WUBEN X5

WUBEN X5 Flashlight User Manual

Model: X5

1. Introduction

Thank you for choosing the WUBEN X5 Flashlight. This manual provides essential information for the safe and effective use of your device. Please read it thoroughly before operation and retain it for future reference.

Figure 1: WUBEN X5 Flashlight Key Features Overview

The WUBEN X5 is a versatile, rechargeable flashlight featuring 1300 lumens of white light, a 365nm UV blacklight, and a green light. Designed for everyday carry (EDC), it offers multiple modes, a compact form factor, and robust construction for various indoor and outdoor applications.

Your browser does not support the video tag.

Video 1: WUBEN X5 Flashlight Product Overview. This video demonstrates the flashlight's compact size, various light outputs, and general functionality.

2. Safety Information

- **Eye Safety:** Do not shine the flashlight directly into eyes or the eyes of others. The intense light can cause temporary vision impairment or permanent damage.
- **Children:** Keep out of reach of children. This is not a toy.
- **Heat:** The flashlight head may become hot during prolonged use at high output levels. Handle with care.

- **Battery:** The WUBEN X5 uses a non-removable ABN1200 battery pack. Do not attempt to disassemble or replace the battery. Improper handling of lithium batteries can lead to fire or explosion.
- **Disassembly:** Do not disassemble the flashlight. This will void the warranty and may cause damage to the device.
- **Environment:** Avoid exposing the flashlight to extreme temperatures, open flames, or corrosive liquids.

3. Package Contents

Please check the package for the following items:

- WUBEN X5 Flashlight
- User Manual (this document)
- Type-C Zinc Alloy Charging Lanyard
- L-shaped Hex Key (H1.5)
- Packaging Box

