

## Funsicle F9001448B

# Funsicle Oasis Above Ground Metal Frame Swimming Pool Set

Model: F9001448B - 14 ft x 48 in Round Pool

User Instruction Manual

## INTRODUCTION

---

This manual provides essential information for the safe assembly, operation, and maintenance of your Funsicle Oasis Above Ground Metal Frame Swimming Pool Set. Please read all instructions carefully before setting up and using your pool. Retain this manual for future reference.

Image: Funsicle Oasis Pool showing 14 ft diameter, 48 inch height, 4,000 gallons water capacity (80%), and ideal for 6-7 people.

The Funsicle Oasis 14ft x 48in Pool is designed for outdoor use, providing a spacious swimming area for families. It features a SmartConnect Pro frame for sturdy construction and includes a FiltraBoost FB1200S Pool Pump with AutoSkimmer for water filtration, a SureStep Ladder for access, a durable pool cover, ground cloth, and a Deluxe Maintenance Kit.

## IMPORTANT SAFETY INFORMATION

---

Failure to follow these safety instructions can result in serious injury or death. Always supervise children and individuals with disabilities near the pool.

- **Adult Supervision:** Never leave children unattended in or around the pool.
- **No Diving:** Do not dive or jump into the pool. The water depth is not sufficient for diving.
- **Secure Access:** Always use the SureStep Ladder for entry and exit. Remove the ladder when the pool is not in use to prevent unsupervised access.
- **Electrical Safety:** Ensure all electrical components, including the pump, are connected to a Ground Fault Circuit Interrupter (GFCI) outlet. Keep electrical cords away from water.
- **Chemical Handling:** Store pool chemicals safely, out of reach of children and pets. Follow manufacturer instructions for chemical dosage and handling.

- **Clear Pool Area:** Keep the area around the pool clear of obstacles and tripping hazards.
- **Emergency Preparedness:** Keep emergency equipment (e.g., life preserver, first aid kit) readily accessible.

## PACKAGE CONTENTS

---

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

Image: Overview of the Funsicle Oasis Pool Set components, including the pool, pump, ladder, cover, ground cloth, and maintenance kit.

- Funsicle Oasis 14ft x 48in Round Pool Liner
- SmartConnect Pro Metal Frame Components (Vertical pool legs, horizontal beams, T-Cup Connectors)
- Funsicle FiltraBoost FB1200S Pool Pump with AutoSkimmer and Filter Cartridge
- SureStep Ladder
- Durable Pool Cover
- Ground Cloth
- Deluxe Maintenance Kit (includes vacuum head, skimmer net, telescopic pole, hoses, clamps)
- Repair Patch
- Instruction Manual (this document)

## SETUP INSTRUCTIONS

---

### 1. Site Preparation

1. Choose a firm, level surface free of sharp objects, debris, and overhead power lines. The area must be able to support the weight of the filled pool (approximately 4,000 gallons of water plus occupants).
2. Ensure the chosen location is near a suitable electrical outlet (GFCI protected) for the pump and has good drainage.
3. Clear the area of any grass or vegetation that could damage the pool liner.
4. Spread the ground cloth evenly on the prepared site.

### 2. Frame Assembly

5. Unfold the pool liner and lay it out on the ground cloth, ensuring the drain valve is positioned where desired.
6. Assemble the horizontal beams by sliding them through the liner belt loops.
7. Connect the horizontal beams using the T-Cup Connectors.
8. Insert the vertical pool legs into the T-Cup Connectors and slide them into the open pockets of the liner belt.
9. Ensure all connections are secure and the frame is stable.

Image: Close-up of the new design showing the vertical pool leg outside the liner belt, the pool belt clip sliding into the open pocket, and the weld and liner belt details.

### 3. Pump and Ladder Installation

10. Refer to the separate pump manual for detailed instructions on assembling and connecting the FiltraBoost FB1200S pump to the pool's inlet and outlet fittings. Ensure all hoses are securely clamped.
11. Assemble the SureStep Ladder according to its dedicated instructions. Place the ladder on a solid, level surface outside the pool.

