

SUNCREAT Hammock Chairs Swing with Steel Support Bar

SUNCREAT Hammock Chairs Swing with Steel Support Bar Instruction Manual

1. INTRODUCTION

Thank you for choosing the SUNCREAT Hammock Chair Swing with Steel Support Bar. This manual provides essential information for the safe assembly, operation, and maintenance of your new hammock chair. Please read these instructions carefully before use and retain them for future reference.

2. PRODUCT OVERVIEW

The SUNCREAT Hammock Chair is designed for comfortable relaxation, featuring a durable poly-cotton fabric and a sturdy steel support bar. It is suitable for both indoor and outdoor use.

Key Features:

- **Upgraded Steel Support Bar:** Provides enhanced stability and prevents rope sliding with a thick metal anti-slip fixed ring design. Supports up to 450 lbs. The bar can be disassembled for easy storage.
- **Extra Large Hammock Swing Chair:** Made from high-grade poly-cotton fabric for comfort and durability. Measures 59 x 47 inches, allowing users to lie down for full relaxation.
- **Side Pocket:** A stitched-in 8.7"x7.9" side pocket for convenient storage of books, phones, or other small items.
- **Strong Ropes:** Heavy-duty cotton ropes are hand-woven for durability and style. Features a metal rope thimble to prevent friction and prolong service life.
- **Easy Assembly & Portable:** Includes all necessary hanging accessories for quick setup. Comes with a carrying bag for storage and travel.

What's in the Package:

- 1 x Hanging Hammock Chair Swing
- 1 x Carrying Bag
- 1 x Ceiling Hanging Kit

- 2 x Cushions (19.7x19.7 inches each)
- 1 x Stainless Steel Chain
- 1 x Carabiner
- 1 x S hook

What's in the Package?

PACKAGE INCLUDE:

1 X Hanging Hammock Chair Swing

1 X Carrying Bag

1 X Ceiling Hanging Kit

2 X Cushions

1 X Stainless Steel Chain

1 X Carabiner

1 X S hook

3. SAFETY INFORMATION

- Ensure all hanging hardware is securely installed into a sturdy support structure (e.g., ceiling beam, tree branch, or compatible stand) capable of supporting the chair's weight capacity (450 lbs) plus dynamic load.
- Regularly inspect ropes, chains, and all connection points for wear, fraying, or damage. Replace any damaged components immediately.
- Do not exceed the maximum weight capacity of 450 lbs.
- Avoid sharp objects near the hammock fabric to prevent tears.
- Do not stand or jump in the hammock chair. Use it for sitting and gentle swinging only.
- Keep children under supervision when using the hammock chair.

4. SETUP INSTRUCTIONS

The SUNCREAT Hammock Chair is designed for easy assembly. All necessary hanging accessories are included. You can assemble the outdoor swing chair in minutes without additional tools.

Step-by-Step Assembly:

1. **Unpack Components:** Carefully remove all items from the packaging and verify that all parts listed in the 'What's in the Package' section are present.
2. **Assemble Support Bar:** If the steel support bar is disassembled, connect the sections firmly. Ensure the anti-slip fixed rings are properly aligned.
3. **Attach Hammock to Bar:** Securely loop the hammock ropes over the ends of the steel support bar, ensuring even distribution and tightness. The metal rope thimble should be positioned to prevent friction.
4. **Install Hanging Kit:** Choose a suitable, sturdy location for hanging. For ceiling installation, use the provided ceiling hanging kit (plate, screws, chain, carabiner, S hook). Ensure the chosen beam or support can safely hold the chair and user weight. For tree installation, use appropriate tree straps (not included) or the provided chain and S hook around a strong branch.
5. **Connect Chair to Hanging Point:** Use the stainless steel chain, carabiner, and S hook to connect the assembled hammock chair to your installed hanging point. Adjust the chain length to achieve your desired hanging height.
6. **Place Cushions:** Insert the two provided cushions into the hammock chair for added comfort.

5. OPERATING INSTRUCTIONS

Once securely installed, your SUNCREAT Hammock Chair is ready for use.

- **Entering the Chair:** Gently sit into the center of the hammock chair. Distribute your weight evenly.
- **Relaxation:** Lean back and enjoy the comfortable support. The extra-large design allows for various reclining positions.
- **Using the Side Pocket:** Place your book, phone, or other small items in the integrated side pocket for easy access.
- **Gentle Swinging:** The chair is designed for gentle, relaxing motion. Avoid aggressive swinging or twisting.

6. MAINTENANCE

Proper care will extend the life of your hammock chair.

- **Cleaning Fabric:** The poly-cotton fabric can be spot cleaned with mild soap and water. For deeper cleaning, the fabric may be hand washed. Allow to air dry completely. Do not bleach.
- **Steel Support Bar:** Wipe the steel bar with a damp cloth to remove dirt. Ensure it is dry to prevent rust.
- **Ropes and Hardware:** Periodically check ropes for fraying or wear. Inspect all metal hardware (chain, carabiner, S hook) for signs of corrosion or damage. Replace components as needed.
- **Storage:** When not in use for extended periods, especially during inclement weather, store the hammock chair in its carrying bag in a dry, protected area to prevent damage and prolong its lifespan.

7. TROUBLESHOOTING

Common Issues and Solutions:

Issue	Possible Cause	Solution
Chair feels unstable or wobbly.	Improper installation; loose connections; uneven weight distribution.	Re-check all hanging points and connections for tightness. Ensure the support structure is secure. Sit evenly in the chair.
Ropes appear frayed or worn.	Normal wear and tear; friction against hanging hardware.	Inspect ropes regularly. If significant fraying is present, discontinue use and replace the hammock chair or ropes. Ensure the metal rope thimble is correctly positioned.
Metal parts show signs of rust.	Exposure to moisture; lack of maintenance.	Clean and dry metal parts regularly. For minor rust, use a rust remover and apply a protective coating. Store in a dry environment.
Plastic end caps on support bar fall off.	Loose fit; impact.	Re-secure end caps. If they continue to fall off, they are primarily cosmetic and do not affect structural integrity.

8. SPECIFICATIONS
