## SAFETY INFORMATION

---

Observe the following safety guidelines to prevent injury or damage to the product:

- Ensure all components are present and undamaged before assembly.
- Install the privacy screen on stable, level ground to prevent tipping.
- Exercise caution when handling tools during installation.
- Do not climb on or lean heavily against the privacy screen.
- Keep children and pets away from the installation area during setup.

## PACKAGE CONTENTS

---

Verify that all parts are included in your package:

- Wood Privacy Panels (2 units)
- Metal Stakes (for ground anchoring)
- Steel Frames/Posts
- Protective Caps
- Assembly Hardware (screws, bolts, etc.)
- Instruction Manual (this document)

## PRODUCT FEATURES

---

The DoCred Privacy Screen offers the following key features:

- **Effective Privacy Protection:** Designed to block unwanted views while allowing subtle light penetration.
- **High-Quality Materials:** Constructed from solid wood and durable steel frames for weather resistance and longevity.
- **Secure Metal Stakes:** 10-inch deep ground penetration for enhanced wind resistance and stability.
- **Sleek & Versatile Design:** Modern aesthetic suitable for various indoor and outdoor environments.
- **Multi-Scenario Application:** Ideal for patios, gardens, hiding trash cans, AC units, or as a decorative partition.

## SPECIFICATIONS

---

Attribute	Detail
Model	2 Panel 60" H x 38" W No Dig Wood Privacy Screen
Dimensions (per panel)	Approximately 60" H x 38" W (each panel)
Material	Solid Wood Panels, Steel Frame, Metal Stakes
Installation Type	No-Dig, Ground Stake Anchoring
Manufacturer	DoCred

## SETUP AND INSTALLATION

Follow these steps for proper installation of your privacy screen:

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the package contents list.
2. **Choose Location:** Select a stable, level area for installation. Ensure the ground is suitable for driving metal stakes.
3. **Assemble Panels:** Attach the wood panels to the steel frames using the provided hardware. Ensure all connections are secure.
4. **Insert Metal Stakes:** Position the assembled screen. Drive the metal stakes attached to the steel frames firmly into the ground, ensuring they penetrate approximately 10 inches deep for maximum stability.
5. **Secure Protective Caps:** Place the protective caps on top of the steel posts.
6. **Verify Stability:** Gently push on the screen to ensure it is firmly anchored and does not wobble.

# STURDY METAL PILES

*Applicable to various surfaces,  
firmly anchored for  
exceptional wind resistance*

## OPERATING AND USAGE

Your DoCred privacy screen is designed for versatile use:

- **Privacy Enhancement:** Position the screen to block views from neighbors, streets, or other areas where privacy is desired.
- **Concealment:** Effectively hide unsightly items such as trash cans, recycling bins, air conditioning units, or utility boxes.
- **Area Definition:** Use it to define specific zones in your garden, patio, or outdoor living space.
- **Noise Reduction:** The closed panel design can offer some level of noise isolation in outdoor settings.
- **Decorative Accent:** Integrate the screen as a backdrop for plants, outdoor art, or other decorative elements.

## MAINTENANCE

---

Proper maintenance will extend the lifespan of your privacy screen:

- **Regular Cleaning:** Wipe down wood panels with a damp cloth to remove dirt and debris. Avoid harsh chemicals.
- **Wood Treatment:** Periodically inspect the wood for signs of weathering. Apply a wood sealant or stain as needed to protect against moisture and UV damage.
- **Hardware Check:** Annually inspect all screws and connections to ensure they remain tight. Tighten if necessary.
- **Stake Stability:** After heavy winds or ground shifts, check the stability of the metal stakes and re-secure if loosened.

# NATURAL FIR WOOD FRAME

Image: The natural fir wood frame is shown enduring rain, emphasizing its weather-resistant properties.

## TROUBLESHOOTING

Refer to this section for common issues and solutions:

Problem	Possible Cause	Solution
Screen is wobbly/unstable.	Stakes not fully inserted; loose hardware; uneven ground.	Ensure stakes are driven 10 inches deep. Tighten all assembly hardware. Relocate to more level ground if necessary.
Wood appears faded or weathered.	Exposure to sun and elements without treatment.	Clean the wood and apply a suitable outdoor wood sealant or stain to restore and protect.

Problem	Possible Cause	Solution
Difficulty driving stakes into ground.	Hard or rocky soil.	Pre-dig small pilot holes or moisten the soil. Avoid excessively rocky areas.

## WARRANTY AND SUPPORT

---

For warranty information or technical support, please contact DoCred customer service. Refer to your purchase documentation for specific warranty terms and contact details.

*Note: An optional 2-Year Protection Plan may be available for purchase separately. This plan is not included with the product and provides additional coverage beyond the standard manufacturer's warranty.*
