6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Goiaey GO2 Mini Projector.

- **Dust Prevention:** The projector is equipped with a sealed optical engine to prevent dust from entering, maintaining image clarity over time.

- **Cooling System:** An efficient low-noise cooling system prevents overheating and ensures stable long-hour operation.
- **General Care:**
 - Ensure proper ventilation around the projector.
 - Regularly clean the lens with a soft, lint-free cloth.
 - Follow correct shutdown procedures to protect internal components.
 - Avoid continuous operation for excessively long periods.
 - Use a stable power supply to prevent electrical damage.
 - Store the projector in a cool, dry place when not in use.

7. TROUBLESHOOTING

If you encounter issues with your projector, consider the following common troubleshooting steps:

- **No Power:** Ensure the power cable is securely connected to both the projector and the power outlet. Try a different outlet.
- **No Image/Blurry Image:** Check that the lens cap is removed. Allow the auto-focus feature to adjust. Ensure the projection surface is suitable.
- **No Sound:** Verify that the volume is not muted or set too low. Check external audio connections if using external speakers.
- **Connectivity Issues (WiFi/Bluetooth):** Ensure the projector is within range of your router or Bluetooth device. Reconnect to the network or re-pair the Bluetooth device.
- **Image Distortion:** The auto vertical keystone correction should automatically adjust. If issues persist, check projector placement.
