### Aurzen D1R air (Model A03A11)

# Aurzen Roku TV D1R air Smart Portable Projector User Manual

Model: D1R air (A03A11)

## Introduction

The Aurzen Roku TV D1R air is a smart portable projector designed for versatile entertainment. Featuring built-in Roku TV, it offers direct access to streaming services without additional devices. Its portable design, USB-C power compatibility, native 1080P resolution, and Dolby Audio make it suitable for both indoor and outdoor use. This manual provides essential information for setting up, operating, and maintaining your projector.

# 1. Setup

## 1.1 Unboxing and Components

Before starting, ensure all components are present:

- Aurzen EAZZE D1R air Roku TV Projector
- Remote Control
- Power Adapter
- Dust Cleaning Kit
- User Manual

*Note: An HDMI cable is not included.*

## 1.2 Powering On

The projector supports 65W+ USB-C PD power input. Connect the included power adapter to the USB-C port at the bottom of the projector and to a power outlet. Alternatively, for portable use, connect to a compatible 65W+ USB-C PD power bank (20V/3.25A output with a 5A E-Marker USB-C to USB-C cable, sold separately).

## 1.3 Initial Roku TV Activation

Upon first power-on, you will be guided through the Roku TV setup process. An internet connection and a free Roku account are required for activation and access to streaming services.

## 1.4 Placement and Adjustment

The projector features a smooth-damping gimbal stand for flexible placement. It can rotate fluidly and maintain its position. The bottom power design prevents cable interference during rotation.

- **Gimbal Stand:** Adjust the projector angle to project onto walls, ceilings, or screens.
- **TOF Real-Time Auto Focus:** The projector automatically detects distance and adjusts focus for a clear image.
- **Auto Keystone Correction:** This feature automatically corrects image distortion to keep the picture straight, even when the projector is placed at an angle.

## 2. Operating Instructions

### 2.1 Roku TV Interface Navigation

The projector features a simple Roku Home Screen for intuitive navigation. Use the included remote control or the Roku mobile app to browse channels, search for content, and access personalized recommendations.

Image: The Roku TV interface projected onto a wall, showing various streaming app icons.

## 2.2 Remote Control and Mobile App

The projector comes with a standard Roku remote. For enhanced control, download the Roku mobile app to your smartphone. The app allows for easy typing, voice commands, and private listening through headphones.

## 2.3 Picture Modes

Select from 6 available picture modes to optimize your viewing experience:

- **Roku:** Default mode.
- **Vivid:** Enhanced colors and brightness.
- **Standard:** Balanced settings.
- **Eco:** Energy-saving mode with reduced brightness.
- **Movie:** Optimized for film viewing.
- **Sports:** Enhanced for sports content.

## 2.4 Connectivity

The D1R air offers various connectivity options:

- **Wi-Fi:** Dual-band (2.4G/5G) for stable streaming.
- **Bluetooth 5.2:** Connect to external speakers or headphones.
- **HDMI Port:** Connect to laptops, game consoles, or TV sticks.
- **USB Port:** Play media from USB drives.
- **Audio Out:** Connect to external audio systems.
- **USB-C Port:** For power input.
- **Apple AirPlay:** Supports mirroring from Apple devices.

## 3. Maintenance

### 3.1 Dust Cleaning Access

The D1R air projector is designed with easy dust cleaning access to facilitate maintenance and reduce dust and pet hair buildup. Use the provided dust cleaning kit or a cotton swab to clean the accessible areas.

Image: A diagram illustrating the easy dust cleaning access on the Aurzen D1R air projector, showing how to clean with a cotton swab.

## 4. Troubleshooting

### 4.1 Image Clarity Issues

- **Blurry Image:** Ensure the projector is placed within the recommended throw distance (3.63 to 13.62 feet). The auto-focus feature should correct this, but manual adjustment might be needed if available in settings.
- **Distorted Image:** The auto keystone correction should keep the image straight. If not, check projector placement or look for manual keystone adjustments in the settings.
- **Dim Image:** For best image quality, use the projector in a dark or low-light room. For daytime use, blackout curtains or shades are recommended. Avoid direct sunlight. Adjust picture modes (e.g., Vivid) for brighter output.

### 4.2 Fan Noise

Fan noise at 1 meter ranges from 29-35 dB depending on the selected picture mode. A steady fan sound is normal during operation. If the noise is unusually loud or inconsistent, ensure the projector's vents are not blocked.

### 4.3 Power Issues

- **Projector Not Turning On:** Verify that the USB-C power source provides 65W+ PD with 20V/3.25A output and that a 5A E-Marker USB-C to USB-C cable is used. Ensure all connections are secure.
- **Intermittent Power:** Check the power cable and adapter for damage. If using a power bank, ensure it is adequately charged and meets the power requirements.

### 4.4 Connectivity Problems

- **No Wi-Fi Connection:** Ensure your Wi-Fi network is active and within range. Re-enter Wi-Fi password if necessary.
- **Bluetooth Device Not Connecting:** Ensure the Bluetooth device is in pairing mode and within range. Try restarting both the projector and the Bluetooth device.
- **No Signal from HDMI/USB:** Verify the external device is powered on and correctly connected to the correct port. Select the appropriate input source on the projector.

## 5. Specifications

| Feature | Detail |
|---|---|
| Brand | Aurzen |
| Model Name | D1R air (Roku TV) |
| Model Number | A03A11 |
