Aquaguard Delight Aquasaver RO+UV+UF+MC Water Purifier

Instruction Manual

INTRODUCTION

This manual provides essential information for the installation, operation, maintenance, and troubleshooting of your Aquaguard Delight Aquasaver RO+UV+UF+MC Water Purifier. Please read these instructions carefully before using the appliance to ensure safe and efficient operation. Retain this manual for future reference.

The Aquaguard Delight Aquasaver features a 9-stage purification process (RO+UV+UF+MC) and a surgical-grade 304 stainless steel storage tank, designed to provide clean and safe drinking water from various sources.

SETUP AND INSTALLATION

Your Aquaguard Delight Aquasaver water purifier comes with complimentary installation. It is recommended that installation be performed by an authorized service technician to ensure proper setup and optimal performance.

Pre-Installation Checks:

- Ensure the installation site is clean, dry, and has access to a water supply and a power outlet.
- Verify that the water pressure is within the operating range of up to 3 kilograms per square centimeter.
- Confirm the water source TDS level is supported (maximum 1000 ppm).

Installation Process:

1. An authorized technician will connect the input pipe to your water source.
2. The diverter valve will be installed if required.
3. The purifier will be mounted (countertop installation is standard).
4. The technician will perform initial flushing and check for leaks.
5. The unit will be connected to power, and initial operation will be verified.

Note: The product includes an accessory kit with an input pipe, diverter valve, and warranty card.

OPERATING INSTRUCTIONS

First Use:

After installation, allow the purifier to fill its storage tank. The first few cycles of purified water should be drained to flush out any manufacturing residues. Consult the technician for specific instructions during installation.

Water Dispensing:

To dispense purified water, place a container under the faucet and operate the dispenser lever or button as indicated on the unit. The unit has a 5-liter capacity stainless steel storage tank.

LED Indication:

The purifier is equipped with LED indicators to keep you informed about its status:

- **Service Reminders:** Alerts you when scheduled maintenance is due.
- **Tank-Full Indicators:** Shows when the storage tank is full.
- **Filter Life Warnings:** Notifies you when filters are nearing the end of their life and require replacement.
- **Electronic Errors:** Indicates any operational malfunctions.

MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your water purifier.

Filter Life:

The filters in your Aquaguard Delight Aquasaver are designed for a **2-year life** or 10,000 liters, whichever comes first, under standard lab test conditions ($\text{TDS} \leq 1000$ ppm with NaCl). The LED indicators will provide warnings when filter replacement is needed.

Cleaning Services:

Your purchase includes **2 free cleaning services** during the first year. It is recommended to schedule these services with an authorized technician to maintain hygiene and performance.

External Cleaning:

Wipe the exterior of the purifier with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.

Stainless Steel Tank:

The surgical-grade 304 stainless steel tank is corrosion-free and durable. Its airtight lid protects water from external contaminants. Regular cleaning by a technician will ensure its pristine condition.

PURIFICATION PROCESS

The Aquaguard Delight Aquasaver employs a Superior 9-Stage Purification process:

1. **Mega Sediment Filter:** Removes fine dust, dirt, and mud particles, preventing clogging and extending the life of internal filters.
2. **Sedi Shield 2X:** Further filters out suspended particles.
3. **Particulate Filter:** Provides additional filtration for fine particles.
4. **Chemi Block 2X:** Reduces chlorine and organic impurities.
5. **RO Maxx 2X (Nanopore RO 2X):** Offers protection against pesticides, microplastics, and industrial waste like lead, mercury, cadmium, and arsenic.
6. **UV e-boiling:** Ensures every drop of water is as pure as water boiled for 20+ minutes.
7. **Ultra Filtration 2X:** Makes water crystal clear by removing ultra-fine suspended particles.
8. **2-in-1 Mineral Charge:** Infuses purified water with essential micronutrients like calcium and magnesium, enhancing

its taste and quality.

TROUBLESHOOTING

This section addresses common issues you might encounter with your water purifier. For problems not listed here or if issues persist, please contact customer support.

Problem	Possible Cause	Solution
No water dispensing	Power outage, water supply cut off, tank empty, electronic error.	Check power connection and water supply. Wait for the tank to fill. Refer to LED indicators for electronic errors and contact service if needed.
Slow water flow	Clogged filters, low water pressure.	Check filter life warning on LED. Contact service for filter replacement or to check water pressure.
Unusual taste or odor	Filters nearing end of life, new filter installation residue.	If newly installed, flush a few liters. If filters are old, check LED warning and contact service for replacement.
LED indicator shows error	System malfunction, filter life expired.	Note the specific error code or pattern. Contact customer support with this information.

SPECIFICATIONS

Feature	Detail
Brand	Aquaguard
Model Number	GWPDASDSR0002X
Purification Method	Reverse Osmosis (RO), Ultraviolet (UV), Ultra Filtration (UF), Mineral Charge (MC)
Stages of Purification	9-Stage
Storage Tank Material	Surgical-grade 304 Stainless Steel
Capacity	5 Liters
Filter Life Cycle	Up to 2 years or 10,000 liters (under standard conditions)
Maximum Flow Rate	24 Liters Per Hour
Operating Pressure Range	Up to 3 Kilograms Per Square Centimeter
Supported Water TDS Level (Max)	1000 ppm
Water Saving Percentage	60% (compared to local ROs)

Feature	Detail
Product Dimensions (L x W x H)	32L x 27W x 48H Centimeters
Item Weight	9.5 Kilograms
Material	Acrylonitrile Butadiene Styrene (ABS)
Installation Type	Countertop
What's in the box?	Water Purifier, Accessory (Input pipe, Diverter valve & Warranty Card)

WARRANTY AND SUPPORT

Product Warranty:

The Aquaguard Delight Aquasaver comes with a **1-year warranty** from the date of purchase. This warranty covers manufacturing defects and ensures proper functioning of the unit under normal use conditions.

Service Plan:

A genuine Aquaguard service plan is included, offering:

- Free installation.
- 2 free cleaning services (valid for the first year only).
- Unlimited repair visits (valid for the first year only).

Customer Support:

Aquaguard is backed by India’s widest service network, accessible across 19,500+ pin codes. For any service requests, technical assistance, or warranty claims, please contact Aquaguard customer support. Refer to your warranty card for contact details or visit the official Aquaguard website.
