Thank you for choosing the LUMISOL L-Shaped Twin Corner Bed with Trundle and Drawers, Model LM21. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed. Please read these instructions carefully before beginning assembly and retain them for future reference.

2. SAFETY INFORMATION

To ensure safe use of this product, please adhere to the following guidelines:

- **Mattress Thickness:** Ensure the mattress thickness does not exceed 6 inches for both the main beds and the trundle bed. Using thicker mattresses may compromise safety and functionality.

- **Regular Checks:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as necessary.
- **Children's Safety:** Keep small parts and packaging materials away from children during assembly. This bed is designed for child use, but adult supervision is recommended, especially when using the trundle or desk features.
- **Placement:** Place the bed on a flat, stable surface. Avoid placing it near heat sources or open flames.

- To retract the trundle bed, push it back into the main bed frame until it is fully nested.
- Ensure the area around the trundle is clear before extending or retracting to prevent obstruction or damage.

6.2 Using the Storage Drawers

- The two storage drawers are located beneath one of the main bed frames. Pull the handles to open them.
- Push the drawers back in until they are fully closed and flush with the bed frame.
- Avoid overloading the drawers to ensure smooth operation and prevent damage to the runners.

6.3 Using the Integrated Desk and Storage

- The central unit features a flip-top desk. To access the desk surface, lift the top panel.
- Beneath the desk surface is an internal storage compartment. Lift the desk surface further to access this space.

7. MAINTENANCE

7.1 Cleaning

- **Upholstery:** For general cleaning, vacuum the upholstered surfaces regularly using a soft brush attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.

- **Wood/MDF Surfaces:** Wipe down wood and MDF surfaces with a soft, damp cloth. Dry immediately with a clean cloth. Avoid excessive moisture.

7.2 General Care

- Periodically check all hardware (bolts, screws) and re-tighten as needed to maintain stability.
- Avoid dragging the bed when moving it; always lift it with assistance to prevent damage to the frame or floor.
- Protect the bed from direct sunlight and extreme temperature changes to prevent fading or material degradation.
