WARCAT Self-Cleaning Automatic Cat Litter Box (Model W26-1365-0318) Instruction Manual

Your guide to hassle-free cat care.

INTRODUCTION

The WARCAT Self-Cleaning Automatic Cat Litter Box is designed to simplify pet care by providing a consistently clean and hygienic environment for your cat. This open-top unit features automatic cleaning cycles, advanced safety sensors, and a large-capacity waste drawer, all without requiring a mobile application for operation. It is suitable for cats weighing 3.5 lbs and up.

PACKAGE CONTENTS

Upon unboxing, ensure all components are present:

- WARCAT Self-Cleaning Automatic Cat Litter Box Unit
- Waste Drawer
- Power Adapter
- Litter Mat
- Garbage Bags (starter rolls)
- Litter Scoop
- Instruction Manual

10 Days Extra-Long Scoop-Free

Hands-free 24-hour automatic cleaning, no daily scooping—ideal for busy workers, seniors and kids.

	1 Cat	10 Days
	2 Cats	5 Days
	3 Cats	3 Days

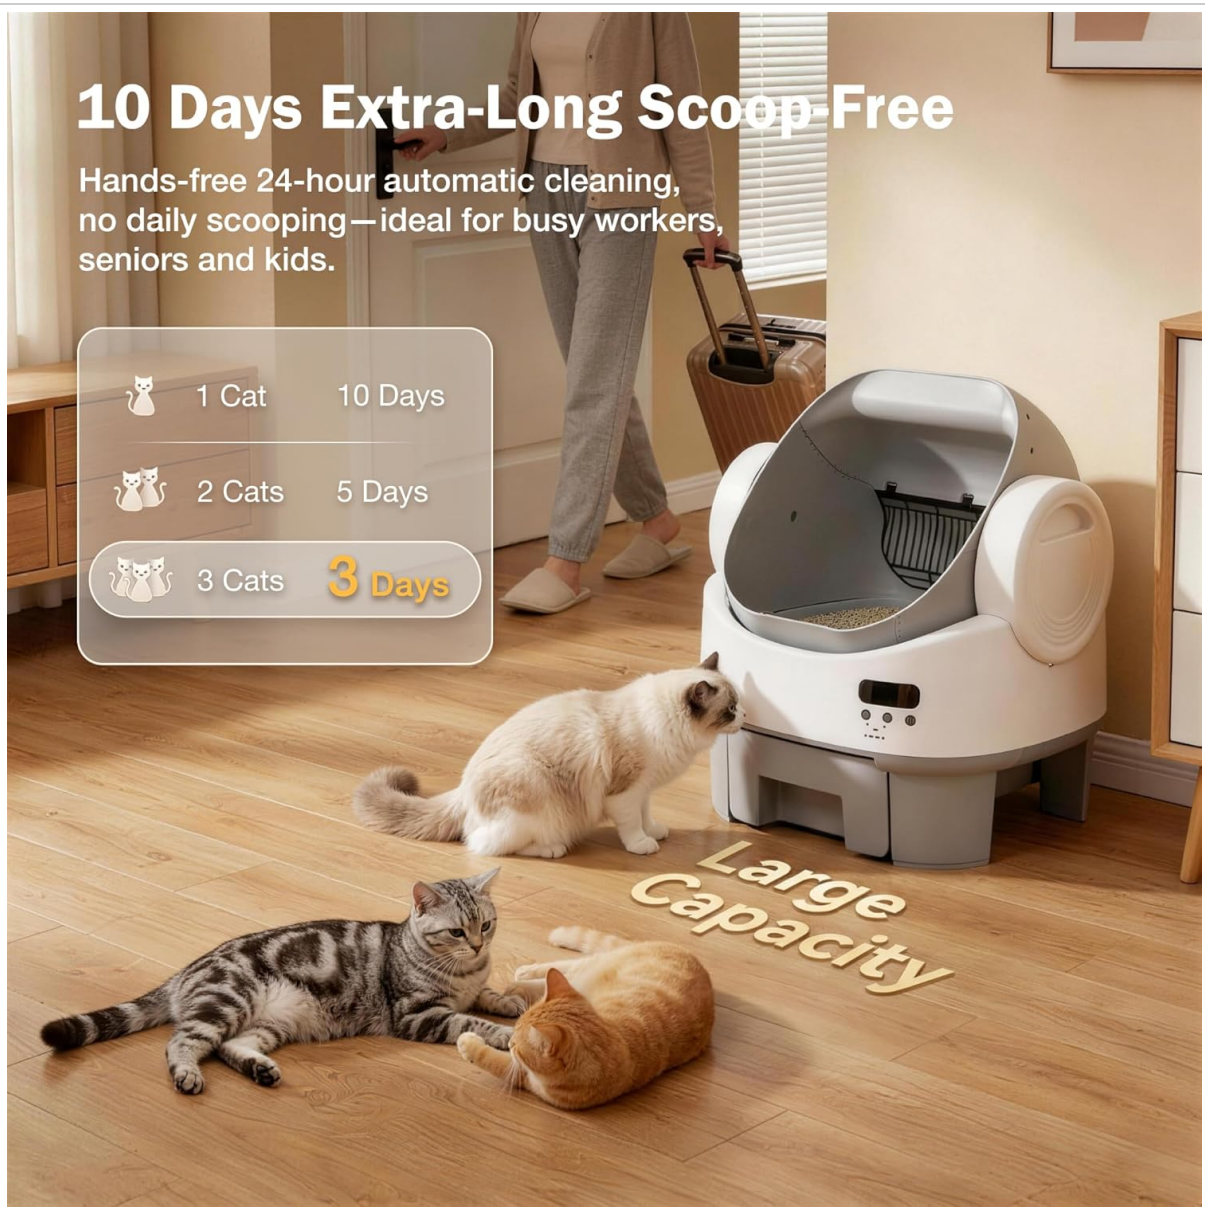

Image: All components of the litter box, including the main unit, waste drawer, power adapter, litter mat, garbage bags, and scoop, neatly arranged after unboxing.

SETUP AND INSTALLATION

- 1. Attach the Support Legs:** Locate the four support legs and align them with the designated slots on the bottom of the main unit. Twist each leg to secure it into the locked position.
- 2. Install the Waste Drawer:** Place a garbage bag into the 10L waste drawer, ensuring it is properly seated. Slide the waste drawer into the designated slot at the front of the base unit.
- 3. Add Cat Litter:** Pour clumping cat litter (granules smaller than 15mm/0.6 inches) into the main drum. Ensure the litter level is between the MIN and MAX fill lines indicated inside the drum.
- 4. Connect Power:** Plug the power adapter into the unit and then into a wall outlet. The unit will perform an initial calibration cycle.

Refill litter easily, no back strain!

OPERATING INSTRUCTIONS

The WARCAT litter box operates automatically, but also offers manual control and safety features.

- **Automatic Cleaning Cycle:** The unit automatically initiates a cleaning cycle after your cat exits the litter box. This ensures a fresh bed of litter for the next use.
- **Cleaning Button:** Press once to start a cleaning cycle manually. Long press for 3 seconds to empty the cat litter completely.
