3. SETUP GUIDE

3.1 Initial Charging

Before first use, fully charge the smart watch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power adapter (not included). A full charge typically takes about 2 hours.

3.2 SIM Card Installation

The watch comes with a pre-installed data-only SIM card for 1 year of free data service for location tracking. For voice calls, you will need to insert your own standard SIM card with voice service.

1. Ensure the watch is powered off.
2. Locate the SIM card slot on the side of the watch.
3. Carefully insert your standard SIM card into the slot, ensuring correct orientation.
4. Close the SIM card slot cover securely.

3.3 App Download and Device Binding

To utilize all features, download the companion mobile application (e.g., 'Setracker2' or similar, as indicated on the watch screen) on your smartphone (Android or iOS).

Image: Step-by-step guide for initial setup, including SIM card insertion and app binding.

1. Power on the watch.
2. Tap the 'QR code' icon on the watch screen.
3. Click on 'APP code' to display the QR code for app download.
4. Scan the QR code with your smartphone to download the appropriate app (e.g., 'Setracker2').
5. Once the app is installed, open it and select the option to 'Add Device'.
6. On the watch, open the QR code again and click 'Register code'.
7. Use the app on your phone to scan the registration QR code displayed on the watch to complete the binding process.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

- **To Power On:** Press and hold the power button until the screen lights up.
- **To Power Off:** Press and hold the power button, then select 'Power Off' on the screen.

4.2 Fall Detection & SOS

The watch features a built-in high-precision sensor to detect accidental falls. When a fall is detected, the watch will automatically send an emergency alert to designated contacts via the app. This service does not incur monthly fees.

Image: The watch detecting a fall and displaying an alert.

In an emergency, you can manually trigger an SOS alert:

- **SOS Button:** Press and hold the power button for 3 seconds. The watch will send an SOS alert to your preset emergency contacts and initiate calls to them until one is answered.

4.3 Real-time GPS Tracking

The watch uses advanced GPS technology (GPS+Beidou+LBS+WIFI+TDOA+Inertial gyroscope) to provide real-time location tracking. You can view the current location and one month of location history through the companion app on your smartphone.

Image: Multiple positioning modes for precise location tracking displayed on a smartphone app.

Location updates can be set to intervals of approximately 10 minutes, 60 minutes, or 1 minute, depending on your configuration in the app.

4.4 Two-way Calling & Voice Messaging

Once a standard SIM card with voice service is inserted and the device is bound to the app, you can make and receive calls directly from the watch. You can also send and receive voice messages through the app.

4.5 Health Monitoring

The watch provides various health metrics:

- **Heart Rate:** Monitor your heart rate in real-time.
- **Blood Pressure:** Measure your blood pressure.
- **Blood Oxygen:** Check your blood oxygen saturation levels.
- **Temperature-check:** Monitor body temperature.

These readings can be accessed directly on the watch or through the companion app.

4.6 Other Functions

The watch includes a variety of other useful features:

- **Pedometer:** Tracks your daily step count.
- **Sleep Monitor:** Monitors sleep patterns.
- **Alarm:** Set reminders for daily activities.

- **Calculator:** Basic arithmetic functions.
- **Notifications:** Receive alerts from your paired smartphone.
- **Chronometer:** Stopwatch function.
- **Medicine Reminder:** Set reminders for medication times.
- **Sedentary Reminder:** Prompts you to move after periods of inactivity.
- **Safety Area:** Define safe zones, and receive alerts if the watch leaves or enters these areas.

4.7 Watch Function Showcase Video

Video: This video demonstrates various functions of the Fajocru 4G Senior GPS Smart Watch, including its SOS call feature and interaction with the companion mobile application.

5. MAINTENANCE

5.1 Cleaning

Wipe the watch regularly with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and then dry thoroughly. Avoid using harsh chemicals or abrasive materials.

5.2 Water Resistance (IP67)

The watch is IP67 water-resistant, meaning it is protected against dust and can withstand temporary immersion in water up to 1 meter for 30 minutes. It is suitable for daily use like hand washing or rain exposure. However, it is not recommended for swimming, showering, or diving.

5.3 Storage

Store the watch in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods. Ensure it is fully charged before long-term storage.

6. TROUBLESHOOTING

6.1 Watch Not Turning On

- Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- Press and hold the power button for an extended period (10-15 seconds) to attempt a forced restart.

6.2 Inaccurate GPS Location

- Ensure the watch has a clear view of the sky for optimal GPS signal reception.
- Check if the SIM card has active data service.
- Verify that the location update frequency settings in the app are appropriate.

6.3 Cannot Make/Receive Calls

- Confirm that a standard SIM card with active voice service is correctly inserted.
- Check for network coverage in your area.
- Ensure emergency contacts are correctly set up in the companion app.

6.4 Fall Detection Not Working

- Ensure the fall detection feature is enabled in the companion app settings.
- Verify that emergency contacts are correctly configured to receive alerts.

6.5 App Connectivity Issues

- Ensure your smartphone has an active internet connection.
- Restart both the watch and your smartphone.
- Check if the app is updated to the latest version.
- Re-bind the device if necessary, following the setup instructions.
