

## IRONCK I-TG86-A

# IRONCK 8x6FT Outdoor Storage Shed with Window - Instruction Manual

Model: I-TG86-A

## 1. PRODUCT OVERVIEW

---

The IRONCK 8x6FT Outdoor Storage Shed is designed to provide a durable and versatile storage solution for your outdoor space. Constructed from thickened galvanized steel with a protective powder-coated finish, this shed is built to withstand various weather conditions. It features a clear window for natural light, lockable double doors for security, and integrated vents for air circulation.

This shed is suitable for storing gardening tools, pool supplies, BBQ equipment, seasonal decorations, or can be adapted for use as a pet house or recycling station.

## Key Features:

- **Clear Window Design:** Integrated clear windows allow natural daylight, improving visibility inside the shed.
- **Multi-Functional Storage:** Ideal for gardening tools, pool supplies, BBQ gear, seasonal decorations, or as a pet house/recycling station.
- **All-Weather Durability:** Made with water-repellent and fade-inhibiting materials, ensuring belongings stay dry and the shed maintains its appearance.
- **Double Doors & Ventilation:** Wide double front doors facilitate easy access for bulky items. A built-in top vent promotes air circulation.
- **Secure & Robust:** Features reinforced hinges, a stainless-steel lock, thickened galvanized steel, and a reinforced frame for security and longevity.

## 2. SETUP AND ASSEMBLY

Assembly of the IRONCK 8x6FT Outdoor Storage Shed requires careful attention to the instructions provided. All parts are pre-drilled and clearly labeled to simplify the process. It is highly recommended to have at least two people for assembly and to choose a calm, non-windy day. Ensure you have a clear, open space to lay out all components.

### 2.1 Before You Begin:

- **Read Instructions Thoroughly:** Review the entire manual and any included diagrams before starting.
- **Identify All Parts:** Unpack and identify all components, cross-referencing with the parts list.
- **Prepare Your Workspace:** Select a level, clear area for assembly. Consider using a tarp or blanket to protect parts from scratches.
- **Gather Tools:** Ensure you have the necessary tools, such as a drill, screwdriver, and gloves (two pairs are included).

## 2.2 Assembly Steps:

1. **Base Construction:** Assemble the base frame first, ensuring it is square and level.
2. **Wall Panel Installation:** Attach wall panels according to the labeled parts. Pay close attention to the orientation of each panel, especially those with windows.
3. **Door Frame Assembly:** Construct and install the door frames. Ensure hinges are properly aligned for smooth operation.
4. **Roof Structure:** Assemble the roof support beams and then attach the roof panels. Note that roof panels may have an overhang.
5. **Door Installation:** Mount the double doors, ensuring they open and close freely. Install the locking mechanism.
6. **Final Checks:** Verify all screws and bolts are tightened. Ensure the shed is stable and secure.

### 3. OPERATING INSTRUCTIONS

The IRONCK 8x6FT Outdoor Storage Shed is designed for straightforward operation, providing secure and accessible storage.

#### 3.1 Accessing the Shed:

- **Opening Doors:** The shed features double hinged doors. Unlock the doors using the provided key. Gently pull the handles to open both doors outwards.
- **Closing Doors:** Push both doors inward until they meet. Engage the locking mechanism and turn the key to secure the shed.
- **Ventilation:** The built-in top vents are designed to promote air circulation automatically. No manual operation is required for ventilation.

### 3.2 Storage and Organization:

- Utilize the spacious interior for various items. Consider adding shelving or hooks for optimal organization.
- The clear window provides natural light, making it easier to locate items inside.
- Avoid overloading the shed beyond its structural capacity. Distribute weight evenly.

## 4. MAINTENANCE

---

Regular maintenance will ensure the longevity and optimal performance of your IRONCK Outdoor Storage Shed.

### 4.1 Cleaning:

- Clean the exterior surfaces periodically with mild soap and water. Rinse thoroughly with a hose.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the powder-coated finish.
- Wipe down the interior as needed to prevent dust and debris buildup.

### 4.2 Inspection:

- Periodically inspect all screws, bolts, and connections to ensure they remain tight. Tighten any loose fasteners.
- Check door hinges for smooth operation and lubricate if necessary.
- Inspect the roof and wall panels for any signs of damage or wear. Address any issues promptly to maintain

weather resistance.

## 5. TROUBLESHOOTING

---

This section addresses common issues that may arise during or after the assembly of your storage shed.

### 5.1 Assembly Difficulties:

- **Parts Not Aligning:** Double-check that you are using the correct parts for each step as indicated by the labels. Ensure the base is perfectly level before attaching wall panels. Slight adjustments may be needed during assembly to ensure proper fit.
- **Missing or Damaged Parts:** If any parts are missing or damaged upon arrival, contact IRONCK customer support immediately with your product model number and a description of the issue.
- **Time-Consuming Assembly:** Assembly can take several hours. Patience is key. Refer to the 3D assembly video for visual guidance if needed.

### 5.2 Structural Stability:

- **Shed Feels Flimsy:** Ensure all screws and bolts are fully tightened. The shed gains significant rigidity as more components are assembled and secured. Proper anchoring to a solid foundation (e.g., concrete slab or wooden deck) is crucial for stability, especially in windy conditions.
- **Water Leakage:** Verify that all panels are correctly overlapped and secured, and that rubber washers are properly installed with screws where applicable. Check for any gaps around the window or door frames and seal if necessary.

### 5.3 Door Operation:

- **Doors Sticking or Not Closing Properly:** Check that the shed is level. Uneven ground can cause door misalignment. Inspect hinges for any obstructions or damage. Lubricate hinges if they are stiff.
- **Locking Mechanism Issues:** Ensure the doors are fully closed and aligned before attempting to lock. If the lock is stiff, apply a small amount of graphite lubricant.

## 6. SPECIFICATIONS

Feature	Detail
Brand	IRONCK
Model Number	I-TG86-A
Color	Brown
Material	Galvanized Steel
Product Dimensions (D x W x H)	77.56"D x 101.57"W x 73.23"H
Item Weight	163.14 Pounds
Door Width	47.8 Inches
Door Height	63 Inches
Frame Material	Galvanized Steel
Door Style	Double Hinged Doors
Water Resistance Level	Water Resistant
Required Assembly	Yes
UPC	722385215816

## 7. WARRANTY INFORMATION

Specific warranty details for the IRONCK 8x6FT Outdoor Storage Shed (Model I-TG86-A) are not provided in this manual. For comprehensive warranty information, please refer to the documentation included with your purchase or contact IRONCK customer support directly.

## 8. CUSTOMER SUPPORT

Should you require assistance with assembly, have questions about product features, or need to report

missing/damaged parts, please contact IRONCK customer support.

Please have your model number (I-TG86-A) and purchase information ready when contacting support to ensure efficient service.

For further information, you may visit the official IRONCK store or website.
