Greesum GS-SCLB26-1356-2GY-0324-2

Greesum Self-Cleaning Cat Litter Box User Manual

Model: GS-SCLB26-1356-2GY-0324-2

1. Introduction

Thank you for choosing the Greesum Self-Cleaning Cat Litter Box. This automatic litter box is designed to simplify cat care by providing a clean and comfortable environment for your feline companions. Its open-top design and intelligent features ensure a stress-free experience for cats and convenience for owners. This manual provides essential information for safe operation, setup, maintenance, and troubleshooting.

2. Product Overview & Features

The Greesum Self-Cleaning Cat Litter Box offers a practical solution for maintaining a clean home environment. Key features include:

- **Open-Top Design:** Provides a natural and stress-free experience, suitable for large or multiple cats.

- **No App or WiFi Required:** Simple, straightforward operation without complex technology.
- **Automatic Cleaning:** Separates waste after each use, reducing the need for manual scooping.
- **High-Capacity Waste Bin:** 8L capacity supports up to 10 days of use, ideal for busy schedules or travel.
- **Integrated Safety Sensors:** Multiple sensors monitor cat activity, pausing operation if movement is detected.
- **Efficient Litter Usage:** Designed to reduce waste and save on litter costs.
- **Quiet Operation:** Minimizes disruption in your home.

3. Safety Instructions

Your safety and the safety of your pet are paramount. Please read and follow all safety instructions carefully.

- **Sensor Protection:** The litter box is equipped with 3 infrared sensors, 2 microwave radar sensors, and dual Hall sensors. These sensors detect your cat's presence and movement, automatically pausing operation to prevent pinching.

- **Child Lock:** To prevent accidental operation by children or curious pets, press both control keys simultaneously to toggle the child lock feature.
- **Cat-Safe Gear Design:** Smart toothless segments limit rotation automatically, ensuring your cat's paws and tails are safe from pinching during the cleaning cycle.
- **Placement:** Place the litter box on a stable, level surface away from water sources.
- **Power:** Use only the provided power adapter. Do not use if the power cord is damaged.
- **Supervision:** While the device has safety features, always supervise your pet during initial use.

4. Setup Guide

The Greesum Self-Cleaning Cat Litter Box is designed for quick and easy assembly. Follow these steps to set up your device:

1. **Install the 4 Legs:** Attach the four support legs to the base of the litter box.
2. **Place Trash Bag in Waste Bin:** Insert a waste bag into the pull-out waste bin located at the front of the base.
3. **Install the Drum:** Carefully place the rotating drum unit onto the base, ensuring it is properly seated.
4. **Attach Side Covers:** Secure the side covers to the drum unit.
5. **Pour Cat Litter & Plug In:** Fill the drum with suitable clumping cat litter (see Operating Instructions for compatible types). Connect the power adapter and plug it into an electrical outlet.

Image: Visual guide showing the five easy steps to assemble the Greesum Self-Cleaning Cat Litter Box: installing legs, placing a trash bag, installing the drum, attaching side covers, and pouring litter before plugging in.

5. Operating Instructions

The Greesum Self-Cleaning Cat Litter Box offers both automatic and manual operation modes.

Modes of Operation:

- **Auto Mode:** For daily, hands-free cleaning. The device automatically detects when your cat has used the litter box and initiates a cleaning cycle after a set delay (typically a few minutes) to allow the litter to clump.
- **Manual Mode:** For on-demand control. Press the designated button to start a cleaning cycle at any time.

You can switch between Auto and Manual modes using the one-click switch on the control panel. The control panel also features a child lock function (refer to Safety Instructions).

Compatible Litter Types:

The Greesum Self-Cleaning Cat Litter Box is compatible with various clumping litters, including Bentonite, Mixed, and Mineral types. For optimal performance, avoid litter particles exceeding 0.6 inches.

6. Maintenance & Cleaning

Regular maintenance ensures the longevity and hygienic operation of your Greesum Self-Cleaning Cat Litter Box.

Waste Bag Replacement:

The high-capacity waste bin can hold waste for up to 10 days. To replace the waste bag:

1. Pull out the waste drawer from the front of the unit.
2. Tie off the full waste bag and remove it.
3. Insert a new waste bag into the bin and push the drawer back into place.

Cleaning the Unit:

The removable parts of the litter box are designed for easy cleaning.

- **Drum:** The rotating drum is washable. Remove it from the base and rinse with water. Ensure it is completely dry before reassembling.
- **Waste Bin:** The waste bin is washable and can be rinsed with water.
- **Base:** The base unit is **not washable**. Wipe the base with wet wipes or a damp cloth only. Do not submerge the base in water.

Image: Visual guide demonstrating the easy cleaning process, showing the drum being wiped and rinsed, with a note that the base is not washable and should only be wiped.

7. Troubleshooting

If you encounter any issues with your Greesum Self-Cleaning Cat Litter Box, please refer to the following common solutions:

- **Device Not Operating:** Ensure the power adapter is securely plugged into both the unit and a working electrical outlet. Check if the child lock is activated; deactivate it if necessary.
- **Cleaning Cycle Stops Unexpectedly:** This is often due to the safety sensors detecting movement. Ensure no cat

or object is near the entrance during operation. Check if the waste drawer is full, as this can also pause operation.

- **Litter Not Clumping Properly:** Ensure you are using a high-quality clumping litter. Allow sufficient time for the litter to clump before the cleaning cycle begins.
- **Odor Issues:** Ensure the waste bag is properly sealed and replaced regularly. Clean the drum and waste bin thoroughly.
- **Unusual Noises:** Check for any obstructions within the drum or gear mechanism. Ensure all parts are correctly assembled.

If the problem persists, please contact Greesum customer support for assistance.

8. Specifications

Feature	Detail
Model Number	GS-SCLB26-1356-2GY-0324-2
Product Dimensions (L x W x H)	52.6L x 47.8W x 61.7H centimetres (20.7 x 18.8 x 24.3 inches)
Item Weight	7.3 kg (16.1 lbs)
