Sannwsg B0GSZ5JWR8

Sannwsg Large Metal Chicken Coop Instruction Manual

Model: B0GSZ5JWR8

Dimensions: 118"L x 78"W x 79"H

1. INTRODUCTION

This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your Sannwsg Large Metal Chicken Coop. Please read all instructions carefully before beginning assembly or use. Proper installation and care will ensure the longevity and functionality of your chicken coop.

Product Size Details

Overall Size : 9.8 x 6.56 x 6.56 FT

For 7-10 chickens

2. SAFETY INFORMATION

- Always wear appropriate safety gear, such as gloves, during assembly to prevent cuts or pinches.
- Ensure all connections are securely fastened before placing animals inside the coop.
- Do not allow children to climb on or play inside the coop unsupervised.
- Regularly inspect the coop for any damaged parts or sharp edges that could harm animals or handlers.
- Position the coop on a level surface to ensure stability.

3. PACKAGE CONTENTS

Verify that all components are present before starting assembly. If any parts are missing or damaged, contact customer support.

- Galvanized Steel Pipe Framing (various lengths and shapes)
- PVC-Coated Hexagonal Wire Mesh Panels

- Removable PE (Polyethylene) Tarpaulin Cover
- Metal Chicken Perch (55"L x 40"W)
- Door Assembly with 3 Reinforced Metal Locks
- Rubber Ropes for securing cover
- Connectors and Fasteners (Sturdy Connections, Spring Plungers)

4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps for proper assembly. It is recommended to have at least two people for assembly.

4.1 Frame Assembly

1. Unpack all components and lay them out on a clear, flat surface.
2. Begin by connecting the main galvanized steel pipes using the provided connectors and spring plungers. Ensure all connections are firm and secure.
3. Assemble the roof frame structure, ensuring the gabled design is correctly oriented for water drainage.

Figure 3: Details of sturdy connections and securing mechanisms.

4.2 Mesh and Cover Installation

1. Attach the PVC-coated hexagonal wire mesh panels to the assembled frame. Ensure the mesh is taut and

securely fastened to prevent gaps.

2. Install the door assembly, ensuring the hinges operate smoothly and the three reinforced metal locks engage properly.
3. Drape the PE tarpaulin cover over the gabled roof frame. Secure the cover using the provided rubber ropes, ensuring it is taut to prevent water pooling.

Figure 4: Detail of the seamless hexagonal wire mesh for predator protection.

4.3 Perch Installation

1. Position the metal chicken perch inside the coop according to your preference. Ensure it is stable and at a suitable height for your poultry.

Figure 5: Interior view with the installed multi-level chicken perch.

5. OPERATING INSTRUCTIONS

5.1 Access and Security

- The coop features a split walk-in door. Use the three reinforced metal locks to secure the door.
- For feeding or quick access, you can open sections of the door without fully opening the entire entrance. Always ensure the locks are engaged when not actively accessing the coop to prevent predators.

Figure 6: The three U-shaped locks allow for sectional or full door opening.

5.2 Weather Protection

- The removable PE tarpaulin cover provides protection from sun, rain, and snow. Ensure it is properly secured with the rubber ropes during adverse weather conditions.
- The gabled roof design facilitates efficient drainage, preventing water and snow accumulation.

Figure 7: The coop offers all-weather protection from sun, rain, and snow.

6. MAINTENANCE

- **Regular Cleaning:** Clean the coop regularly to maintain a hygienic environment for your animals. The metal and mesh materials are designed for easy cleaning.
- **Frame Inspection:** Periodically check all steel pipe connections and fasteners for tightness. Re-tighten if necessary.
- **Mesh Integrity:** Inspect the PVC-coated hexagonal wire mesh for any signs of damage or wear. Repair or replace damaged sections to maintain predator protection.
- **Cover Care:** Clean the tarpaulin cover with mild soap and water. Ensure it is dry before storing if removed for extended periods. Check for tears or damage, especially after severe weather.
- **Perch Maintenance:** Keep the perch clean and free of droppings. Inspect for any signs of damage or instability.

7. TROUBLESHOOTING

- **Loose Connections:** If the frame feels unstable, re-check all spring plungers and connectors to ensure they are fully engaged and tightened.
- **Door Malfunction:** If the door is difficult to open or close, inspect the hinges for obstruction or damage. Ensure the locks are aligned correctly. If hinges are broken, replacement parts may be needed.
- **Water Accumulation on Cover:** Ensure the tarpaulin cover is taut and properly secured to allow water to drain off the gabled roof. Adjust rubber ropes if necessary.
- **Predator Access:** If predators are gaining access, thoroughly inspect the entire mesh perimeter for any gaps, holes, or unsecured sections. Reinforce as needed.

8. SPECIFICATIONS

| Feature | Detail |
|--------------------------------|--|
| Product Dimensions (L x W x H) | 118" x 78" x 79" |
| Material | Galvanized Metal Frame, PVC-Coated Hexagonal Wire Mesh, PE Tarpaulin Cover |
| Perch Dimensions | 55"L x 40"W |
| Special Features | Easy to Clean, Weatherproof Cover, Secure Lock, Walk-in Design |
| Target Species | Chickens, Ducks, Rabbits, Geese, Quails, Cats, Birds |
| ASIN | B0GSZ5JWR8 |
