

LUMISOL M2I8O14

LUMISOL Queen Size Canopy Bed Frame with Tall Upholstered Headboard Instruction Manual

Model: M2I8O14

1. INTRODUCTION

Thank you for purchasing the LUMISOL Queen Size Canopy Bed Frame. This manual provides detailed instructions for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This bed frame features a solid wood construction with an upholstered headboard and a four-poster canopy design, providing a sturdy and elegant foundation for your mattress without the need for a box spring.

2. SAFETY INFORMATION

- **Read all instructions:** Ensure you understand all steps before assembly.
- **Two-person assembly:** Assembly is recommended with two adults to prevent injury and ensure proper construction.
- **Keep children and pets away:** Small parts can be a choking hazard.
- **Use on a level surface:** Assemble the bed frame on a clean, flat, and soft surface (like a carpet) to prevent scratches.
- **Tighten all fasteners:** Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as needed.
- **Do not exceed weight capacity:** The bed frame has a maximum weight capacity of 600 lbs.
- **No box spring needed:** This bed frame is designed for use with a mattress directly on the slats. Do not use a box spring.

3. PACKAGE CONTENTS

Please verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

- Headboard (Upholstered)

- Footboard
- Side Rails (2)
- Canopy Posts (4)
- Canopy Rails (4)
- Center Support Beam(s)
- Wooden Slats
- Support Legs for Slats
- Hardware Pack (bolts, washers, nuts, Allen wrench, etc.)
- Assembly Tools (typically an Allen wrench is included)

4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

Step 4.1: Unpack and Identify Parts

Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent damage. Compare all parts with the package contents list to ensure everything is present.

Step 4.2: Assemble the Headboard and Footboard

Attach the side rails to the headboard and footboard using the provided bolts and an Allen wrench. Do not fully tighten bolts until all major components are connected.

Image: Partially assembled bed frame, illustrating the connection points for the headboard, footboard, and side rails. The upholstered headboard is visible.

Step 4.3: Install Center Support Beam and Legs

Place the center support beam(s) along the length of the bed frame. Attach any required support legs to the center beam(s) and ensure they are securely fastened and touching the floor.

Step 4.4: Place Wooden Slats

Distribute the wooden slats evenly across the bed frame, resting them on the side rail ledges. Secure the slats in place using any provided fasteners (screws or plastic caps). Ensure all slats are properly spaced and secured to provide adequate mattress support.

Image: View of the bed frame from the front, showcasing the installed wooden slats that provide mattress support.

Step 4.5: Attach Canopy Posts and Rails

Attach the four canopy posts to the corners of the bed frame. Then, connect the four canopy rails to the top of the posts to form the canopy structure. Ensure all connections are tight and stable.

Step 4.6: Final Tightening

Once all components are in place, go back and fully tighten all bolts and screws. Do not overtighten. Ensure the bed frame is stable and level.

5. OPERATING INSTRUCTIONS (USAGE)

- **Mattress Placement:** Place your Queen size mattress directly onto the wooden slats. A box spring is not required.
- **Recommended Mattress Thickness:** For optimal comfort and aesthetics, a mattress thickness of 8-10 inches is recommended.
- **Weight Capacity:** The bed frame is designed to support a maximum weight of 600 lbs (including mattress and occupants). Do not exceed this limit.
- **Canopy Use:** The canopy structure can be used to drape decorative fabrics, sheer curtains, or string lights to personalize your sleeping space. Ensure any additions do not put excessive strain on the canopy frame.

6. MAINTENANCE

- **Regular Cleaning:**
 - **Wood Frame:** Wipe the solid wood frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. Dry immediately with a clean cloth.
 - **Upholstered Headboard:** For light cleaning, vacuum the upholstered headboard with a brush attachment. For spills, blot immediately with a clean, dry cloth. For deeper cleaning, consult a professional upholstery cleaner or use a mild fabric cleaner according to its instructions, testing on an inconspicuous area first.
- **Check Fasteners:** Periodically (every 3-6 months) check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or damage to the wood finish and upholstery.
- **Protect from Moisture:** Keep the bed frame away from excessive moisture or humidity to prevent warping or damage to the wood.

7. TROUBLESHOOTING

- **Bed Frame Squeaks:**
 - Check all bolts and screws and tighten them securely.
 - Ensure all wooden slats are properly seated and secured.
 - Verify that the center support legs are firmly on the floor and adjusted correctly.
- **Bed Frame Feels Unstable/Wobbly:**
 - Re-check all connections, especially where side rails meet the headboard and footboard, and where canopy posts attach.
 - Ensure the bed is on a level surface. If not, use furniture glides or shims to stabilize.
- **Slats Sagging or Breaking:**
 - Ensure the mattress weight does not exceed the bed frame's capacity.
 - Verify that the center support beam and its legs are correctly installed and providing adequate support.
 - Contact customer support for replacement slats if necessary.

8. SPECIFICATIONS

Feature	Detail
Model Number	M2I8O14
Size	Queen
Overall Product Dimensions (L x W x H)	84.6" x 62.2" x 75.6"
Bed Dimensions (L x W)	81.2" x 60.1"
Total Height	75.6"
Material	Solid Wood + MDF + Linen
