1. PRODUCT OVERVIEW

The EaseLife Bifold Barn Door is designed to provide a functional and aesthetically pleasing room divider or closet door solution. It features tempered clear glass and solid wood construction, allowing natural light transmission while offering durability. This bifold door system is engineered for space-saving applications, making it suitable for various living spaces.

Key Features:

- **Tempered Clear Glass & Solid Wood:** Constructed with high-hardness transparent tempered glass and crack-resistant solid wood for durability and light flow.
- **Space-Saving Design:** Bifold mechanism reduces open door footprint by up to 50% compared to traditional barn doors.
- **Versatile Application:** Suitable for bathrooms, closets, bedrooms, laundry rooms, kitchens, and study areas.
- **DIY Customization:** The wood frame can be painted to match various interior decoration styles.

3. INSTALLATION INSTRUCTIONS

This bifold door system is designed for straightforward installation. The door panels are pre-assembled, requiring only the installation of the sliding hardware, hinges, and door knob. Refer to the included graphic and text manual for detailed, step-by-step instructions.

3.1 Pre-Installation Checks:

- **Measure Door Opening:** Carefully measure your door opening width and height to ensure compatibility with the door size. Refer to the sizing chart below.
- **Wall Structure:** Ensure the wall above the door opening is structurally sound to support the track and door weight.
- **Tools Required:** Gather all necessary tools as specified in the detailed manual (e.g., drill, level, measuring tape, screwdriver).

3.2 Assembly Steps Overview:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the packing list.
2. **Install Hinges and Door Knob:** Attach the provided hinges and door knob to the pre-assembled door panels as per the manual.
3. **Mount Track:** Securely mount the 2.66FT track above the door opening, ensuring it is level and properly aligned.
4. **Install Floor Guide:** Position and install the floor guide to ensure smooth door operation and stability.
5. **Hang Door Panels:** Carefully hang the door panels onto the track and connect them to the floor guide.
6. **Adjust and Test:** Make any necessary adjustments to ensure the door opens and closes smoothly without obstruction.

4. OPERATING INSTRUCTIONS

The EaseLife Bifold Barn Door operates by folding along its central hinges, allowing it to collapse and expand within the door frame. This design maximizes usable space.

4.1 Opening the Door:

- Grasp the door knob or handle.
- Gently pull the door towards you to initiate the folding action.
- Continue pulling until the door panels are fully folded and clear the doorway.

4.2 Closing the Door:

- Grasp the door knob or handle.
- Gently push the door panels together, guiding them along the track and floor guide.

- Ensure the panels align properly when fully closed.

5. MAINTENANCE

Regular maintenance ensures the longevity and smooth operation of your EaseLife Bifold Barn Door.

5.1 Cleaning:

- **Wood Panels:** Wipe wood surfaces with a soft, damp cloth. Avoid abrasive cleaners or excessive moisture. For deeper cleaning, use a wood-safe cleaner.
- **Glass Panels:** Clean tempered glass with a standard glass cleaner and a lint-free cloth. Avoid harsh chemicals that could damage the wood frame.
- **Hardware:** Wipe the track and other metal hardware with a dry or slightly damp cloth to remove dust and debris.

5.2 Lubrication:

- Periodically apply a silicone-based lubricant to the track and roller mechanisms to ensure smooth gliding. Do not use oil-based lubricants as they can attract dust.

5.3 Inspections:

- Regularly check all screws and fasteners for tightness. Tighten if necessary.
- Inspect hinges and rollers for any signs of wear or damage. Replace components if they are compromised.

6. TROUBLESHOOTING

Refer to the following common issues and their solutions. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
Door does not slide smoothly.	Track obstruction, lack of lubrication, misaligned rollers.	Clean the track, apply silicone lubricant, check roller alignment and adjust if needed.
Door panels do not align when closed.	Improper floor guide installation, loose hinges, uneven track.	Verify floor guide position, tighten hinge screws, ensure track is level.
Door feels wobbly.	Loose fasteners, damaged hardware.	Check and tighten all mounting screws. Inspect hardware for damage and replace if necessary.

7. PRODUCT SPECIFICATIONS

Model Number:	DOOR_SP_BFD_A6H_1680A_X2
Size:	31 1/2" (Double 15 3/4") x 78 3/4" - Clear Glass
Product Dimensions:	80 x 15 x 3 inches (approximate, for packaging)
Item Weight:	67.9 pounds
Material:	Wood, Tempered Glass
Color:	Clear Glass (Wood frame is natural, suitable for DIY coloring)
Style:	French Bifold
Included Components:	Preassembled Doors, 2.66FT Track Kit, Hardware, Installation Manual
Usage:	Commercial/Residential
