VIVOSUN VSEX-HID1-MINI

VIVOSUN Herbal Butter Maker (Model VSEX-HID1-MINI) User Manual

Small Batch 2-in-1 Decarb & Infuse Machine

1. Introduction

This manual provides comprehensive instructions for the safe and efficient operation of your VIVOSUN Herbal Butter Maker, Model VSEX-HID1-MINI. This compact 2-in-1 device is designed for decarboxylation and infusion, allowing you to create small batches of herbal butter, infused oils, tinctures, and more with precise time and temperature control.

2. Important Safety Instructions

Please read all safety warnings and instructions carefully before using this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the appliance on a stable, heat-resistant, and dry surface.
- Do not immerse the main unit, power cord, or plug in water or any other liquid.
- Keep the appliance out of reach of children and pets.
- Do not operate the appliance if the power cord or plug is damaged, or if the appliance malfunctions or has been damaged in any way. Contact customer support for assistance.
- Use only accessories and attachments recommended by the manufacturer.
- Unplug the appliance from the outlet when not in use and before cleaning. Allow it to cool completely before handling or cleaning.
- Do not touch hot surfaces. Use oven mitts or a cloth when handling the aluminum chamber or silicone cup immediately after operation.
- Ensure the lid is properly secured before operating the machine.
- Do not overfill the chamber. Refer to capacity limits in the specifications.
- This appliance is for household use only. Do not use outdoors.

3. Package Contents

Verify that all items are present in the package:

- VIVOSUN Herbal Butter Maker Main Unit

- Aluminum Decarb Chamber
- Silicone Infusion Cup with Lid
- Silicone Mold
- Stainless Steel Funnel
- User Manual (this document)
- Recipe Guide

4. Product Components

Familiarize yourself with the parts of your VIVOSUN Herbal Butter Maker:

Image: Exploded view of the VIVOSUN Herbal Butter Maker showing its main components including the locking lid, food-grade silicone lid, removable silicone cup, rotating handle, aluminum chamber, main housing, and silicone feet.

- **Locking Lid:** Helps contain odors and secure contents.

- **Food-Grade Silicone Lid:** Seals in heat for efficient processing.
- **Removable Silicone Cup:** For infusion, easy to fill and clean.
- **Aluminum Chamber:** Provides fast, even heating for decarboxylation and infusion.
- **Rotating Handle:** Ergonomically designed for comfortable lifting and pouring.
- **Main Housing:** Contains heating elements and controls, safe and heat-resistant.
- **Silicone Feet:** Ensures stability and prevents slipping on countertops.
- **Control Panel:** Digital display with Time and Temp buttons, and +/- adjustments.

5. Setup

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, wash the aluminum chamber, silicone cup, silicone lid, and silicone mold with warm, soapy water. Rinse thoroughly and dry completely. The main unit should be wiped clean with a damp cloth.
3. **Assemble:** Place the aluminum chamber inside the main unit. If infusing, place the silicone cup inside the aluminum chamber.
4. **Position:** Place the assembled unit on a flat, stable, heat-resistant surface away from flammable materials.
5. **Connect Power:** Plug the power cord into a standard 110-120V (60Hz) electrical outlet. The display will illuminate.

6. Operating Instructions

The VIVOSUN Herbal Butter Maker offers two primary functions: Decarboxylation and Infusion. You can customize time and temperature for both processes.

Image: Visual guide showing the three steps: Decarb (250°F, 1.5 hours), Add Herbs & Butter, and Infuse (160°F, 2 hours).

6.1. Decarboxylation (Decarb)

Decarboxylation is the process of heating herbs to activate their compounds. This step is performed directly in the aluminum chamber.

1. Ensure the silicone cup is removed, and only the aluminum chamber is inside the main unit.
2. Place your desired amount of herbs (up to 1 oz, depending on density) directly into the aluminum chamber. Do not overfill.
3. Securely place the silicone lid and then the locking lid on top of the unit.
4. Press the **Power** button to turn on the device.
5. Press the **Temp** button, then use the **+$#x20;** or **-$#x20;** buttons to set the desired decarboxylation temperature (e.g., 250°F).
6. Press the **Time** button, then use the **+$#x20;** or **-$#x20;** buttons to set the desired decarboxylation time (e.g., 1.5 hours).

7. The machine will automatically start heating once time and temperature are set. The display will show the current temperature and remaining time.
8. Once the cycle is complete, the machine will beep and display "End". Unplug the unit and allow it to cool completely before carefully removing the lid and herbs.

6.2. Infusion

Infusion combines your decarboxylated herbs with a carrier (like butter or oil) to create an infused product. This step uses the silicone cup.

