Hikity Hikity-A7105A4291H6MI2EU26

Hikity 4+64G Car Radio for Renault Dacia SANDERO II B52 (2012-2019) User Manual

Model: Hikity-A7105A4291H6MI2EU26

1. Product Overview and Compatibility

This car radio is specifically designed for compatibility with Renault Dacia SANDERO II B52 models manufactured between 2012 and 2019. Before installation, verify your vehicle's dashboard configuration, manufacturing year, and model number to ensure proper fitment.

The unit features an enhanced In-Cell full touchscreen display, offering a brighter picture and faster touch response compared to traditional screens. It operates on the latest Android system with 4GB RAM and 64GB ROM, ensuring smooth and quick performance.

2. What's in the Box

The package includes the following components:

- 1 x Radio Housing
- 1 x Car Player Unit
- 1 x Power Cable
- 1 x GPS Antenna
- 1 x Canbus Decoder
- 1 x Microphone
- 1 x Reversing Camera
- 1 x Reversing Camera Input Cable
- 1 x RCA Cable Set

- 2 x USB Cables
- 1 x Instruction Manual
- 1 x Installation Tools Set

Image 2.1: A visual representation of all items included in the product package, such as the car player, radio housing, various cables (power, GPS, RCA, USB), microphone, reversing camera, Canbus, and installation tools.

3. Setup and Installation

3.1 Pre-Installation Check

Before beginning installation, ensure the vehicle's ignition is off and the battery is disconnected. Confirm that all components listed in the "What's in the Box" section are present.

3.2 Wiring Diagram

Refer to the wiring diagram below for correct connection of the car radio to your vehicle's electrical system. Pay close

attention to power, speaker, and accessory connections. If you are unsure about any step, it is recommended to seek professional assistance.

Image 3.1: A technical diagram illustrating the electrical connections and component layout, with labeled wires and connection points for proper installation and troubleshooting.

3.3 Physical Installation

1. Carefully remove the original car radio and dashboard trim.
2. Connect the power cable, GPS antenna, and other necessary cables according to the wiring diagram.
3. Install the new Hikity car radio into the dashboard opening.
4. Secure the unit and reattach the dashboard trim.
5. Reconnect the vehicle battery and test the unit's functionality.

4. Operating Instructions

4.1 Wireless CarPlay & Android Auto

This car radio supports wireless CarPlay and Android Auto, allowing you to connect your iPhone or Android device via Bluetooth. This enables seamless access to navigation, music, and hands-free calling directly from the car radio display. MirrorLink functionality is also available via Wi-Fi or USB cable.

Image 4.1: Displays the user interfaces for both wireless CarPlay and Android Auto, showing various applications like maps, music, and communication tools accessible on the car radio screen.

4.2 GPS Navigation & WLAN

The unit supports both online and offline maps, providing vocal guidance and real-time traffic information. Connect to the internet via WLAN hotspot or tethering to browse the web, stream content, and download applications.

Image 4.2: Illustrates the car radio's capability for WiFi 5G connectivity and its use for both online and offline GPS navigation, displaying map interfaces.

4.3 Customizable Desktop & Split Screen

Personalize your home screen with customizable application layouts. The split-screen function allows you to run two applications simultaneously, such as navigation and music, enhancing multitasking capabilities. Picture-in-Picture (PiP) mode is also supported.

Image 4.3: Shows examples of a personalized application desktop, the split-screen function running two apps concurrently, and a picture-in-picture video display.

4.4 Steering Wheel Control (SWC) & Rear Camera Input

The unit supports standard steering wheel buttons, allowing control over maps, music, and calls without taking your hands off the wheel. It also features input for a rear camera, providing a clear view for parking and reversing maneuvers.

Image 4.4: Depicts the integration of steering wheel controls for safe operation and a multi-angle camera view, enhancing parking safety and awareness.

5. Maintenance

To ensure the longevity and optimal performance of your Hikity car radio, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or solvents that could damage the display.
- **Software Updates:** Periodically check for available software updates to ensure the system runs efficiently and has the latest features and security patches.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Cable Connections:** Ensure all cables are securely connected. Loose connections can lead to intermittent functionality.

6. Troubleshooting

If you encounter issues with your car radio, try the following basic troubleshooting steps:

- **No Power:** Check all power cable connections. Ensure the vehicle's ignition is on. Verify the fuse in the power cable.
- **No Sound:** Check speaker connections. Ensure the volume is not muted or set to minimum. Verify audio output settings.
- **Touchscreen Unresponsive:** Try restarting the unit. Ensure the screen is clean and free from obstructions.
- **GPS Signal Issues:** Ensure the GPS antenna is correctly installed and has a clear view of the sky.
- **Bluetooth/CarPlay/Android Auto Connection Problems:** Ensure Bluetooth is enabled on both the car radio and your mobile device. Try unpairing and re-pairing the devices.
- **System Freezes/Slow Performance:** Restart the unit. Close unnecessary applications. Clear cache if possible through system settings.

For persistent issues, refer to the warranty and support section for contact information.

7. Specifications
