

Medical king 7062

Medical king Solar Eclipse Glasses User Manual - Model 7062

Brand: Medical king | Model: 7062

1. INTRODUCTION

This manual provides essential instructions for the safe and proper use of your Medical king Solar Eclipse Glasses, Model 7062. These glasses are designed for direct observation of the sun, specifically during solar eclipses, and are certified to meet the ISO 12312-2 international safety standard for filters for direct observation of the sun. Adherence to these instructions is crucial for protecting your eyes from severe and permanent damage.

2. IMPORTANT SAFETY INFORMATION

WARNING: Never look directly at the sun without proper eye protection. Failure to follow these instructions can result in severe eye injury or permanent blindness.

- **Certification:** These Medical king Solar Eclipse Glasses are ISO 12312-2 certified, ensuring they meet the international safety standard for direct solar observation. Always verify the ISO certification mark on your glasses.
- **Inspect Before Use:** Before each use, carefully inspect your solar eclipse glasses for any damage, including scratches, punctures, tears, or separation of the filter from the frame. If any damage is present, DO NOT USE the glasses. Discard them immediately.
- **Do Not Use with Other Optical Devices:** Never use these solar eclipse glasses in conjunction with binoculars, telescopes, cameras, or any other optical device. Such devices concentrate sunlight and can bypass the filter, causing severe eye damage.
- **Supervise Children:** Always supervise children when they are using solar eclipse glasses to ensure correct usage and to prevent them from removing the glasses during solar observation.
- **Duration of Viewing:** While safe for direct solar viewing, it is recommended to take breaks during extended observation periods to reduce eye strain.

- **Do Not Modify:** Do not attempt to modify or repair the solar eclipse glasses in any way. Any alteration can compromise their safety.

3. SETUP AND PREPARATION

1. **Unpack:** Carefully remove the solar eclipse glasses from their packaging.
2. **Inspect:** As detailed in the safety section, thoroughly inspect both sides of the filter lenses and the frame for any signs of damage. Ensure the filter material is securely attached to the frame.
3. **Fit:** Ensure the glasses fit comfortably and securely on your face, covering both eyes completely. There should be no gaps around the edges that could allow unfiltered sunlight to reach your eyes.

Capture the Eclipse

**UNIVERSAL &
EASY TO USE**

Fits all smartphone models.

4. OPERATING INSTRUCTIONS (SAFE SOLAR VIEWING)

1. **Put on Glasses:** Before looking up at the sun, put on your Medical king Solar Eclipse Glasses. Ensure they are properly seated and cover your eyes completely.
2. **Look at the Sun:** Once the glasses are securely on, you may look directly at the sun. The sun will appear as a dark, filtered image.
3. **Look Away, Then Remove:** When you are finished observing, turn away from the sun before removing your solar eclipse glasses. Never remove the glasses while looking at the sun.
4. **Continuous Observation:** For prolonged viewing, it is advisable to take short breaks to rest your eyes.

5. CARE AND MAINTENANCE

- **Cleaning:** To clean the lenses, gently wipe them with a soft, lint-free cloth. Do not use abrasive materials, solvents, or harsh chemicals, as these can damage the filter material.
- **Storage:** Store your solar eclipse glasses in a clean, dry place, away from direct sunlight and extreme temperatures. Protect them from dust and scratches. Keeping them in their original packaging or a protective case is recommended.
- **Disposal:** If the glasses become damaged or reach their recommended lifespan (if specified by the manufacturer, though typically for a single event or short period), dispose of them responsibly. Do not attempt to recycle them with regular paper or plastic if the filter material is not separable.

6. TROUBLESHOOTING

- **Damaged Glasses:** If your glasses have any scratches, tears, holes, or if the filter material is separating from the frame, DO NOT USE THEM. Discard them immediately and obtain a new, undamaged pair.
- **Unclear Vision:** If the view through the glasses appears unusually bright, hazy, or distorted, immediately look away from the sun and remove the glasses. Do not use them again. This could indicate damage to the filter.
- **Eye Discomfort:** If you experience any eye discomfort, pain, or vision changes after using the glasses, discontinue use and consult an eye care professional immediately.

7. SPECIFICATIONS

Brand	Medical king
Model Number	7062
Item Type Name	Solar Eclipse Glasses
Certification	ISO 12312-2 Certified, CE Approved
Lens Material	Plastic (Specialized Solar Filter)
Lens Coating	UV Protection Coating
Item Shape	Rectangular
Colour	Blue (Frame color, filter is dark)
Size	One Size (Adult)
Included Components	Solar Eclipse Glasses
UPC	810194996252
Package Dimensions	15 x 14 x 4 cm
Weight	240 g (for 50-pack)

8. WARRANTY AND SUPPORT

Product Warranty:
