Step 3: Assemble Sofa Sections

Connect the main sofa sections according to the provided diagrams. Ensure all connecting mechanisms (if any) are engaged properly.

Step 4: Position Cushions

Place the seat and back cushions onto the sofa frame. Note that cushions will fully expand within approximately 48 hours after unpacking. Allow this time for them to reach their intended firmness and shape.

Step 5: Integrate Movable Ottoman

The ottoman is designed to be movable. Position it on either the left or right side of the sofa to create an L-shaped sectional, or use it independently as a footrest or extra seating. Repositioning the seat cushions allows for different configurations.

OPERATING INSTRUCTIONS

Converting the Sectional Configuration

The Homall Convertible Sectional Sofa features a movable ottoman, allowing you to easily change its configuration:

- 1. L-Shape (Left or Right Facing):** To create an L-shaped sectional, simply place the ottoman at either end of the main sofa. Adjust the corresponding seat cushion to extend over the ottoman, forming a chaise lounge.
- 2. Independent Ottoman:** For additional seating or a footrest, move the ottoman away from the main sofa. Ensure the seat cushions on the main sofa are arranged to cover the entire seating area.

Using Side Storage Pockets

The sofa is equipped with spacious side pockets. These are designed to store small items such as remote controls, magazines, or books, keeping them organized and within easy reach.

FLEXIBLE COMBINATIONS

MAINTENANCE

General Care

- **Regular Cleaning:** Vacuum the sofa regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for linen, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position the sofa away from direct sunlight or use curtains/blinds.
- **Rotate Cushions:** Periodically rotate and fluff seat and back cushions to ensure even wear and maintain their shape.
- **Check Fasteners:** Every few months, check all bolts and connections to ensure they are tight. Retighten if necessary.

Cushion Care

The cushions feature zippers, allowing for removal of covers for cleaning if specified by the fabric care instructions. Always follow the care label on the cushion covers.

TROUBLESHOOTING

- **Cushions not fully expanded:** It is normal for cushions to appear compressed upon unpacking. Allow up to 48 hours for them to fully expand and regain their shape and firmness. Fluffing them periodically can assist this process.
- **Sofa feels wobbly:** Ensure all legs are securely tightened and that the sofa sections are properly connected. Check for uneven flooring; if necessary, use furniture pads to stabilize.
- **Difficulty changing ottoman position:** Ensure no obstructions are preventing the ottoman from sliding smoothly. The ottoman is designed to be easily moved.
