## 3. PRODUCT OVERVIEW

---

Familiarize yourself with the components and controls of your Monster Mission 350 headset.

# DETACHABLE GAMING MICROPHONE

Pro-Grade Mic for Crystal-Clear In-Game Chat, Perfect for All Gaming & Daily Scenarios

**Figure 3.1:** The headset features a detachable and adjustable gaming microphone, designed for clear in-game communication and versatile use in various scenarios.

# IMMERSIVE RGB GAMING LIGHTING EFFECTS

Customizable RGB Lights for Stand-Out Style  
& Dynamic Gaming Atmosphere

**Figure 3.2:** The headset includes customizable RGB lighting effects on the earcups, allowing users to personalize their gaming setup and enhance the aesthetic appeal.

## Headset Controls (Refer to diagram in physical manual for exact placement)

- **Power Button:** Press and hold to power on/off.
- **Volume Wheel:** Adjusts audio output level.
- **Microphone Mute Button:** Toggles microphone on/off.
- **RGB Lighting Button:** Cycles through lighting modes or turns RGB off.
- **3.5mm Audio Jack:** For wired connection.
- **USB-C Charging Port:** For charging the headset.

## 4. SETUP

---

### 4.1. Charging the Headset

Before first use, fully charge the headset. Connect the USB charging cable to the headset's USB-C port and the other end to a USB power source (e.g., computer, wall adapter). The charging indicator light will show charging status and turn off or change color when fully charged. A full charge takes approximately 2 hours.

## 4.2. Connecting via 2.4GHz Wireless

This method provides a low-latency connection ideal for gaming.

1. Insert the 2.4GHz USB wireless dongle into an available USB port on your gaming console, desktop, or laptop.
2. Power on the Monster Mission 350 headset.
3. The headset should automatically connect to the dongle. A status indicator light on the headset will confirm the connection.
4. Adjust audio settings on your device to ensure the headset is selected as the input and output device.

## 4.3. Connecting via Bluetooth

Use Bluetooth for connecting to mobile devices, tablets, or other Bluetooth-enabled devices.

1. Power on the Monster Mission 350 headset.
2. Press and hold the Bluetooth pairing button (refer to physical manual for location) until the indicator light flashes, indicating pairing mode.
3. On your device, go to Bluetooth settings and search for "Monster Mission 350".
4. Select the headset to pair. The indicator light on the headset will become solid when connected.

## 4.4. Connecting via 3.5mm Audio Cable

For wired connections to devices with a 3.5mm audio jack, or when the battery is depleted.

1. Connect one end of the 3.5mm audio cable to the headset's 3.5mm audio jack.
2. Connect the other end to the 3.5mm audio output on your device.
3. The headset will operate in passive mode, and power is not required for audio playback.

**Figure 4.1:** The Monster Mission 350 supports dual audio connections, featuring Bluetooth 6.0 for mobile devices and a dedicated 2.4GHz wireless dongle for low-latency gaming on compatible platforms.

## 5. OPERATING INSTRUCTIONS

---

### 5.1. Power On/Off

Press and hold the Power button for approximately 3 seconds to turn the headset on or off. An audible prompt or indicator light will confirm the status.

### 5.2. Volume Control

Rotate the Volume wheel located on the earcup to increase or decrease the audio volume.

