## 4. SAFETY INSTRUCTIONS

Please read and understand all safety instructions before using the product. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Do not expose the product to rain or moisture.
- Do not immerse the product in water or any other liquid.
- Do not attempt to open, modify, or repair the product yourself. Contact qualified service personnel for repairs.
- Use only the specified charging methods and compatible cables.
- Keep the product away from heat sources and direct sunlight.
- Ensure the product is securely mounted to prevent it from falling.

## 5. SETUP AND INSTALLATION

The LED parasol light is designed for easy installation on most parasols with ribs measuring 69 cm or longer.

Image: Easy installation with 3M adhesive strips or hook-and-loop fasteners.

1. **Prepare the Parasol:** Identify the parasol ribs where the LED strips will be attached. Ensure the surfaces are clean and dry for optimal adhesion.
2. **Attach LED Strips:** Use the provided 3M adhesive strips or hook-and-loop fasteners to attach the LED strips to the underside of the parasol ribs. Distribute them evenly for balanced lighting.
3. **Connect Components:** Connect the individual LED strips to the multi-connector. Then, connect the multi-connector to the main connection cable.
4. **Connect Battery Unit:** Plug the main connection cable into the battery/remote control unit.
5. **Secure Battery Unit:** Use the integrated mounting strap on the battery/remote control unit to secure it to the parasol pole or another suitable, easily accessible location.
6. **Final Check:** Ensure all connections are secure and the strips are firmly attached before operation.

**Convient pour VONROC  
GP501XX et GP506XX.**

**Ajustement universel pour  
les nervures de parasol à partir  
de 69 cm.**

Image: Compatible with VONROC GP501XX and GP506XX parasol models, and universally adjustable for parasol ribs from 69 cm.

## 6. OPERATING INSTRUCTIONS

The LED parasol light is operated via the integrated remote control on the battery unit.

## Batterie amovible rechargeable via USB-C.

Image: Integrated remote control and 2600mAh battery with up to 5 hours of autonomy.

- **Power On/Off:** Press the power button on the remote control unit to turn the lights on or off.
- **Brightness Adjustment:** Use the designated buttons on the remote control to adjust the brightness levels of the LED strips.
- **Mode Selection:** If multiple lighting modes are available, use the mode button to cycle through them.

Lumière blanche chaude crée  
une **atmosphère chaleureuse.**

Image: Warm white light creates a welcoming atmosphere.

## 7. CHARGING THE BATTERY

---

The integrated 2600 mAh battery is rechargeable via USB-C.

## Batterie amovibile rechargeable via USB-C.

Image: Removable battery rechargeable via USB-C.

1. **Access Charging Port:** Locate the USB-C charging port on the battery/remote control unit.
2. **Connect Charger:** Connect a compatible USB-C charging cable to the unit and to a USB power source (e.g., wall adapter, power bank, computer USB port).
3. **Monitor Charging:** The indicator lights on the battery unit will show the charging status. Refer to the unit's specific indicators for full charge notification.
4. **Disconnect:** Once fully charged, disconnect the charging cable. A full charge provides up to 5 hours of illumination.

## 8. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your LED parasol light.

- **Cleaning:** Wipe the LED strips and battery unit with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals.
- **Storage:** When not in use for extended periods, store the product in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the battery is partially charged before storage.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge it regularly,

even if not in active use.

## 9. TROUBLESHOOTING

---

If you encounter issues with your LED parasol light, refer to the following common troubleshooting steps:

- **Light Not Turning On:**
  - Check if the battery is charged. Recharge if necessary.
  - Ensure all connections between the LED strips, multi-connector, connection cable, and battery unit are secure.
  - Verify the power button on the remote control unit is pressed correctly.
- **Lights Are Dim:**
  - The battery may be low. Recharge the battery fully.
  - Adjust the brightness settings using the remote control.
- **Inconsistent Lighting:**
  - Check individual LED strip connections for looseness.
  - Ensure no physical damage to the LED strips or cables.

If the problem persists after following these steps, please contact VONROC customer support.

## 10. WARRANTY AND SUPPORT

---

Your VONROC GP855AA Rechargeable LED Parasol Light comes with a manufacturer's warranty.

- **Warranty Period:** This product is covered by a 6-month manufacturer's warranty from the date of purchase.
- **Warranty Claims:** For warranty claims or technical support, please contact VONROC customer service. You may need to provide proof of purchase.
- **Contact Information:** For further assistance, please visit the official VONROC website or refer to the contact details provided with your purchase.
