OPERATING INSTRUCTIONS

Height Adjustment

The desk's height can be adjusted electrically from 28 inches to 46 inches. Use the control panel to raise or lower the desk to your desired sitting or standing position. The desk includes a height memory function to save preferred settings.

Image: Two desks shown at different heights, illustrating the adjustable range for various users and tasks.

Integrated Power Panel

The desk features a built-in power panel to conveniently charge your devices. It includes:

- 3 Power Sockets (120V/12A)
- 2 USB-A Ports (5V/2A)
- 1 USB-C Port (5V/2A)

This panel minimizes cable clutter and tripping hazards. Overload protection is integrated and will automatically activate if current limits are exceeded, protecting connected devices.

Anti-Collision Rebound

The desk is equipped with an anti-collision rebound feature. If the desk encounters an obstruction during height adjustment, it will automatically stop and reverse slightly to prevent damage.

Drawer Usage

The desk includes two removable drawers for storage. These drawers can be used to keep frequently accessed items organized and out of sight, enhancing desktop tidiness.

MAINTENANCE

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Cable Management:** Periodically check and organize cables to prevent entanglement and ensure smooth operation of the height adjustment mechanism.

- **Motor Care:** The high-quality motor is designed for durability. No specific user maintenance is required for the motor itself.

TROUBLESHOOTING

- **Desk Not Moving:** Ensure the power cord is securely plugged into both the desk and a working wall outlet. Check if the overload protection has been activated (indicated by a power cut-off). Unplug and replug the desk to reset.
- **Uneven Height:** If the desk appears uneven, perform a reset procedure (refer to the full assembly manual for specific steps, usually involves holding down a button).
- **Unusual Noises:** The motor operates quietly (below 50 decibels). If you hear loud or unusual noises, discontinue use and contact customer support.
- **Overload Protection Activated:** If the power panel's overload protection activates, disconnect some devices and then reset the power by unplugging and replugging the desk.

For any issues not covered here, please refer to the comprehensive troubleshooting section in the full manual or contact HLDIRECT customer support.

SPECIFICATIONS

Brand	HLDIRECT
Model Number	SZ0412RB
Product Dimensions (D x W x Max H)	31.5" x 47" x 46"