### 5.3. Microphone Usage

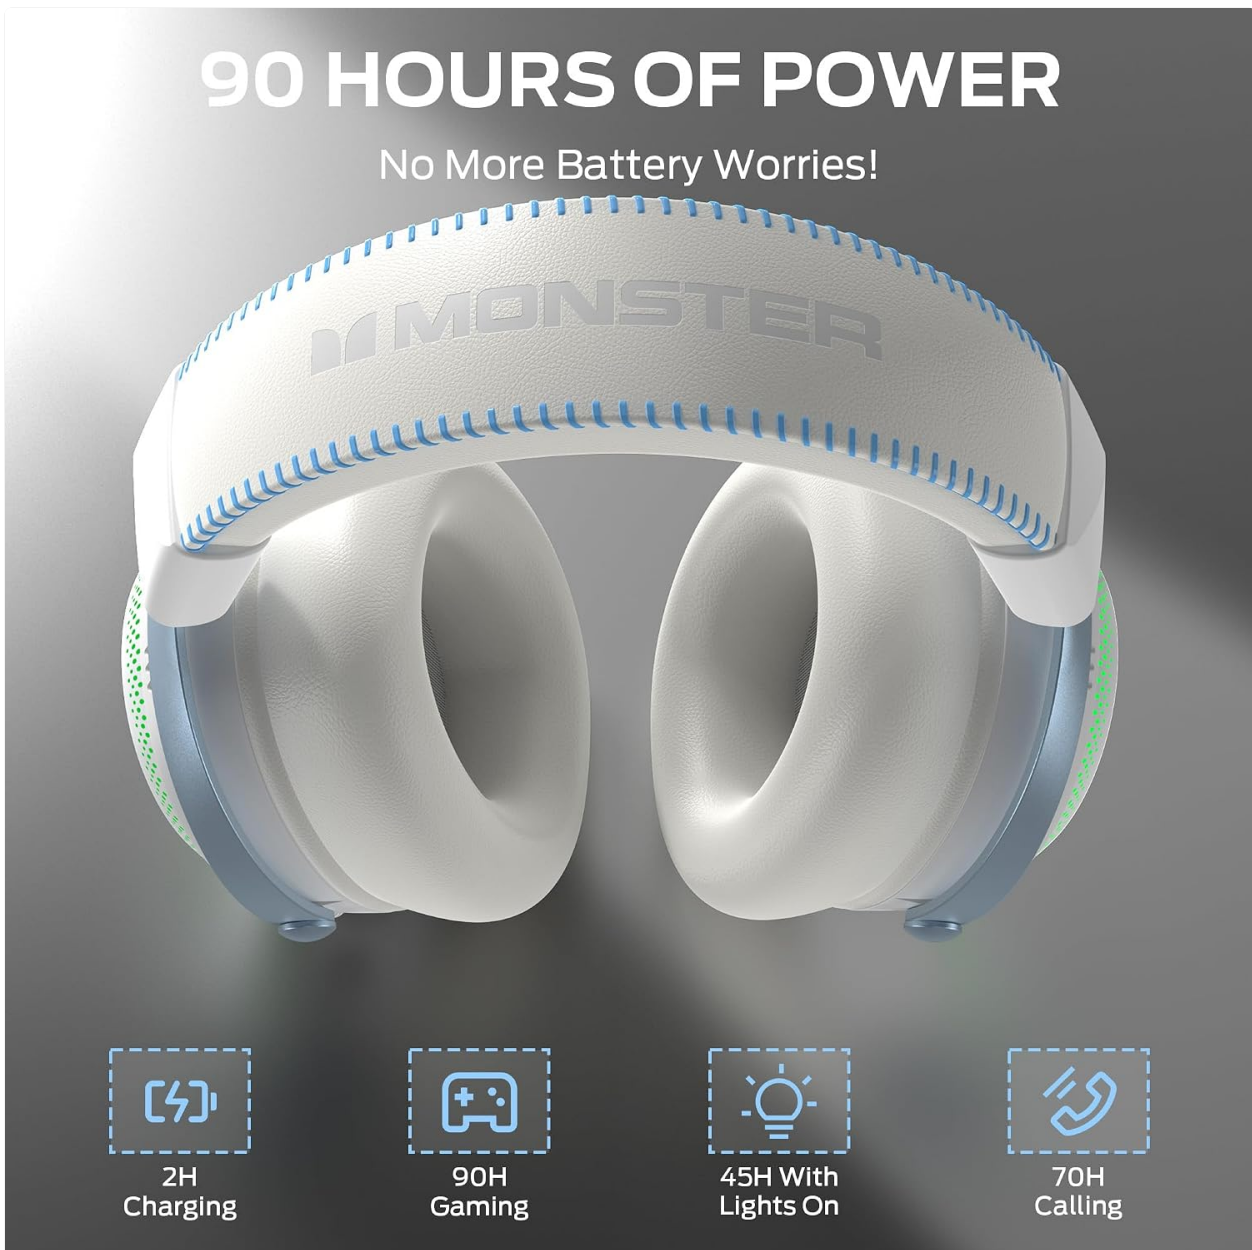

Attach the detachable microphone to the designated port on the headset. Press the Microphone Mute button to toggle the microphone on or off. The microphone can be adjusted for optimal positioning.

### 5.4. RGB Lighting Control

Press the RGB Lighting button to cycle through different lighting effects or to turn the RGB lighting off. This feature allows for customization of the headset's appearance.

## 5.5. Battery Life and Indicators

The headset provides approximately 70 hours of battery life for general use, or 45 hours with RGB lights continuously on. A low battery indicator will alert you when charging is required.

**Figure 5.1:** The Monster Mission 350 headset offers extended battery performance, with a 2-hour charge providing up to 90 hours of gaming, 45 hours with RGB lights active, or 70 hours for calls.

## 6. MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your headset.

- **Cleaning:** Use a soft, dry cloth to clean the headset. For earcups, gently wipe with a slightly damp cloth if necessary, and allow to air dry completely before use. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** The headset is **not** water resistant. Avoid exposure to liquids.
- **Battery Care:** To maintain battery health, avoid fully discharging the battery frequently. Charge the headset regularly, even if not in use for extended periods.

# ALL-DAY COMFORT

Ultra-Lightweight Build for Fatigue-Free Gaming

**Figure 6.1:** The Monster Mission 350 headset is designed for all-day comfort, featuring comfortable memory foam earcups, an adjustable headband, and soft, breathable earpads to reduce fatigue during extended use.

## 7. TROUBLESHOOTING

If you encounter issues with your Monster Mission 350 headset, refer to the following common problems and solutions:

Problem	Possible Solution
Headset does not power on.	Ensure the headset is fully charged. Press and hold the Power button for 3-5 seconds.
No sound or low volume.	Check headset volume wheel. Verify device's audio output settings. Ensure headset is properly connected (2.4GHz dongle, Bluetooth, or 3.5mm cable).
Microphone not working.	Ensure microphone is securely attached and not muted. Check device's input settings to confirm the headset microphone is selected.

Problem	Possible Solution
Cannot connect via 2.4GHz wireless.	Ensure the USB dongle is fully inserted. Try a different USB port. Power cycle both the headset and the device.
Cannot pair via Bluetooth.	Ensure headset is in pairing mode. Turn off and on Bluetooth on your device. Forget the device from your Bluetooth list and try pairing again.
RGB lights are not working.	Press the RGB Lighting button to cycle through modes. Ensure the headset has sufficient battery charge.
