SETUP (ASSEMBLY INSTRUCTIONS)

Before assembly, ensure all parts from the installation kit are present and undamaged. It is recommended to assemble the cabinet with at least two people. Use a soft, clean surface to prevent scratching the components.

- 1. Unpack and Identify Parts:** Carefully unpack all components and compare them against the parts list provided in your installation kit.
- 2. Assemble Base Unit:** Follow the step-by-step diagrams in your kit to construct the base frame of the cabinet. Ensure all cam locks and screws are tightened securely.

3. **Install Drawers:** Assemble the two storage drawers according to the instructions, ensuring the smooth-glide slides are correctly installed for proper function.
4. **Attach Upper Section:** Connect the upper cabinet section to the base, aligning all dowels and securing with the specified hardware.
5. **Insert Shelves:** Place the adjustable shelves into the desired positions. The cabinet features multiple height options for customization.
6. **Install Doors:** Attach the cabinet doors, ensuring they open and close smoothly. Adjust hinges if necessary for proper alignment.
7. **Secure Anti-Tip Device:** This is a critical safety step. Securely attach the anti-tip device to the top rear of the cabinet and to a wall stud using the provided hardware.
8. **Connect Charging Station:** Carefully route the power cord for the built-in charging station to a nearby wall outlet.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Retighten as needed.
- **Anti-Tip Device:** Regularly inspect the anti-tip device for secure attachment to both the cabinet and the wall.

TROUBLESHOOTING

- **Wobbly Cabinet:** Ensure the cabinet is placed on a level surface. Check all assembly hardware for tightness. Verify the anti-tip device is securely installed.
- **Drawers Stick:** Check that the drawer slides are properly aligned and free of obstructions. Ensure no items inside the drawer are preventing it from closing.
- **Doors Misaligned:** Adjust the hinges on the doors to correct any misalignment. Refer to the assembly instructions for hinge adjustment details.

- **Charging Station Not Working:** Ensure the power cord is fully plugged into a live wall outlet. Check if the wall outlet itself is functional by plugging in another device. Do not attempt to repair the charging station yourself; contact support if issues persist.
