# abxylute M4 Snap-On Mobile Gaming Controller User Manual

Model: M4

## 1. INTRODUCTION

---

The abxylute M4 is a compact, snap-on mobile gaming controller designed for on-the-go retro gaming and mobile gaming experiences. It offers broad compatibility with Android and iOS devices, featuring multiple connection modes and a portable design.

## 2. SAFETY INFORMATION

---

- Do not use the controller without a phone case, especially when using the magnetic ring, to prevent accidental drops.
- Avoid using the controller while lying down with the phone facing upwards, as the magnetic attachment may not be strong enough to prevent the phone from falling.
- Keep the device away from water and extreme temperatures.
- Do not attempt to disassemble or repair the device yourself. Contact support for assistance.

## 3. PACKAGE CONTENTS

---

The abxylute M4 package includes the following items:

- abxylute M4 Controller
- Magnetic Ring
- Magnetic Sticker

- Wrist Strap
- User Manual

## 4. SETUP GUIDE

The abxylute M4 controller is designed for easy setup. Follow these steps to get started:

### 4.1 Attaching the Controller to Your Phone

#### 1. For MagSafe-compatible phones (e.g., iPhone 12/13/14/15/16/17 series):

Attach the magnetic ring to your MagSafe-compatible phone case. The controller will then snap onto this magnetic ring. Power on the controller to begin playing.

#### 2. For non-MagSafe compatible phones (e.g., Android devices, iPhone 11/SE and earlier models):

It is recommended to attach the included magnetic sticker to your phone case. Then, attach the magnetic ring to the sticker. The controller will snap onto the magnetic ring. Power on the controller to begin playing.

## Important Note:

- Always use a phone case when attaching the magnetic ring to prevent damage to your phone.
- Do not use the controller without a case to avoid accidental drops.

## 8. MAINTENANCE

---

- Clean the controller regularly with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive materials.
- Store the controller in a cool, dry place when not in use.
- Ensure the magnetic surfaces are clean for optimal attachment strength.

## 9. TROUBLESHOOTING

---

### 9.1 Connection Issues

- **Controller not pairing:** Ensure the controller is charged and in the correct pairing mode (HID, PS, or NS) for your device. Check your phone's Bluetooth settings to ensure it's discoverable and try re-pairing.
- **Unstable connection:** Ensure there are no obstructions between the controller and your phone. Move closer to your device if experiencing interference.

### 9.2 Magnetic Attachment Issues

- **Weak magnetic hold:** Ensure the magnetic ring and sticker (if used) are properly aligned and securely attached to your phone case. Clean the magnetic surfaces to remove any dust or debris.
- **Phone falling off:** Always use a phone case. Avoid using the controller in orientations where gravity might overcome the magnetic force, such as lying down with the phone facing upwards.

### 9.3 Button/Joystick Unresponsiveness

- **Buttons not responding:** Check if the controller is fully charged. Restart the controller and your phone, then attempt to reconnect.
- **Joystick drift or inaccuracy:** Ensure the controller's firmware is up to date (check the abxylute official website or Discord for updates). If the issue persists, contact customer support.
