Feelfunn PAC020-14K

Feelfunn 14,000 BTU Portable Air Conditioner Instruction Manual

Model: PAC020-14K

Product Overview

The Feelfunn 14,000 BTU Portable Air Conditioner (Model PAC020-14K) is a versatile 4-in-1 unit designed to provide cooling, fan, dehumidifying, and turbo functions. It is suitable for cooling areas up to 700 sq. ft. and features ultra-quiet operation, auto swing, and a 24-hour timer for enhanced comfort and convenience.

Setup and Installation

This portable air conditioner is designed for easy setup without the need for drilling. Follow these steps for proper

installation:

1. **Unpack the Unit:** Carefully remove the air conditioner and all accessories from the packaging. Ensure all components listed in the "What's in the Box" section are present.
2. **Positioning:** Place the unit on a flat, stable surface. The smooth 360° swivel casters and recessed handles allow for easy movement between rooms.
3. **Window Kit Installation:**
    - Assemble the adjustable window panels. These panels are compatible with sliding and hung windows and fit openings from 20.47 to 49.84 inches.
    - Secure the window kit in your window opening, ensuring a tight seal to prevent air leakage.
    - Attach the exhaust hose to the unit and then to the window kit adapter. Ensure the hose is extended and not kinked to allow for proper air exhaust.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.

Operating Instructions

Your Feelfunn portable AC offers multiple operating modes and convenient controls.

Control Panel and Remote Control

The unit can be controlled via the intuitive touch panel on top of the unit or the included remote control (effective up to 23 ft). The clear LED display shows current settings.

Image: "At-a-Glance Control Panel" - Showing timer, fan speed, temperature adjustment, mode, and power buttons.

Image: "Full-function Remote Control with Display" - Demonstrating remote control usage from up to 23 feet.

Operating Modes

- **Cool Mode:** Provides powerful cooling for rooms up to 700 sq. ft. Adjust the temperature between 64°F and 90°F. The wide-angle auto swing feature ensures even distribution of cool air.
- **Fan Mode:** Circulates air without cooling. Ideal for light ventilation.
- **Dehumidifier Mode (Dry Mode):** Removes excess moisture from the air, extracting up to 95 pints per day, to create a more comfortable environment.
- **Turbo Mode:** Delivers rapid cooling when quick temperature reduction is needed.
- **Sleep Mode:** Operates at an ultra-quiet 42dB, automatically adjusting temperature and dimming the display for undisturbed rest and energy saving.

Additional Features

- **24-Hour Timer:** Program the unit to turn on or off automatically.
- **Auto Swing:** The wide-angle auto swing feature ensures cool air reaches all corners of the room.
- **Child Lock:** Prevents accidental changes to settings.

Maintenance

Regular maintenance ensures optimal performance and longevity of your air conditioner.

- **Filter Cleaning:** The air filter should be cleaned regularly (e.g., every two weeks, depending on usage) to maintain air quality and cooling efficiency. Remove the filter, wash it with warm, soapy water, rinse thoroughly, and allow it to air dry completely before reinserting.
- **Water Drainage:** The unit features auto-evaporation technology, which typically handles most condensed water. However, in high humidity conditions or when using the dehumidifier mode, the internal water tank may fill. A built-in full-water alert will notify you. Drain the water from the unit using the drainage hose as instructed in the full user manual.

- **Exterior Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Before long-term storage, ensure the unit is completely drained of water and the filter is clean and dry. Store in a cool, dry place.

Troubleshooting

If you encounter issues with your Feelfunn portable air conditioner, refer to the following common troubleshooting tips. For more detailed solutions, consult the comprehensive instruction manual.

Problem	Possible Cause	Solution
Unit does not turn on	No power, power cord unplugged, circuit breaker tripped.	Check power connection, ensure outlet is functional, reset circuit breaker.
Insufficient cooling	Dirty air filter, blocked air intake/exhaust, room size too large, windows/doors open.	Clean air filter, ensure clear airflow, close windows/doors, verify unit BTU matches room size.
Water full indicator light is on	Internal water tank is full.	Drain the water from the unit using the drainage hose.
Unit is noisy	Unit not on a level surface, fan obstruction.	Ensure unit is on a flat surface, check for obstructions in fan area.

Product Specifications

Feature	Detail
Brand	Feelfunn
Model Name	PAC020-14K
Cooling Power	14,000 British Thermal Units (ASHRAE) / 10,000 BTU (SACC)

Feature	Detail
