BouPower Barber Salon Chair Instruction Manual

Brand: BouPower

Model: GiUaDw1AtCd-QA15583Sbgs4H

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your BouPower Barber Salon Chair. Please read this manual thoroughly before assembly and use to ensure proper function and safety. Keep this manual for future reference.

Safety Information

- Ensure all components are present and undamaged before assembly.
- Do not exceed the maximum weight capacity of 330 lbs (150 kg).
- Keep hands and feet clear of moving parts during operation.
- Assemble the chair on a flat, stable surface.
- Children should not operate or play on the chair.

2. PACKAGE CONTENTS

Verify that all the following items are included in your package:

- 1 x Barber Chair (unassembled components)
- 1 x Instruction Manual (this document)
- Hardware Kit (screws, washers, tools)

3. ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your barber salon chair. It is recommended to have two people for assembly.

Step 1: Attach the Base to the Hydraulic Pump

Place the chromium-plated steel base on a flat surface. Insert the hydraulic pump into the center hole of the base. Ensure it is securely seated.

Step 2: Assemble the Seat and Backrest

Connect the seat cushion to the backrest using the provided hardware. Ensure all screws are tightened securely but do not overtighten.

Step 3: Attach Armrests and Footrest

Secure the hollow-out metal armrests to the sides of the seat assembly. Attach the footrest to the designated points on the chair frame. Refer to the visual instructions for correct orientation.

Figure 3.1: Product Dimensions. This image illustrates the various dimensions of the barber chair, including height, width, and depth of the seat, backrest, and overall structure.

Step 4: Mount the Chair Top onto the Hydraulic Pump

Carefully place the assembled seat, backrest, armrests, and footrest onto the top of the hydraulic pump. Ensure the chair top is firmly seated and aligned.

Figure 3.2: Assembled Chair Views. This image displays the barber chair from various angles, including front, side, and three-quarter views, showcasing its complete assembly.

Step 5: Attach the Headrest

Insert the adjustable headrest into the designated slot at the top of the backrest. It can be removed or adjusted for personalized comfort.

4. OPERATING INSTRUCTIONS

Your BouPower Barber Salon Chair offers several adjustable features for optimal client comfort and stylist convenience.

Height Adjustment

To adjust the chair height, use the hydraulic lever located on the side of the chair. Press the lever down to lower the chair. To raise the chair, pump the lever repeatedly with your foot until the desired height is reached. The chair offers a 5-inch height adjustment range (approximately 38"-43" from floor to top of backrest).

Figure 4.1: Height Adjustment. This image demonstrates the large height adjustment feature, showing a foot pressing the pedal to operate the hydraulic lift mechanism.

Reclining Backrest

To recline the backrest, locate the reclining lever, typically on the side of the chair. Pull the lever up and gently push back on the backrest to achieve the desired angle between 90° and 135°. Release the lever to lock the position. To return to an upright position, pull the lever and lean forward.

Figure 4.2: Reclining Backrest. This diagram illustrates the adjustable reclining backrest, showing its movement from a 90-degree upright position to a 135-degree reclined position.

360° Swivel Function

The chair is designed with a 360-degree swivel function, allowing for easy rotation. Simply rotate the chair to the desired orientation. No locking mechanism is typically required for swivel; it moves freely.

Figure 4.3: 360° Swivel. This image demonstrates the chair's ability to rotate a full 360 degrees, highlighting its versatility for various salon tasks.

Figure 4.4: Key Features. This image highlights several important features of the chair: the adjustable headrest, elegant handrails, comfortable high-density sponge cushioning, and the heavy-duty foot pedal for hydraulic operation.

5. MAINTENANCE

Proper maintenance will extend the life and appearance of your barber salon chair.

Cleaning the Upholstery

- Gently wipe the upholstery with a damp cloth and a mild, gentle soap solution.
- Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the material.
- Dry the surface immediately with a clean, soft cloth.

Metal Components

- Wipe metal parts with a soft, dry cloth to remove dust and fingerprints.
- For stubborn marks, use a damp cloth with a mild cleaner, then dry thoroughly.

General Care

- Regularly check all screws and bolts to ensure they are tight. Retighten if necessary.
- Do not expose the chair to direct sunlight or extreme temperatures for prolonged periods.

6. TROUBLESHOOTING

If you encounter issues with your chair, refer to the following common problems and solutions:

Chair Does Not Raise/Lower

- **Check Hydraulic Lever:** Ensure the hydraulic lever is fully engaged when pumping to raise or released to lower.
- **Weight Limit:** Verify that the weight on the chair does not exceed the 330 lbs capacity.
- **Pump Mechanism:** If the pump feels loose or unresponsive, inspect for any obstructions or damage. Contact customer support if the issue persists.

Chair Wobbles

- **Base Stability:** Ensure the chair is on a flat, even surface.
- **Tighten Screws:** Check all assembly screws, especially those connecting the seat to the hydraulic pump and the base. Tighten any loose connections.

Difficulty Reclining

- **Reclining Lever:** Ensure the reclining lever is fully pulled to disengage the lock.
- **Mechanism Obstruction:** Check for any obstructions in the reclining mechanism.

7. SPECIFICATIONS
