FreAire HAP611WF Air Purifier Replacement Filter User Manual

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your FreAire HAP611WF Air Purifier Replacement Filter. This multi-stage H13 True High-Efficiency Activated Carbon Filter is designed for optimal compatibility and performance with the FreAire HAP611WF air purifier, ensuring clean and fresh air in your environment.

Safety Information

- Always unplug the air purifier before attempting to replace the filter.
- Do not wash or reuse the H13 True HEPA or activated carbon layers of the filter. Only the pre-filter layer may be washable if specified.
- Keep replacement filters in their sealed packaging until ready for use to maintain their effectiveness.
- Dispose of used filters according to local regulations.

SETUP AND INSTALLATION

Follow these steps to install or replace the filter in your FreAire HAP611WF air purifier:

1. **Step 1: Open the front cover.** Gently pull the front cover of the air purifier to open it.
2. **Step 2: Remove the main filter.** Carefully pull out the used filter from the air purifier.
3. **Step 3: Prepare the new filter.** For first-time use, remove the new filter from its plastic protective bag. For replacement, insert the new filter into the air purifier.
4. **Step 4: Reinstall and close the cover.** Place the filter back into the unit and securely close the front cover.

OPERATING PRINCIPLES AND FILTER LAYERS

The FreAire HAP611WF replacement filter features a multi-stage filtration system designed to capture various airborne particles and odors. This system includes:

- **Washable Pre-Filter:** Captures larger particles such as dust and pet hair.
- **Allergen Defense Layer:** Targets dander and fine dust.
- **Pollutant Control Layer:** Filters smoke and airborne pollutants.
- **Particle Capture Layer:** Designed to trap tiny particles and fine dust.
- **Odor & Gas Filter (Activated Carbon):** Absorbs odors and cooking fumes.

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier and filter.

- **Filter Replacement:** The air purifier is equipped with a smart filter change reminder. Replace the filter when the indicator light illuminates or when performance noticeably decreases. The typical lifespan of the filter depends on usage and air quality.
- **Washable Pre-Filter:** The outermost pre-filter layer can be cleaned. Gently remove it and wash with water to remove accumulated dust and pet hair. Ensure it is completely dry before reinserting.

TROUBLESHOOTING

If you encounter issues related to the filter, consider the following:

- **Filter Indicator Light Remains On After Replacement:**After replacing the filter, you may need to manually reset the filter life indicator on your air purifier. Refer to your air purifier's main user manual for specific instructions on how to reset the filter life.
- **Reduced Airflow or Odors Persist:**
 - Ensure the filter is installed correctly and the front cover is securely closed.
 - Check if the washable pre-filter is clean. A clogged pre-filter can restrict airflow.
 - If the filter has been in use for an extended period, it may be time for a replacement, even if the indicator light has not yet activated.
- **Unusual Noise:** Ensure the filter is seated properly within the air purifier. A loose filter can cause vibrations.

SPECIFICATIONS

Feature	Detail
Brand	FreAire
Model Number	RFHAP611_2P (for 2-pack)
Compatible Device	FreAire HAP611WF Air Purifier
Filter Type	Multi-stage H13 True High-Efficiency Activated Carbon Filter
MERV Rating	13
