TMT WP-7173-001

TMT WB3 WiFi Bluetooth Control Kit for Chow!APP

Model: WP-7173-001 - User Manual

1. INTRODUCTION

The TMT WB3 is a WiFi and Bluetooth control kit designed to integrate with the Chow!APP, enabling remote management and automation of compatible devices. This accessory provides enhanced connectivity options, allowing users to control their systems from anywhere via WiFi or locally via Bluetooth. This manual provides essential information for the proper installation, operation, and maintenance of your TMT WB3 control kit.

Figure 1: The TMT WB3 WiFi Bluetooth Control Kit module. This image displays the compact black module, which serves as the central component for enabling wireless control of your system via the Chow!APP.

2. SETUP AND INSTALLATION

Follow these steps to correctly set up your TMT WB3 control kit:

- 1. Physical Connection:** Ensure the device you intend to control is powered off before connecting the TMT WB3. Connect the TMT WB3 module to the designated port on your compatible device. Refer to your device's manual for specific connection points. The module is designed for a secure, plug-and-play connection.
- 2. Power On:** Once the TMT WB3 is securely connected, power on your main device. The TMT WB3 module should receive power and indicate its status, typically with an LED indicator.
- 3. Chow!APP Installation:** Download and install the Chow!APP on your smartphone or tablet from your device's app

store. Search for "Chow!APP".

4. Device Pairing (Bluetooth):

- Open the Chow!APP and navigate to the "Add Device" section.
- Ensure Bluetooth is enabled on your smartphone/tablet.
- The app will scan for nearby TMT WB3 devices. Select your device from the list to pair.
- Follow any on-screen prompts to complete the Bluetooth pairing process.

5. WiFi Configuration:

- After successful Bluetooth pairing, the app will guide you through connecting the TMT WB3 to your home WiFi network.
- Select your WiFi network (2.4 GHz networks are typically supported).
- Enter your WiFi password.
- Confirm the connection. Once connected, the TMT WB3 will be accessible via WiFi through the Chow!APP from any location with internet access.

3. OPERATING INSTRUCTIONS

Once the TMT WB3 is set up and connected to the Chow!APP, you can begin controlling your device:

- **Accessing Your Device:** Open the Chow!APP. Your connected TMT WB3 device should appear on the main dashboard or in the "My Devices" section.
- **Control Interface:** Tap on your TMT WB3 device within the app to access its control interface. This interface will display various controls and status indicators relevant to your connected system.
- **Remote Control:** Use the on-screen buttons and sliders to operate your device. Functions may include turning the device on/off, adjusting settings, or initiating specific modes. The app will communicate these commands to the TMT WB3 via WiFi or Bluetooth.
- **Status Monitoring:** The Chow!APP provides real-time status updates from your connected device, allowing you to monitor its operation remotely.
- **Automation and Scheduling:** Explore the Chow!APP's features for setting up schedules, timers, and automation rules to manage your device automatically based on your preferences.

4. MAINTENANCE

The TMT WB3 control kit is designed for low maintenance. Follow these guidelines to ensure its longevity:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the module. Do not use liquid cleaners, solvents, or abrasive materials, as these can damage the casing or internal components.
- **Environment:** Keep the TMT WB3 in a dry environment, away from direct sunlight, extreme temperatures, and high humidity. Avoid exposing it to water or other liquids.
- **Firmware Updates:** Periodically check the Chow!APP for available firmware updates for your TMT WB3. Updates can improve performance, add new features, or address security vulnerabilities. Follow the in-app instructions for any update process.
- **Storage:** If storing the device for an extended period, disconnect it from power and store it in a cool, dry place.

5. TROUBLESHOOTING

If you encounter issues with your TMT WB3, try the following solutions:

- **Device Not Responding:**

- Check if the TMT WB3 module is securely connected to its host device and receiving power.
- Ensure your smartphone/tablet has a stable internet connection (for WiFi control) or Bluetooth is enabled and within range (for Bluetooth control).
- Restart the Chow!APP.
- Power cycle the TMT WB3 module by disconnecting and reconnecting it from its power source.

- **Cannot Connect to WiFi:**

- Verify your WiFi network name and password are correct.
- Ensure your router is broadcasting a 2.4 GHz network, as 5 GHz networks may not be supported.
- Move the TMT WB3 closer to your WiFi router to improve signal strength.
- Restart your WiFi router.

- **Bluetooth Pairing Issues:**

- Ensure Bluetooth is enabled on your smartphone/tablet.
- Make sure the TMT WB3 is within close proximity (typically 10 meters or 30 feet) of your smartphone/tablet.
- Try unpairing and re-pairing the device through the Chow!APP.

- **App Not Functioning Correctly:**

- Ensure the Chow!APP is updated to the latest version.
- Clear the app's cache or reinstall the app if issues persist.

6. SPECIFICATIONS

Manufacturer	TMT
Item Model Number	WP-7173-001
Product Dimensions	1.46 x 2.01 x 0.83 inches
Item Weight	4 ounces
Color	Black
Connectivity	WiFi, Bluetooth
Compatibility	Chow!APP

7. WARRANTY INFORMATION

TMT products are manufactured to high-quality standards. For detailed warranty information, including terms, conditions, and duration, please refer to the official TMT website or contact TMT customer support. Keep your purchase receipt as proof of purchase for any warranty claims.
