SETUP AND ASSEMBLY

Assembly of the VINGLI King Bed Frame requires careful attention to detail. It is recommended that two adults perform the assembly.

1. **Unpack and Organize:** Carefully unpack all components and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Identify each part using the included assembly guide.
2. **Review Instructions:** Before starting, thoroughly read the separate, detailed assembly instructions provided in your product packaging. This guide contains step-by-step diagrams and specific hardware requirements for each stage.
3. **Assemble Headboard:** Begin by assembling the headboard components as per the instructions.

4. **Attach Side Rails:** Connect the side rails to the headboard. Ensure all connections are secure but do not fully tighten until the frame is mostly assembled.
5. **Assemble Footboard and Storage Bench:** Assemble the footboard, which includes the storage bench and drawer mechanisms. Attach this to the side rails.
6. **Install Slats:** Place and secure the wooden slats across the bed frame. These provide direct support for your mattress.

MAINTENANCE

Proper care and maintenance will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe down wooden surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish. For the upholstered bench, spot clean with a mild fabric cleaner as needed.
- **Hardware Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Drawer Maintenance:** Keep drawer glides free of dust and debris to ensure smooth operation. If drawers become stiff, a small amount of silicone lubricant can be applied to the glides.
- **Avoid Overloading:** Do not exceed the recommended weight capacities for the bed frame (800 lbs) or

the storage bench (440 lbs).