1. After decarboxylation, ensure the aluminum chamber is clean and dry. Place the silicone cup inside the aluminum chamber.
2. Add your decarboxylated herbs and your chosen carrier (e.g., butter, oil) into the silicone cup. Ensure the total volume does not exceed the 9oz working capacity.
3. Securely place the silicone lid and then the locking lid on top of the unit.
4. Press the **Power** button to turn on the device.
5. Press the **Temp** button, then use the **+$#x20;** or **-$#x20;** buttons to set the desired infusion temperature (e.g., 160°F for butter/oil).
6. Press the **Time** button, then use the **+$#x20;** or **-$#x20;** buttons to set the desired infusion time (e.g., 2 hours).
7. The machine will automatically start heating. The display will show the current temperature and remaining time.
8. Once the cycle is complete, the machine will beep and display "End". Unplug the unit and allow it to cool slightly before carefully removing the lid.
9. Carefully remove the silicone cup (use oven mitts if still warm) and pour the infused liquid through the stainless steel funnel into a storage container, straining out the plant material if desired.

Precision Control for Every Recipe

The VIVOSUN Herbal Butter Maker allows you to customize every batch with precise time and temperature control. Experiment with different settings to achieve your desired results.

7. Recipes and Usage Examples

Your VIVOSUN Herbal Butter Maker is versatile, allowing you to create a variety of homemade infusions. Refer to the included recipe guide for detailed instructions and inspiration.

Image: A collage showing various homemade infusions possible with the VIVOSUN Herbal Butter Maker, including herbal butter, herbal oil, tinctures, vinaigrettes, and milkshakes.

Common applications include:

- **Herbal Butter:** Perfect for baking or spreading.
- **Infused Oils:** Ideal for cooking, dressings, or topical applications.
- **Tinctures:** Concentrated herbal extracts.
- **Gummies and Edibles:** Use infused butter or oil as a base for your favorite recipes.
- **Lotions and Balms:** Create DIY personal care products.

8. Maintenance and Cleaning

Proper cleaning ensures the longevity and optimal performance of your appliance.

Image: Visual guide demonstrating easy cleanup: removable silicone cup and smooth aluminum chamber for quick wiping. Note: Main unit is not washable, wipe clean only.

1. **Unplug and Cool:** Always unplug the appliance and allow it to cool completely before cleaning.
2. **Remove Parts:** Carefully remove the silicone cup, silicone lid, and aluminum chamber.
3. **Wash Removable Parts:** The aluminum chamber, silicone cup, silicone lid, silicone mold, and stainless steel funnel are dishwasher safe or can be washed by hand with warm, soapy water. Rinse thoroughly and dry completely.
4. **Clean Main Unit:** Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water or any other liquid. Do not use abrasive cleaners or scouring pads, as they may damage the finish.
5. **Storage:** Ensure all parts are completely dry before reassembling and storing the appliance in a cool, dry place.

9. Troubleshooting

If you encounter any issues, please refer to the following table before contacting customer support.

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outlet not working.	Ensure the power cord is securely plugged into a working outlet. Test the outlet with another device.
Heating element not working.	Unit not powered on; internal fault.	Press the power button. If still not heating, unplug and plug back in. If the issue persists, contact customer support.
Temperature seems inaccurate.	Normal fluctuation; improper lid placement.	Ensure the lid is securely placed. Small fluctuations are normal. If significant discrepancy, contact customer support.
"End" displayed prematurely.	Cycle completed; error.	Check if the set time has elapsed. If not, unplug the unit, wait a few minutes, and try again.
Unpleasant odor during operation.	First use; residue from previous use.	A slight odor on first use is normal. Ensure all parts are thoroughly cleaned. Do not overfill.

10. Specifications

Technical details for the VIVOSUN Herbal Butter Maker (Model VSEX-HID1-MINI):

