SAFETY INFORMATION

- Do not immerse the entire scale in water, despite its water-resistant design. The main unit is IP67 rated for dust and water splashes, but not full submersion.
- Use the scale on a stable, flat surface to ensure accurate readings.
- Avoid dropping the scale or subjecting it to strong impacts.
- Keep out of reach of children.
- Do not attempt to disassemble or repair the scale yourself. Contact customer support for assistance.

PACKAGE CONTENTS

Verify that all items are present in the package:

- TANITA KW-210-10 Kitchen Scale Main Unit
- Stainless Steel Weighing Tray
- AC Adapter
- Instruction Manual (this document)

SETUP

1. Power Source

The scale can be powered by either the included AC adapter or four (4) AA batteries (not included).

- **Using the AC Adapter:** Connect the AC adapter to the power port on the back of the scale and plug it into a standard electrical outlet.
- **Using Batteries:** Open the battery compartment on the underside of the scale. Insert four (4) AA batteries, ensuring correct polarity. Close the compartment securely.

2. Tray Installation

Place the stainless steel weighing tray securely onto the main unit's platform. Ensure it is seated correctly and does not wobble.

OPERATING INSTRUCTIONS

1. Turning On/Off

- Press the **ON/OFF** button to turn the scale on. The display will show "0" when ready.
- Press and hold the **ON/OFF** button for a few seconds to turn the scale off.

2. Weighing Items

1. Place the item to be weighed directly onto the stainless steel tray.
2. Read the weight displayed on the LCD screen.

3. Tare Function

The tare function allows you to weigh items in a container by subtracting the container's weight.

1. Place an empty container on the weighing tray.
2. Press the **TARE** button. The display will reset to "0".
3. Add the items to be weighed into the container. The display will show the net weight of the items.

4. Unit Conversion

The scale can display measurements in grams (g) or pounds/ounces (lb/oz).

- Press the **UNIT** button to switch between grams and pounds/ounces.

MAINTENANCE

Cleaning

The KW-210-10 features a removable and washable stainless steel tray, and the main unit is dust and water proof (IP67 rated).

- Remove the stainless steel tray for separate cleaning. It can be washed with mild soap and water.
- Wipe the main unit with a damp cloth. Do not use abrasive cleaners or immerse the main unit in water.
- Ensure all parts are dry before reassembly and storage.

Storage

- Store the scale in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, remove the batteries to prevent leakage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Scale does not turn on.	No power or low batteries.	Check AC adapter connection or replace batteries.
Inaccurate readings.	Unstable surface, overloaded, or dirty platform.	Place on a flat, stable surface. Ensure weight is within capacity. Clean the platform.
Display shows "Err".	Scale overloaded.	Remove excess weight. The maximum capacity is 22 lb (10 kg).
