An overview highlighting the main features: Sensor and App control, Large Capacity, Clean and Safe filtration, Comfortable Quiet Design, Cordless operation, and Dishwasher Compatibility.

Key Features:

- **Cordless Design:** Equipped with a 5000mAh lithium battery, allowing approximately 83 days of operation on a full charge (based on intermittent mode, 24 water supplies/day). This eliminates concerns about pets chewing cords and allows placement anywhere without an outlet.
- **3L Large Capacity:** The generous 3-liter tank ensures a continuous supply of fresh water, suitable for multi-pet households.
- **Advanced Filtration System:** Features a multi-layer filter to remove impurities, chlorine, and microorganisms, providing clean and healthy water.
- **Ultra-Quiet Operation:** Engineered with a unique water flow structure to reduce noise to 26dB, ensuring a peaceful environment for both pets and owners.
- **Smart App Control:** Connects via Bluetooth to a dedicated app, allowing you to monitor water consumption, set dispensing modes, check filter status, and perform remote operations.
- **Dishwasher Safe:** All washable parts, including the stainless steel tray, are dishwasher compatible for easy and thorough cleaning.
- **BPA-Free Materials:** Constructed from safe, BPA-free materials for your pet's health.

3. **Fill with Water:** Fill the water tank with clean tap water up to the MAX fill line. Do not overfill.
4. **Place the Top Cover:** Securely place the top cover back onto the main unit.
5. **Download the PETKIT App:** Search for "PETKIT" in your smartphone's app store (iOS or Android) and download the official app.
6. **Connect via Bluetooth:** Open the PETKIT app, create an account if you don't have one, and follow the in-app instructions to connect your P4116-SET fountain via Bluetooth.

6. OPERATING INSTRUCTIONS

Once set up, operating your PETKIT water fountain is simple:

- **Automatic Dispensing:** The infrared proximity sensor detects your pet approaching within a 90-degree range and dispenses water automatically.
- **App Control:** Use the PETKIT app to:
 - Monitor your pet's daily, weekly, and monthly water intake.
 - Adjust water dispensing modes (e.g., intermittent, continuous).
 - Check the remaining battery life.
 - Receive notifications for low water levels or filter replacement.

- Perform remote operations, such as manual water dispensing.

- **Pump Cleaning:** Periodically clean the water pump to prevent mineral buildup and ensure proper function. Refer to the app or PETKIT website for detailed pump cleaning instructions.

8. TROUBLESHOOTING

If you encounter issues with your PETKIT water fountain, refer to the following common problems and solutions:

- **No Water Dispensing:**
 - Check if the water tank has sufficient water.
 - Ensure the device is charged.
 - Verify the pump is clean and free of debris.
 - Check if the sensor is obstructed.
- **Unusual Noise:**
 - Ensure the water level is above the minimum mark.

- Clean the pump and check for any foreign objects.
- Ensure all components are assembled correctly.

- **App Connectivity Issues:**

- Ensure Bluetooth is enabled on your smartphone.
- Make sure the fountain is within Bluetooth range.
- Restart the PETKIT app and/or your smartphone.
- Try resetting the fountain (refer to app for specific instructions).

- **Indicator Light Flashing:**

- Refer to the PETKIT app for specific error codes or light patterns. Common flashes indicate low water or filter replacement needed.

If the problem persists, please contact PETKIT customer support.
