5. Maintenance

Cleaning

- **Metal Frame:** Wipe with a soft, damp cloth. Avoid abrasive cleaners.
- **Wood Panels:** Clean with a dry or slightly damp cloth. Use wood-safe cleaners if necessary.
- **Upholstered Headboard:** Spot clean with a mild fabric cleaner and a soft cloth. Test on an inconspicuous area first. Do not saturate the fabric.
- **Charging Station:** Ensure the power is disconnected before cleaning. Wipe the surface with a dry cloth.

General Care

- Periodically check all bolts and screws to ensure they remain tight. Loose connections can lead to instability and

noise.

- Avoid dragging the bed frame when moving it; lift it to prevent damage to the legs and floor.
- Do not jump on the bed frame, as this can compromise its structural integrity.

6. Troubleshooting
