Pulsar 510 Delta

Pulsar 510 Delta 3-in-1 Vaporizer Kit User Manual

Model: 510 Delta (PU-0883-25)

Introduction

The Pulsar 510 Delta is a versatile 3-in-1 vaporizer kit designed for use with 510-threaded oil cartridges, wax concentrates, and dry herbs. This device features automatic attachment detection, adjusting its output settings for optimal performance with each material type. Equipped with an 800mAh battery, haptic feedback, and a 12-second preheat function, the 510 Delta offers a convenient and adaptable vaping experience.

Safety Information

- Keep the device away from water and extreme temperatures.
- Do not disassemble or modify the device.
- Use only the provided USB-C cable for charging.
- Store out of reach of children and pets.
- Avoid operating the device if it appears damaged.
- Do not use while charging.

Package Contents

Verify that all items are present in your Pulsar 510 Delta kit:

- Pulsar 510 Delta Battery Unit (800mAh)
- Full Ceramic Wax Atomizer
- Dry Herb Atomizer (Combustion Style)
- Double-Sided Metal Tool (Scoop/Poke)
- USB-C Charging Cable
- Dedicated Metal Travel Tin with Cushioning Material

Product Overview

The Pulsar 510 Delta is engineered for versatility, supporting three distinct material types with specialized attachments. The device automatically detects the attached component and adjusts its settings accordingly.

Key Features:

- **3-in-1 Functionality:** Compatible with 510 oil cartridges, wax concentrates, and dry herbs.
- **Automatic Attachment Detection:** The device intelligently identifies the connected atomizer or cartridge.
- **Optimized Output:** Automatically switches to 5-level voltage control for cartridges/dry herbs and 3-level temperature control for wax.
- **High-Performance Atomizers:** Includes a full ceramic wax atomizer for even heating and a combustion-style dry herb atomizer with a spring-loaded plunger.
- **800mAh Battery:** Provides extended usage.
- **12-Second Preheat Function:** Prepares materials quickly.
- **Haptic Feedback:** Vibrates to indicate device status.
- **Water Pipe Compatibility:** Dry herb mouthpiece can connect to 14mm female water pipes.

Setup

1. Initial Charging

1. Connect the provided USB-C cable to the charging port on the bottom of the Pulsar 510 Delta battery unit.
2. Plug the other end of the USB-C cable into a compatible USB power source (e.g., computer, wall adapter).
3. The indicator light will show charging status. A full charge takes approximately 1.5 hours. Do not use rapid charging adapters.

2. Attaching Atomizers/Cartridges

The Pulsar 510 Delta features automatic attachment detection. Simply screw the desired attachment onto the battery unit.

1. Ensure the battery unit is powered off before attaching or detaching components.
2. Carefully screw the 510 oil cartridge, wax atomizer, or dry herb atomizer onto the 510-threaded connection of the battery unit until snug. Do not overtighten.
3. The device will vibrate and the indicator light will confirm successful attachment and mode selection.

Operating Instructions

Power On/Off

- Press the power button 5 times rapidly to turn the device ON or OFF. The device will vibrate and the indicator light will flash.

Using with 510 Oil Cartridges

1. Attach a 510-threaded oil cartridge to the battery unit. The device will automatically enter voltage control mode (5 levels).
2. Press the power button 3 times rapidly to cycle through the 5 voltage settings. The indicator light color will change to reflect the current setting.
3. To activate the 12-second preheat function, press the power button 2 times rapidly. The device will vibrate when preheat is complete.
4. Press and hold the power button to vaporize. Release the button when finished.

Using with Wax Concentrates (Wax Atomizer)

1. Unscrew the mouthpiece from the wax atomizer.
2. Using the double-sided metal tool, carefully place a small amount of wax concentrate directly onto the ceramic heating element. Do not overfill.
3. Replace the mouthpiece and attach the wax atomizer to the battery unit. The device will automatically enter temperature control mode (3 levels).
4. Press the power button 3 times rapidly to cycle through the 3 temperature settings. The indicator light color will change.
5. To activate the 12-second preheat function, press the power button 2 times rapidly. The device will vibrate when preheat is complete.
6. Press and hold the power button to vaporize. Release the button when finished.

Using with Dry Herbs (Dry Herb Atomizer)

1. Unscrew the mouthpiece from the dry herb atomizer.
2. Load finely ground dry herbs into the chamber. Do not pack too tightly to allow for proper airflow.
3. Replace the mouthpiece and attach the dry herb atomizer to the battery unit. The device will automatically enter voltage control mode (5 levels).
4. Press the power button 3 times rapidly to cycle through the 5 voltage settings. The indicator light color will change.
5. To activate the 12-second preheat function, press the power button 2 times rapidly. The device will vibrate when preheat is complete.
6. Press and hold the power button to vaporize. Release the button when finished.
7. The dry herb mouthpiece can be connected to a 14mm female water pipe for filtered vaporization.

Charging

The Pulsar 510 Delta is equipped with a USB-C charging port. Ensure the device is powered off before charging.

- Connect the USB-C cable to the device and a standard USB power source.
- The indicator light will illuminate to show charging status.
- Charging time is approximately 1.5 hours for a full charge.
- Do not use fast charging adapters as this may damage the battery.

Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your device.

Battery Unit:

- Wipe the exterior of the battery unit with a clean, dry cloth.
- Ensure the 510-threaded connection is free of debris. Use a cotton swab lightly dampened with isopropyl alcohol if necessary, then dry thoroughly.

Wax Atomizer:

- After each use, allow the atomizer to cool.
- Use the metal tool to gently scrape away any residual wax from the ceramic heating element.
- For deeper cleaning, use a cotton swab dipped in isopropyl alcohol to clean the chamber. Allow to air dry completely before reassembling.

Dry Herb Atomizer:

- After each use, empty the herb chamber.
- Use a small brush (not included) or the metal tool to remove any loose dry herb material.
- The screen and chamber can be cleaned with a cotton swab and isopropyl alcohol. Ensure all alcohol has evaporated before use.

Troubleshooting

Problem	Possible Cause	Solution
Device not turning on	Low battery; Not pressed correctly	Charge the device; Press power button 5 times rapidly.
No vapor production	Atomizer/cartridge not connected properly; Insufficient material; Incorrect setting	Ensure attachment is screwed on securely; Refill material; Adjust voltage/temperature setting.
Device not charging	Faulty cable/charger; Dirty charging port	Try a different USB-C cable and power source; Clean charging port gently.
Burnt taste	Too high temperature/voltage; Low material level	Lower the setting; Refill material.

Specifications

Feature	Detail
Model Number	PU-0883-25
Battery Capacity	800 mAh
Charging Type	USB-C (Rapid charging not supported)
Charging Time	Approx. 1.5 hours
Preheat Function	12 seconds
Output Control (Cartridge/Dry Herb)	5-level Voltage Control
Output Control (Wax)	3-level Temperature Control
Feedback	Haptic (Vibration)
Dry Herb Mouthpiece Compatibility	14mm Female Water Pipe
Product Dimensions (LxWxH)	8.5 x 1.7 x 1.7 cm
Product Weight	50 g
Manufacturer	Pulsar Vaporizers
Country of Origin	China
GTIN	840250817276

Warranty and Support

For warranty information or technical support, please refer to the official Pulsar Vaporizers website or contact your retailer. Keep your proof of purchase for any warranty claims.
