Aiandcc S10

Aiandcc S10 Bone Conduction Swimming Headphones User Manual

Model: S10 | Brand: Aiandcc

1. PRODUCT OVERVIEW

The Aiandcc S10 Bone Conduction Swimming Headphones are designed for active lifestyles, offering both Bluetooth 5.3 connectivity and an integrated 32GB MP3 player. Featuring an IPX8 waterproof rating, these open-ear headphones are suitable for various sports, including swimming, running, and cycling. The open-ear design ensures situational awareness, while bone conduction technology delivers clear audio.

IPX8 Bone Conduction Headphones Swimming

32GB built-in storage, enjoy music without carrying your phone

Waterproof and sweatproof for swimming, running, cycling and other sports

Suitable for all head sizes

***Note: Use MP3 mode for swimming as water blocks Bluetooth signal transmission.**

Image 1.1: A woman swimming while wearing the Aiandcc S10 headphones, demonstrating their waterproof capability and suitability for aquatic activities.

- **Dual Mode Functionality:** Seamlessly switch between Bluetooth 5.3 for daily use and a 32GB MP3 player for underwater activities or when a phone is not desired. The MP3 player can store up to 4,000 songs.
- **IPX8 Waterproof Rating:** Certified for immersion up to 2 meters (6.5 feet) for 1 hour, making them ideal for swimming.
- **Open-Ear Design:** Ensures comfort and safety by allowing you to hear your surroundings while enjoying audio. The lightweight design (36.6g) is compatible with glasses and helmets.
- **Extended Battery Life:** Provides 8 to 16 hours of playback, with a quick magnetic charge completing in approximately 1 hour.
- **Integrated Microphone:** Enables clear calls during exercise.

2. SETUP

2.1 Unboxing and Initial Charge

Upon unboxing, ensure all components are present: the Aiandcc S10 headphones, a magnetic charging cable, and this user manual.

Image 2.1: The package contents of the Aiandcc S10 headphones, showing the device, charging cable, and user manual.

1. Connect the magnetic charging cable to the charging port on the headphones.
2. Plug the USB end of the cable into a standard USB power adapter (not included) or a computer USB port.
3. Charge the headphones for approximately 1 hour until fully charged. The LED indicator on the headphones will show charging status.

2.2 Transferring Music to MP3 Mode (for swimming)

The headphones feature 32GB of internal storage for MP3 playback. This mode is essential for swimming as Bluetooth signals do not transmit effectively underwater.

1. Connect the headphones to your computer using the magnetic charging cable. The computer should recognize the

headphones as a removable storage device.

2. Drag and drop your desired audio files (MP3, WAV, FLAC, APE) into the headphones' storage folder.
3. Safely eject the headphones from your computer once the transfer is complete.

Note: File transfer speeds may vary. Please allow sufficient time for large music libraries.

2.3 Bluetooth Pairing

For wireless audio outside of water, pair your headphones with a Bluetooth-enabled device.

1. Ensure the headphones are powered on and in Bluetooth mode (refer to Section 3.2 for mode switching).
2. On your device (smartphone, tablet, etc.), go to Bluetooth settings and enable Bluetooth.
3. Search for available devices. The headphones should appear as "Aiandcc S10" or similar.
4. Select the headphones to pair. A voice prompt will confirm successful connection.

3. OPERATING INSTRUCTIONS

Familiarize yourself with the control buttons located on the headphones for easy operation.

Image 3.1: Detailed diagram of the control buttons and their functions for the Aiandcc S10 headphones.

3.1 Power On/Off

- **Power On:** Press and hold the Power button (usually marked with ⏻) for 2 seconds.
- **Power Off:** Press and hold the Power button (⏻) for 2 seconds.

3.2 Switching Between MP3 and Bluetooth Modes

- **Switch Mode:** Double-press the Mode button (usually marked with Ⓜ or a similar icon). The display will indicate the current mode.

3.3 Music Playback Controls

- **Volume Up:** Press the "+" button (③).
- **Volume Down:** Press the "-" button (④).
- **Next Track:** Press and hold the "+" button (③) for 2 seconds.
- **Previous Track:** Press and hold the "-" button (④) for 2 seconds.
- **Play/Pause:** Press the Power button (②).

3.4 Call Functions

- **Answer Call:** Press the Power button (②).
- **End Call:** Press and hold the Power button (②) for 2 seconds.

3.5 Voice Assistant

- **Activate Voice Assistant:** Triple-press the Power button (②).

4. MAINTENANCE

Proper care ensures the longevity and optimal performance of your Aiandcc S10 headphones.

- **Cleaning:** After use, especially after swimming, rinse the headphones with fresh water and wipe them dry with a soft cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures. Avoid bending or twisting the frame excessively. Using the original packaging or a rigid case is recommended for transport to prevent damage.
- **Charging:** Use only the provided magnetic charging cable. Ensure the charging contacts are clean and dry before connecting.
- **Water Resistance:** The IPX8 rating allows for immersion up to 2 meters for 1 hour. Exceeding these limits or exposing the headphones to high-pressure water jets may compromise water resistance.

5. TROUBLESHOOTING

If you encounter issues with your headphones, refer to the following common solutions:

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones for at least 1 hour.
Cannot connect via Bluetooth.	Headphones not in Bluetooth mode or not in pairing mode. Device Bluetooth is off or out of range.	Ensure headphones are in Bluetooth mode. Turn off and on your device's Bluetooth. Move closer to the device.
No sound or poor sound quality underwater.	Bluetooth signal blocked by water.	Switch to MP3 mode for underwater listening. Ensure music files are loaded onto the internal 32GB storage.

Feature	Detail
