Woowind V05 Bomba de Aire

Woowind Kona Air Electric Air Pump Instruction Manual

MODEL: V05 BOMBA DE AIRE

Brand: Woowind

Introduction

The Woowind Kona Air Electric Air Pump is a compact, rechargeable, and versatile device designed for quick inflation and deflation of various inflatable items. Its portable design makes it ideal for outdoor activities, camping, and travel. This manual provides essential information for the safe and efficient operation of your Kona Air pump.

PALM SIZE

**Take it to
any outdoor
adventure.**

The Woowind Kona Air pump is designed to be ultra-portable and fits comfortably in the palm of your hand, making it easy to carry for any adventure.

Its lightweight and compact design allows for easy attachment to a backpack, ensuring it's ready for any outdoor adventure.

What's in the Box

- Electric air pump x1
- Silicone soft nozzle x1
- Funnel long nozzle x1
- Long nozzle x1
- Medium nozzle x1
- Short nozzle x1
- Type-C cable x1
- Storage bag x1
- User manual x1

KONA AIR

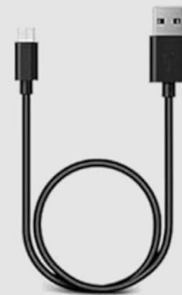

What's in the Box

Kona Air

Adapters

Charging Cable

The package includes the Kona Air pump, a set of versatile nozzle adapters, and a USB charging cable for convenience.

Setup

1. **Charging the Device:** Before first use, fully charge the Kona Air pump using the provided Type-

C USB cable. The charging port is located on the side of the device, protected by a silicone flap. Lift the flap and connect the cable to a suitable USB power source.

2. **Attaching Nozzles:** Select the appropriate nozzle adapter for your inflatable item. The pump comes with five versatile nozzle adapters to accommodate various valve sizes. Firmly insert the chosen nozzle into the inflation or deflation port of the pump.

Operating Instructions

Inflation and Deflation

The Kona Air pump features dual functionality for both inflation and deflation. Ensure you use the correct port for your desired action.

- **Inflation:** Connect the appropriate nozzle to the inflation port (typically indicated by an arrow pointing outwards). Insert the nozzle firmly into the valve of your inflatable item. Double-press the power button to start inflation. Double-press again to switch to a lower speed, and a third double-press will turn the pump off.
- **Deflation:** Connect the appropriate nozzle to the deflation port (typically indicated by an arrow pointing inwards). Insert the nozzle firmly into the valve of your inflatable item. Double-press the power button to start deflation. Double-press again to switch to a lower speed, and a third double-press will turn the pump off.

SMALL BUT MIGHTY

Ultra fast inflation in just 1 minute

LIGHT WEIGHT
140g

POWERFUL AIRFLOW
200L/min

The Woowind Kona Air pump provides ultra-fast inflation, allowing you to prepare your air mattress in just minutes.

Effortlessly inflate various items like air mattresses with the powerful airflow of the Kona Air pump.

Quickly deflate air mattresses and other inflatables for easy packing and storage.

The deflation function helps to quickly remove air, making packing up your camp simple and fast.

LED Camping Lantern Function

The Kona Air pump includes an integrated LED light with three modes for versatile illumination.

- **Activating the Light:** Single-press the power button to turn on the LED light.
- **Changing Modes:** Each subsequent single-press will cycle through the three light modes:

Bright, Dim, and SOS (flashing).

- **Turning Off:** After cycling through all modes, a final single-press will turn the LED light off.

LED LAMP

Dimmable camping light.

3 LIGHT MODES

The main image shows a woman in profile, looking upwards, holding a green Kona Air camping light. The light is illuminated and has the 'Kona Air' logo on it. Below this, there are three smaller images showing the light in different modes: 'Medium', 'Strong', and 'SOS Light'. Each inset image shows the light hanging from a red strap against a dark background.

The integrated LED light provides up to 10 hours of illumination, perfect for nighttime use as a camping lantern or emergency light.

Choose from three distinct light modes: Medium, Strong, and SOS, to suit your lighting needs in any situation.

Maintenance

- **Cleaning:** Wipe the exterior of the pump with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the pump and its accessories in the provided storage bag in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

Troubleshooting

- **Pump Not Turning On:** Ensure the battery is charged. If the battery is low, connect the pump to a power source using the Type-C cable.
- **Weak Airflow:** Check that the correct nozzle is securely attached and that there are no obstructions in the air intake or output ports. Ensure the inflatable item's valve is fully open.
- **LED Light Not Working:** Single-press the power button to cycle through the light modes. If it still doesn't work, ensure the device is charged.
- **Overheating:** If the pump feels excessively hot, turn it off and allow it to cool down before resuming use. Avoid continuous operation for very long periods.

Specifications

Feature	Detail
Brand	Woowind
Model Number	V05 Bomba de Aire (Manufacturer Part Number: 001)
Color	Green
Material	Plastic
Item Weight	0.14 Kilograms (approx. 0.304lb)
