5. MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your AMERLIFE furniture set.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- **Spills:** Immediately blot any spills with a clean, dry cloth to prevent moisture damage.
- **Heat and Moisture:** Avoid placing hot items directly on the surface. Use coasters under drinks to prevent rings. Keep furniture away from direct heat sources and excessive humidity.
- **Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position furniture to minimize direct sun exposure or use window coverings.
- **Moving:** When moving the furniture, always lift it rather than dragging it to prevent damage to the legs and structure.

6. TROUBLESHOOTING

If you encounter any issues with your furniture set, refer to the following common solutions:

Drawers are Sticking or Not Closing Smoothly:

- **Check Alignment:** Ensure the drawer slides are properly aligned and securely attached to both the drawer and the cabinet.
- **Lubrication:** Apply a small amount of silicone lubricant to the drawer slides if they feel stiff.
- **Overload:** Reduce the weight or volume of items in the drawer if it is overloaded.
- **Obstructions:** Check for any objects obstructing the drawer's path or caught in the slides.

Furniture Feels Unstable or Wobbly:

- **Tighten Fasteners:** Re-tighten all screws and bolts throughout the furniture. Do not overtighten.
- **Level Surface:** Ensure the furniture is placed on a flat, level surface. Use furniture glides or shims if necessary to stabilize.

- **Anti-Tip Kit:** Verify that the anti-tip kit is correctly installed and securely anchored to the wall.

Minor Scratches or Dents:

- For minor blemishes, touch-up pens or furniture repair kits designed for engineered wood can be used. Test on an inconspicuous area first.