## OPERATING YOUR POOL

---

### 1. Filling the Pool

1. Ensure the drain valve is closed.
2. Begin filling the pool with water. As the water level rises, smooth out any wrinkles in the bottom of the liner.
3. Fill the pool to the recommended water line, typically just below the top horizontal beam or the skimmer opening. Do not overfill.

### 2. Pump Operation

Image: The Funsicle FiltraBoost FB1200S Pool Pump with AutoSkimmer, showing its transparent housing and filter cartridge.

- Once the pool is filled, plug the pump into a GFCI-protected electrical outlet.
- Run the pump for at least 4-6 hours daily to ensure proper water circulation and filtration.
- The AutoSkimmer feature will help remove surface debris automatically.

## MAINTENANCE

---

### 1. Water Chemistry

- Regularly test your pool water using a test kit. Maintain recommended levels for pH, chlorine, and alkalinity.
- Add appropriate pool chemicals as needed, following product instructions carefully.

### 2. Cleaning

- Use the included skimmer net to remove leaves and large debris from the water surface daily.
- Attach the vacuum head to the telescopic pole and hose, then connect to the pump's suction port (refer to pump manual) to vacuum the pool floor as needed.
- Brush the pool walls and floor regularly to prevent algae buildup.

### 3. Filter Maintenance

- Turn off and unplug the pump before performing any maintenance.
- Rinse the filter cartridge with a garden hose every few days, or more frequently depending on pool usage and debris.
- Replace the filter cartridge every 2-4 weeks, or when it becomes visibly dirty or clogged.

### 4. Winterization (for seasonal use)

- When temperatures drop below 40°F (5°C), the pool should be drained, cleaned, and disassembled to prevent damage from freezing water.
- Drain the pool completely using the drain valve.
- Clean and dry all components thoroughly before storing them in a dry, protected area.
- Store the pump and filter indoors in a climate-controlled environment.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Water is cloudy/dirty	Insufficient filtration, dirty filter, improper chemical balance, algae growth.	Run pump longer, clean/replace filter cartridge, test and adjust water chemistry, shock treat pool.
Pump not running	Not plugged in, GFCI tripped, motor overheated, clogged impeller.	Check power connection, reset GFCI, allow motor to cool, inspect and clear impeller.
Water leaking from pool	Puncture in liner, loose hose connection, faulty drain plug.	Locate and repair puncture with included patch, tighten hose clamps, ensure drain plug is secure.
Frame unstable	Uneven ground, loose connections, missing components.	Ensure pool is on level ground, check all SmartConnect Pro frame connections, verify all parts are installed.

## PRODUCT SPECIFICATIONS

<b>Brand</b>	Funsicle
<b>Model Number</b>	F9001448B
<b>Product Dimensions</b>	168"L x 168"W x 48"H (14 ft diameter x 48 in height)
<b>Shape</b>	Round
<b>Color</b>	Gray
<b>Capacity</b>	Approximately 4000 Gallons (at 80% fill)
<b>Material Type</b>	Polyvinyl Chloride (PVC) - 3-ply Toughmesh™
<b>Item Weight</b>	211 Pounds
<b>Indoor/Outdoor Usage</b>	Outdoor
<b>Required Assembly</b>	Yes
<b>Pump Flow Rate</b>	1,200 GPH (Gallons per hour)

Image: Cross-section illustrating the durable 3-ply Toughmesh™ material, composed of heavy gauge PVC and polyester mesh.

## WARRANTY AND CUSTOMER SUPPORT

For specific warranty information regarding your Funsicle Oasis Pool Set, please refer to the warranty card included in your original packaging or visit the official Funsicle website. Warranty terms typically cover manufacturing defects for a limited period from the date of purchase.

If you require assistance with assembly, troubleshooting, or have questions about your product, please contact Funsicle customer support. Contact details can usually be found on the product packaging or the manufacturer's website.

**Manufacturer:** Polygroup North America, Inc.