- **Manual Mode Button:** Long press for 3 seconds to enter manual mode, then long press again for 3 seconds to exit. This allows for specific cleaning or maintenance tasks.
- **Power Button:** Long press for 3 seconds to power off the unit; press once to power it on.

For multi-cat & all-size cats

Open design helps cats adapt easily and use it quickly without stress.

SAFETY FEATURES

Your cat's safety is a top priority with the WARCAT litter box.

- **Smart Safety Sensors:** Equipped with 8 dedicated sensors, the litter box continuously monitors for your cat's presence. If a cat enters during an automatic cleaning cycle, the operation will immediately halt and resume only after the cat has safely exited.
- **Child Lock:** To prevent accidental operation by children or curious pets, activate the child lock. First, press and hold the manual mode button, then press and hold the cleaning button. Maintain this for 3 seconds to activate the child lock. Repeat the steps to deactivate. A steady white light indicates the child lock is enabled.

Safety First for Your Pet

Safe for playful & curious cats. Multiple safety protections keep your pet fully secure.

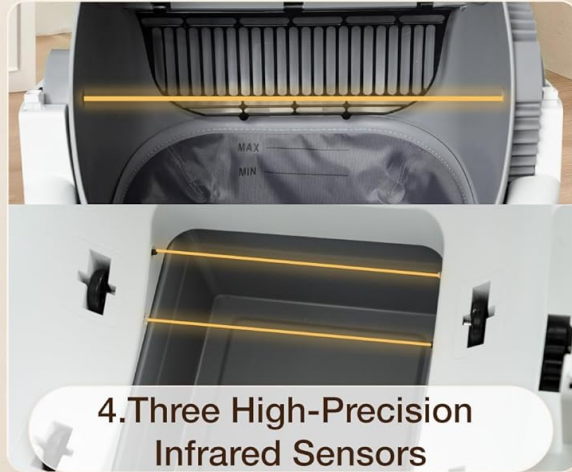

Image: A detailed diagram highlighting the dual anti-pinch sensors, dual Hall sensors, partially open gear with reserved safety gap, and three high-precision infrared sensors for comprehensive safety.

LITTER COMPATIBILITY

The WARCAT litter box is compatible with most clumping cat litters. For optimal performance, ensure the litter granules are smaller than 15mm (0.6 inches). There is no need to switch from your cat's preferred brand, as long as it meets the size requirement.

Quick to assemble, easy to maintain

Unbox and use in just 3 minutes! Low failure rate, easy for kids and seniors.

Easy Wipe

Washable

MAINTENANCE

Regular maintenance ensures the longevity and hygienic operation of your litter box.

- **Emptying the Waste Drawer:** The 10L sealed waste drawer reduces the frequency of emptying. For multi-cat households, it may need to be emptied every 3-5 days. For single-cat households, it can last up to 10 days. Simply pull out the drawer, tie the garbage bag, and replace it with a new one.
- **Cleaning the Unit:** The main drum is washable. For the base unit, wipe with wet wipes only; it is not washable.
