damaged, please contact customer support.

- 1 x Conference Room Table (Tabletop and Frame Components)
- 1 x User Manual (This document)
- Hardware Pack (Screws, bolts, tools as required for assembly)

SETUP AND ASSEMBLY

Detailed, step-by-step instructions are provided for assembly. It is strongly recommended that assembly be performed by two people due to the heavy table boards and metal frame. Tools recommended for assembly include a screwdriver (not always included, but good to have). Ensure you have adequate space for assembly.

Assembly Steps Overview:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches. Identify each component using the provided parts list.
2. **Assemble Frame:** Connect the metal frame components according to the diagrams. Ensure all screws are finger-tightened initially. The frame features triangle structures and cross-shaped bracing for enhanced stability.
3. **Attach Tabletop:** Carefully place the tabletop onto the assembled frame. Align the pre-drilled holes on the tabletop with the frame. Secure the tabletop to the frame using the provided screws.
4. **Install Power Hub:** Integrate the built-in charging station into its designated slot on the tabletop. Connect any necessary wiring as per the instructions.
5. **Adjust Foot Pads:** The table includes adjustable foot pads. Once the table is upright, adjust these pads to ensure the table is level and stable on uneven ground.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts using the provided tools. Do not overtighten.

Power outlets are not working.	Table's power cord not plugged in; wall outlet not functioning; overloaded circuit.	Verify the table's power cord is securely plugged into a live wall outlet. Test the wall outlet with another device. Reduce the number of devices plugged into the power hub if overloaded.

Problem	Possible Cause	Solution
Scratches or damage to tabletop.	Sharp objects; abrasive cleaning materials.	Use coasters or protective mats for items. Avoid dragging objects across the surface. Use only soft cloths and mild cleaners for maintenance.
