats evenly across the bed frame. Secure them using the provided fasteners or by following the specific instructions in your hardware pack. A power drill may expedite this step.

Image: Angled view of the Merax California King bed frame with all wooden slats properly installed, forming the mattress support surface.

**4. Step 4: Verify Stability.**

Once fully assembled, gently shake the frame to ensure all connections are tight and the bed is stable. Make any necessary adjustments before placing the mattress.

For detailed visual guidance, refer to the comprehensive installation manual included with your product.

## **OPERATING INSTRUCTIONS**

---

This platform bed frame is designed to support a California King size mattress directly, eliminating the need for a box spring.

- **Mattress Placement:** Place your California King mattress (recommended thickness of 6-12 inches) directly onto the wooden slats. The embedded design of the frame helps to keep the mattress securely in place.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 700 lbs to ensure the longevity and safety of the bed frame.

Image: Detail illustrating the 'Thought Embedded Design' of the bed frame, which helps prevent mattress movement, contrasted with a regular design that allows easy sliding.

## MAINTENANCE

Proper care and maintenance will extend the life of your Merax bed frame.

- **Cleaning Fabric:** For the velvet upholstery, gently spot clean any spills or stains with a damp cloth and a small amount of mild, pH-neutral detergent. Blot, do not rub. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture.
- **Frame Care:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain the structural integrity and stability of the bed frame.
- **Environmental Factors:** To prevent fading and material degradation, avoid prolonged exposure of the bed frame to direct sunlight or extreme temperature fluctuations.

Image: Close-up view of the bed's upholstered headboard, emphasizing the soft velvet fabric, and a detail of the solid rubber wood legs, highlighting the materials used.

## TROUBLESHOOTING

---

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** If the bed frame produces squeaking sounds, carefully re-check all connections and tighten any loose bolts or screws. Ensure that all wooden slats are properly seated and secured within the frame.
- **Mattress Sliding:** The bed frame features an embedded design to minimize mattress movement. If your mattress still slides, ensure it is correctly centered on the slats. A non-slip mattress pad can also be placed between the mattress and slats for added grip.
- **Missing or Damaged Parts:** If you discover any missing or damaged parts upon opening the package, please contact Merax customer support immediately. Provide your model number (JY00328) and purchase details for assistance.

## WARRANTY AND SUPPORT

---

For detailed warranty information, product support, or to inquire about replacement parts, please refer to the documentation included with your original purchase. You may also visit the official Merax website or the Merax store

on Amazon for further assistance.
