SmartSylva SS01-M2G-M-BK

SmartSylva Wall-Mounted Smart Toilet (Model SS01-M2G-M-BK) Instruction Manual

Introduction

Welcome to the SmartSylva Wall-Mounted Smart Toilet experience. This manual provides essential information for the safe and efficient operation of your new smart toilet, Model SS01-M2G-M-BK. Please read these instructions thoroughly before installation and use, and retain them for future reference.

Safety Information

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury. This appliance is for household use only. Do not immerse the unit in water. Disconnect power before cleaning or servicing. Ensure proper grounding. Do not allow children to operate the toilet without supervision.

Package Contents

Verify that all components are present in the package:

- Wall-mounted smart toilet unit
- Smart bidet seat
- Built-in support frame
- White panel
- Remote control
- Mounting accessories
- Installation manual

Setup and Installation

The SmartSylva Wall-Mounted Smart Toilet (Model SS01-M2G-M-BK) features an integrated design with a built-in water tank and an in-wall carrier frame, simplifying installation. This eliminates the need for purchasing additional in-wall tank systems.

For detailed installation steps, please refer to the dedicated installation manual included in your package. Professional installation is recommended to ensure proper function and safety.

Operating Instructions

Automatic Functions

The toilet incorporates several automatic features for convenience:

- **Automatic Lid Open/Close:** A motion sensor detects your approach, automatically opening the lid. It closes when you walk away.
- **Foot Sensor for Seat Operation:** Tap the foot sensor on the lower right corner to open the seat. Tapping it again will close the seat/lid and activate an automatic flush.
- **Automatic Flush:** After you leave the seat, the toilet will automatically flush after 2 seconds. The lid will close after 3 minutes.

Flushing System

The toilet features a Siphon Jet dual-flush system:

- **Pre-wetting:** Upon sitting, a water jet pre-wets the inner bowl wall to facilitate cleaning.
- **Dual Flush:** A half flush (3.5 L) is activated for seat times under 60 seconds, and a full flush (5 L) for seat times over 60 seconds. This system provides an ultra-quiet and efficient flush.

Bidet and Drying Functions

Enjoy personalized hygiene with integrated bidet and drying features:

- **Multiple Cleaning Modes:** Includes Front Wash, Rear Wash, Oscillating Cleanse, and Self-Cleaning Nozzle. Nozzle position and wash water pressure are adjustable to 3 levels.
- **Instant Hot Water:** Provides immediate warm water for washing.
- **Warm Air Drying:** Three adjustable temperature settings for comfortable drying.

Aromatherapy Function

An aromatherapy hole is located under the display panel. Add aromatherapy liquid and press the "Odor" button on the remote to activate the volatilization function. This function automatically stops after 5 seconds, helping to maintain a fresh bathroom environment.

Maintenance

Regular cleaning and maintenance will ensure the longevity and optimal performance of your smart toilet.

- **Cleaning:** Use mild, non-abrasive cleaners and a soft cloth. Avoid harsh chemicals that may damage surfaces or internal components. The pre-wetting function helps keep the bowl clean.
- **Nozzle Cleaning:** The self-cleaning nozzle function helps maintain hygiene. Periodically inspect and clean the nozzle manually if necessary.
- **Exterior:** Wipe down the exterior surfaces regularly to prevent dust and grime buildup.

Troubleshooting

If you encounter any issues, refer to the following common solutions:

- **No Power:** Check the power connection and circuit breaker.
- **No Flush/Weak Flush:** Ensure water supply is open. Check for any obstructions. The toilet features a "Blackout Flush" with a backup battery (not included) in case of power failure, allowing for multiple flushes.
- **Lid/Seat Not Opening/Closing Automatically:** Ensure the motion sensor is clean and unobstructed.
- **Bidet/Dryer Not Working:** Check water and power connections. Ensure settings are correctly adjusted via the remote control.

For persistent issues, please contact SmartSylva customer support.

Specifications

Feature	Detail
Model Number	SS01-M2G-M-BK
Color	Black
Product Dimensions (D x W x H)	58 x 36 x 35 cm
Material	Ceramic
Product Weight	32 Kilograms
UPC	602397197266
Installation Method	Wall-mounted
Seat Material Type	Plastic
Drainage Way	180mm
Rated Power	1140W
Power Cord Length	1.5 meters
Rated Voltage	AC110V 60HZ
Average Flushing Volume	4.8 L

Water Pressure Requirements	0.07Mpa (Dynamic) - 0.75Mpa (Static)