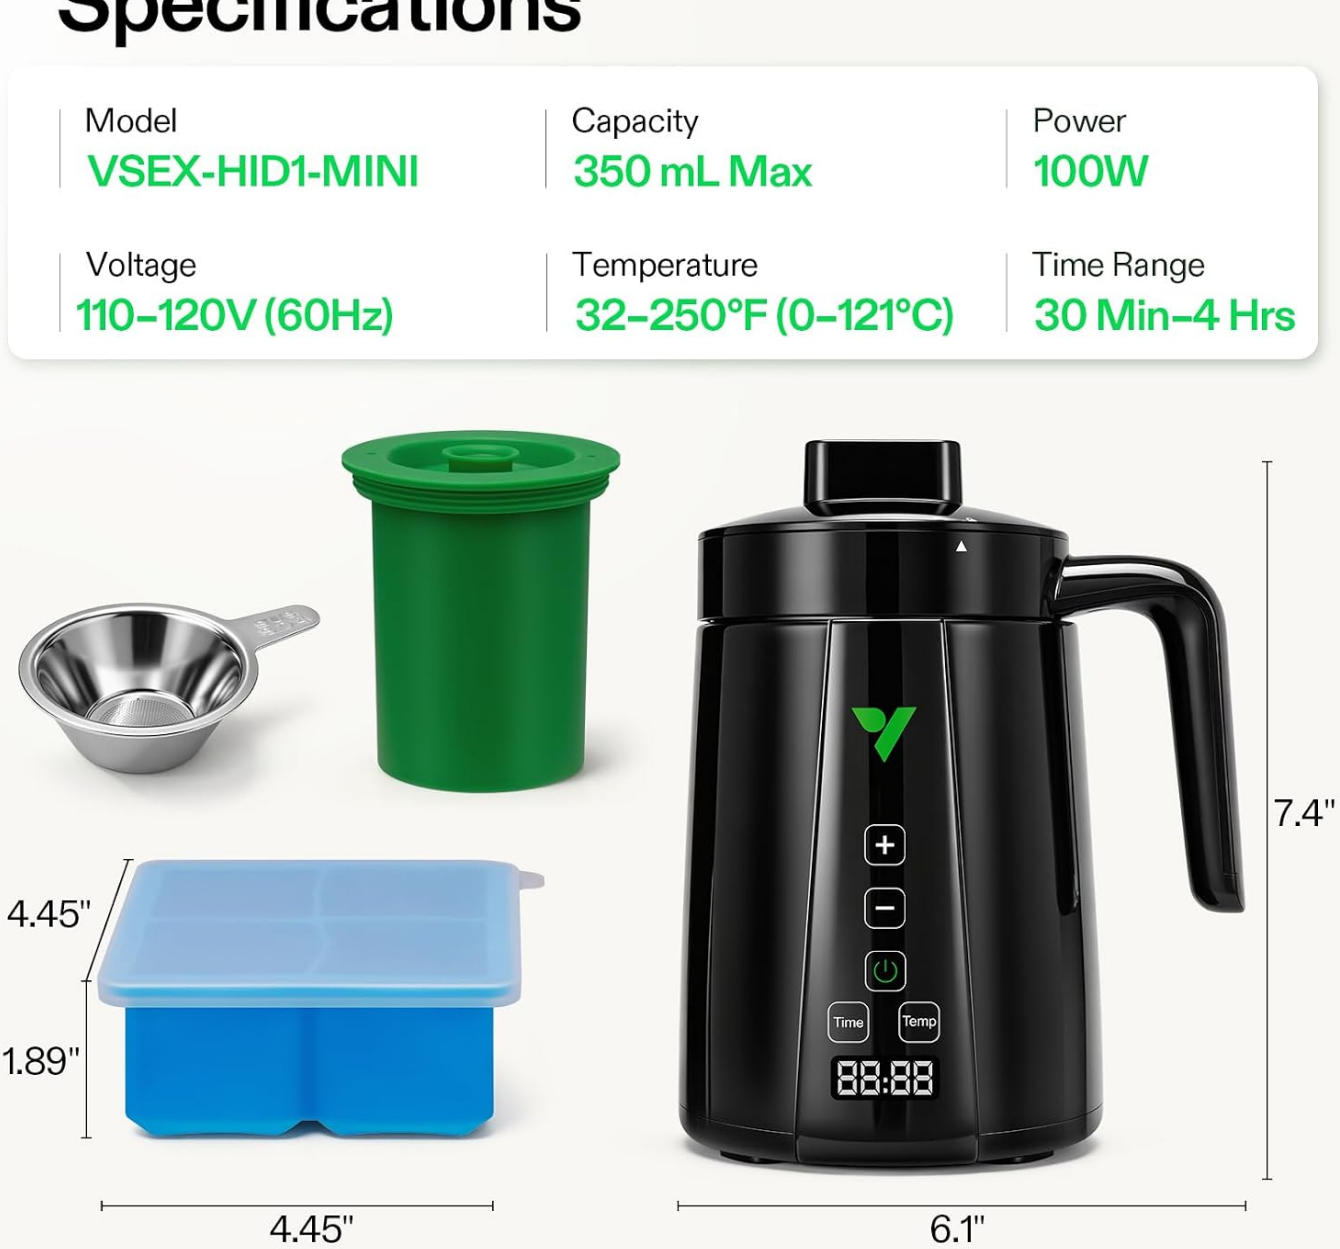

Image: Detailed specifications and dimensions of the VIVOSUN Herbal Butter Maker, including model number, capacity, power, voltage, temperature range, and time range, along with physical measurements.

Feature	Detail
Model Number	VSEX-HID1-MINI
Capacity	350 mL Max (9 oz working capacity for infusion)
Power	100W
Voltage	110-120V (60Hz)
Temperature Range	32-250°F (0-121°C)
Time Range	30 Minutes - 4 Hours
