4. SETUP INSTRUCTIONS

4.1 Unpacking and Placement

1. Carefully remove the computer and all accessories from the packaging.
2. Place the AIO computer on a stable, flat surface, ensuring adequate ventilation around the device. Avoid placing it near heat sources or in direct sunlight.

4.2 Connecting Peripherals

1. **Wireless Keyboard and Mouse:** Insert the USB receiver (usually found in the mouse or keyboard battery compartment) into an available USB port on the rear of the AIO. Ensure batteries are installed in the keyboard and mouse.
2. **Power Connection:** Connect the power adapter to the power connector on the rear of the AIO, then plug the power cable into an electrical outlet.
3. **Optional Connections:**
 - **External Display:** If desired, connect an external monitor to the HDMI-out port.
 - **Wired Network:** For a stable internet connection, connect an Ethernet cable to the RJ-45 port.
 - **Audio Devices:** Connect headphones or external speakers to the 3.5mm audio combo jack.

4.3 Initial Power-On

1. Press the power button, typically located on the side or bottom edge of the display.
2. Follow the on-screen instructions to complete the Windows 11 initial setup, including language selection, network connection, and user account creation.

5. OPERATING INSTRUCTIONS

5.1 Windows 11 Basics

Your Lenovo AIO comes pre-installed with Windows 11. Familiarize yourself with the operating system's interface:

- **Start Menu:** Access applications, settings, and power options.
- **Taskbar:** Pin frequently used apps and view open programs.
- **Action Center:** Manage notifications and quick settings.
- **File Explorer:** Browse and manage your files and folders.

5.2 Network Connectivity

- **Wi-Fi:** Click the network icon in the taskbar, select your Wi-Fi network, enter the password, and connect.
- **Bluetooth:** To pair Bluetooth devices, go to *Settings > Bluetooth & devices*, turn on Bluetooth, and select "Add device".
- **Ethernet:** If an Ethernet cable is connected, the system should automatically establish a wired network connection.

5.3 Using Ports

- **USB Ports:** Connect USB devices such as external hard drives, flash drives, printers, or other peripherals.
- **HDMI-out:** Extend your desktop to a second monitor or projector for increased workspace or presentations.
- **Audio Jack:** Plug in headphones for private listening or external speakers for enhanced sound.

6. MAINTENANCE

6.1 Cleaning Your AIO

- **Display:** Use a soft, lint-free cloth slightly dampened with water or a screen cleaner. Avoid harsh chemicals.
- **Casing:** Wipe with a soft, dry cloth. Do not use abrasive cleaners.
- **Ventilation:** Ensure the ventilation openings are clear of dust and obstructions to prevent overheating.

6.2 Software Updates

Regularly update your Windows operating system and drivers to ensure optimal performance and security.

- **Windows Updates:** Go to *Settings > Windows Update* and check for updates.
- **Driver Updates:** Visit the official Lenovo support website for the latest drivers for your A100 model.

6.3 Storage Management

To maintain system speed, regularly manage your storage:

- Delete unnecessary files and applications.
- Utilize the 500GB external storage for large files to keep the primary SSD optimized.
- Consider using cloud storage services for backups.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

7.1 No Power

- Ensure the power cable is securely connected to both the AIO and the electrical outlet.
- Verify the electrical outlet is functional by plugging in another device.
- Check the power adapter for any damage.

7.2 No Display

- Confirm the computer is powered on (check power indicator light).
- If an external monitor is connected, ensure it is powered on and correctly configured as the primary display in Windows settings.
- Try restarting the computer.

7.3 Network Connectivity Issues

- **Wi-Fi:** Check if Wi-Fi is enabled in Windows settings. Restart your router/modem. Ensure you are within range of your Wi-Fi network.
- **Ethernet:** Verify the Ethernet cable is securely connected to both the AIO and the router/modem. Check the network status in Windows settings.
- Update network drivers from the Lenovo support website.

7.4 Keyboard or Mouse Not Responding

- Check the batteries in the wireless keyboard and mouse and replace if necessary.
- Ensure the USB receiver is properly inserted into a functional USB port. Try a different USB port.
- Restart the computer.
