1. INTRODUCTION

Thank you for choosing the THINK 30 Model 377 Outdoor Fir Wood Cat Enclosure. This multi-level catio is designed to provide a safe, stimulating, and comfortable environment for your cats to enjoy both indoors and outdoors. Crafted from durable fir wood with a secure metal mesh, it offers ample space for climbing, exploring, and resting, while satisfying your cat's natural instincts.

This manual provides detailed instructions for assembly, setup, operation, and maintenance to ensure the longevity and safe use of your cat enclosure. Please read all instructions carefully before assembly and retain this manual for future reference.

2. SAFETY INFORMATION

Please observe the following safety precautions to prevent injury to pets or individuals and damage to the product:

- **Read All Instructions:** Before assembly and use, carefully read and understand all instructions provided in this manual.
- **Adult Assembly Required:** Assembly should be performed by at least two adults. Keep children and pets away from the assembly area.
- **Inspect Components:** Before assembly, check all parts for damage. Do not use if any parts are broken or missing.
- **Secure Placement:** Place the enclosure on a flat, stable, and level surface. For outdoor use, consider anchoring the enclosure to prevent tipping in strong winds.
- **Regular Inspection:** Periodically inspect the enclosure for loose screws, damaged wood, or compromised mesh. Tighten fasteners and repair or replace damaged parts as needed.
- **Ventilation:** Ensure adequate ventilation, especially if placed in direct sunlight, to prevent overheating.

- **Pet Supervision:** While designed for safety, always supervise your pets, especially during initial use.
- **Weight Limit:** Do not allow excessive weight on platforms or roofs. This enclosure is designed for cats.
- **Chemicals:** Avoid using harsh chemicals for cleaning, as they may be harmful to pets.

3. PACKAGE CONTENTS

Before beginning assembly, ensure all parts listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Fir Wood Frame Panels (various sizes)
- Metal Mesh Panels
- 2 x Sleeping Houses (Condos) with bear-shaped entrances
- 5 x Jumping Platforms
- 1 x Scratching Post (Rope Climbing Post)
- 1 x Scratching Board
- Hardware Pack (screws, bolts, nuts, hinges, latches)
- Assembly Tools (e.g., Allen wrench, screwdriver - may not be included)
- Instruction Manual

Important Reminder

All the pictures are taken by actual product.

Slight chromatic aberration may occur due to the shooting environment, lighting, display, etc. **Please refer to the actual product.**

4. ASSEMBLY INSTRUCTIONS

Assembly of the THINK 30 Model 377 Cat Enclosure requires two adults. Please follow these general steps. Refer to the included detailed assembly diagram for specific part identification and fastener usage.

1. **Prepare the Area:** Clear a spacious, level area for assembly. Lay out all components and hardware.
2. **Assemble Base Frame:** Connect the bottom frame panels using the provided screws and connectors. Ensure all joints are secure.
3. **Attach Side Panels:** Secure the side frame panels and mesh panels to the base frame. Work systematically to ensure proper alignment.
4. **Install Interior Platforms:** Attach the five jumping platforms at various heights as indicated in the diagram. Ensure they are firmly secured to support your cat's weight.
5. **Mount Sleeping Houses:** Install the two sleeping houses (condos) onto the designated frame sections. Verify they are stable.

6. **Integrate Scratching Elements:** Secure the scratching post and scratching board within the enclosure.
7. **Attach Roof Panels:** Install the roof panels, ensuring they are properly aligned and securely fastened to provide weather protection.
8. **Install Doors:** Attach the large front door and the two small side doors using the hinges. Install latches to ensure secure closure.
9. **Final Inspection:** Once assembled, check all screws and connections to ensure they are tight. Gently shake the enclosure to confirm stability.

Note: Specific screw types and panel orientations will be detailed in the separate assembly diagram included with your product.

5. SETUP & PLACEMENT

Proper placement and setup are essential for your cat's comfort and the enclosure's stability.

- **Location:** Choose a location that is level and stable. For outdoor use, select an area that offers some shade during the hottest parts of the day and protection from strong winds.
- **Ground Preparation:** If placing on grass or uneven ground, consider laying down a protective barrier or leveling the area to ensure the enclosure remains stable and prevents moisture from affecting the wood.
- **Anchoring (Outdoor Use):** For added stability, especially in areas prone to wind, it is highly recommended to anchor the enclosure to the ground using appropriate stakes or weights (not included).
- **Accessibility:** Ensure the doors are easily accessible for cleaning and interacting with your cats.
- **Initial Introduction:** Allow your cats to explore the enclosure at their own pace. You may place familiar bedding, toys, or treats inside to encourage them.

6. OPERATING FEATURES

The THINK 30 Model 377 Cat Enclosure is designed with several features for your cat's enjoyment and your convenience.

- **Doors:** The enclosure features a large front door for easy access and cleaning, and two smaller side doors for quick entry/exit for your cats. Ensure all doors are securely latched when your cats are inside.
- **Jumping Platforms:** Cats can utilize the five elevated platforms for climbing, perching, and observing their surroundings. These platforms encourage exercise and mental stimulation.
- **Sleeping Houses (Condos):** The two enclosed sleeping houses provide cozy, private spaces for your cats to rest and feel secure.
- **Scratching Post & Board:** The integrated scratching post and board allow your cats to satisfy their natural urge to scratch, helping to maintain claw health and protect other surfaces.
- **Ventilation:** The metal mesh design ensures excellent air circulation, providing a fresh and comfortable environment.

7. MAINTENANCE

Regular maintenance will extend the life of your cat enclosure and ensure a healthy environment for your pets.

- **Daily Cleaning:** Remove any waste, spilled food, or water daily.
- **Weekly Cleaning:** Wipe down all surfaces (wood and mesh) with a damp cloth and a mild, pet-safe cleaner. Ensure the enclosure is thoroughly dry before allowing pets back inside.
- **Wood Care:** The fir wood is treated for weather resistance, but periodic inspection for wear and tear is recommended. If used outdoors, consider applying a pet-safe wood sealant annually to prolong its life.
- **Mesh Inspection:** Regularly check the metal mesh for any signs of damage, rust, or sharp edges that could injure your pet. Repair or replace as necessary.
- **Hardware Check:** Periodically check all screws, bolts, and latches. Tighten any loose fasteners to maintain structural integrity.
- **Scratching Elements:** Replace the scratching post or board if it becomes excessively worn to ensure your cat

continues to use it effectively.

8. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Enclosure feels wobbly or unstable.	Loose fasteners; uneven ground.	Ensure all screws and bolts are tightened. Relocate to a level surface or use shims to stabilize. For outdoor use, consider anchoring.
Doors do not close or latch properly.	Misaligned hinges; bent latch mechanism.	Check hinge alignment and adjust if necessary. Ensure the latch mechanism is free of obstructions and not bent.
Cats are not using the scratching post/board.	Preference for other surfaces; unfamiliarity.	Try sprinkling catnip on the scratching elements. Gently guide your cat's paws to the surface. Ensure the scratching post is stable.
Wood shows signs of weathering (outdoor use).	Exposure to elements.	Apply a pet-safe, weather-resistant wood sealant. Ensure proper drainage around the base.

9. SPECIFICATIONS

Feature	Detail
Model Number	377
Brand	THINK 30
Product Dimensions (L x W x H)	67" x 33.9" x 70" (170.18 cm x 86.11 cm x 177.8 cm)