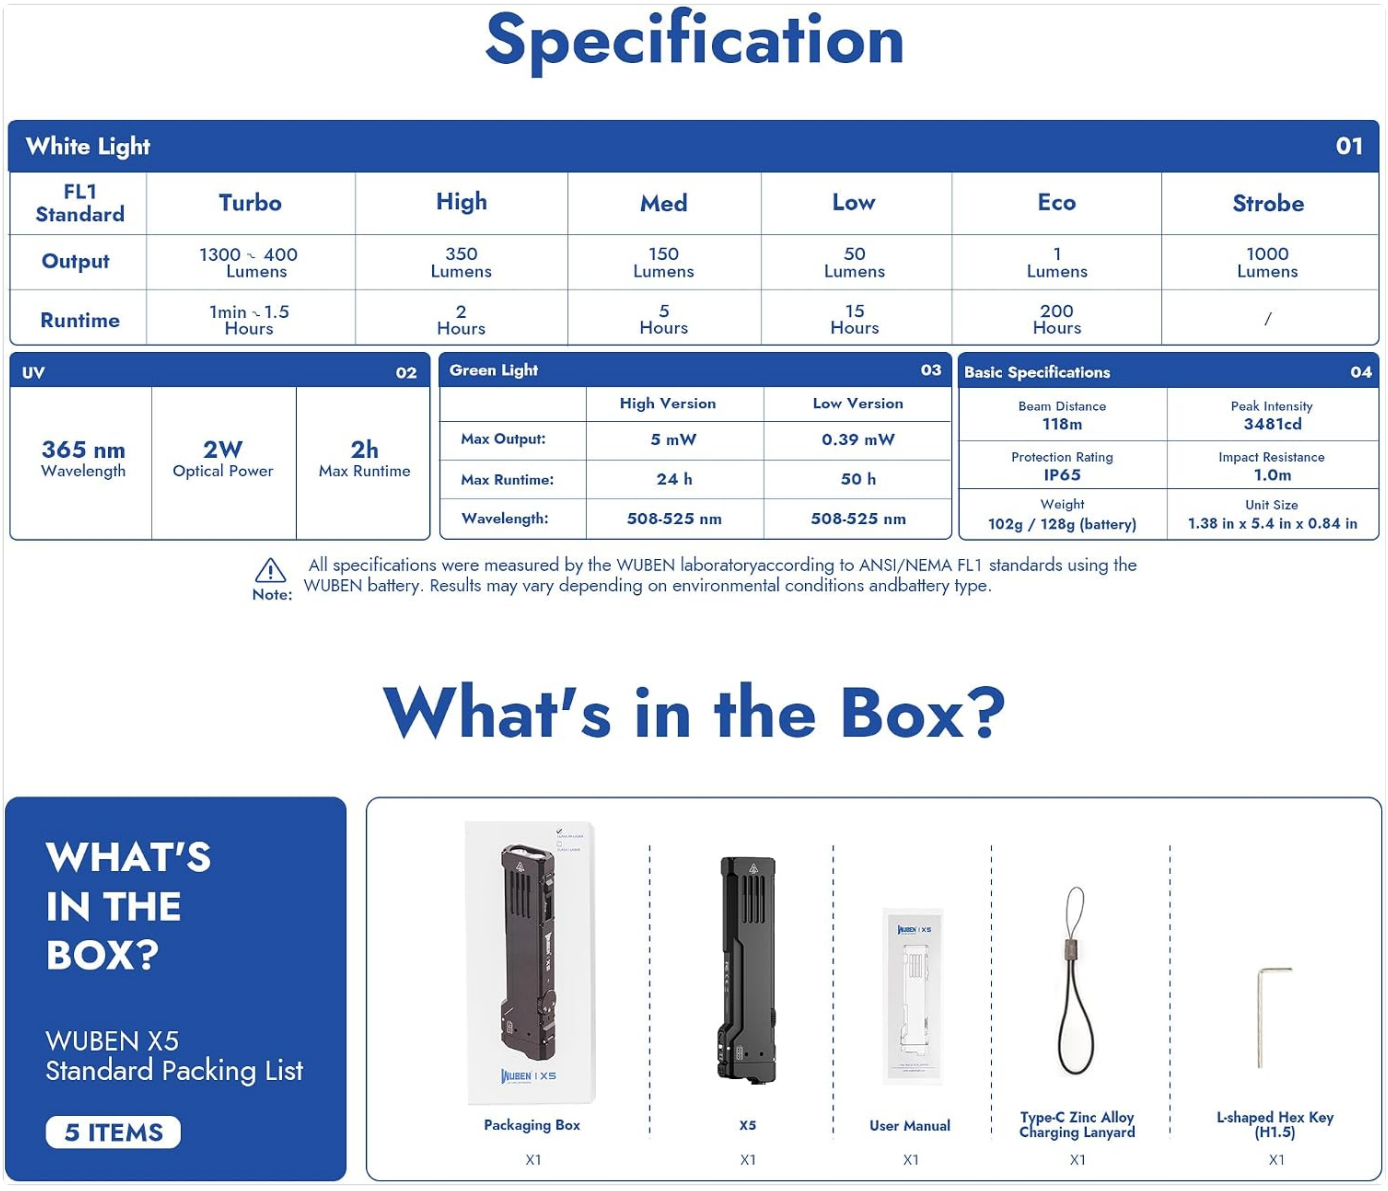

Figure 2: What's in the Box

4. Charging the Flashlight

The WUBEN X5 features a built-in rechargeable battery and a USB-C charging port.

1. Locate the USB-C charging port on the side of the flashlight. It is protected by a sliding cover.
2. Slide the cover to expose the USB-C port.
3. Connect the provided Type-C charging lanyard (or any standard USB-C cable) to the flashlight and a USB power source (e.g., computer, wall adapter, power bank).
4. The indicator light near the charging port will show the charging status:
    - **Red:** Charging
    - **Blue:** Fully charged
5. Once charging is complete, disconnect the cable and ensure the USB-C port cover is securely closed to protect it from dust and water.

5. Operation

The WUBEN X5 features a scroll wheel mode switch and two tactical tail switches for versatile control.

Your browser does not support the video tag.

Video 2: WUBEN X5 Operation Guide. This video provides a visual demonstration of how to operate the flashlight, including mode switching and activation.

5.1. Power On/Off (White Light)

- **Momentary On:** Press and hold the larger tactical tail switch for momentary white light. Release to turn off.
- **Constant On/Off:** Double-click the larger tactical tail switch to turn on the white light. Double-click again to turn off.

5.2. Switching White Light Modes

When the white light is on, rotate the scroll wheel to cycle through brightness levels: Eco → Low → Med → High → Turbo.

5.3. Activating UV Light

- **Momentary On:** Press and hold the smaller tactical tail switch for momentary UV light. Release to turn off.
- **Constant On/Off:** Double-click the smaller tactical tail switch to turn on the UV light. Double-click again to turn off.

5.4. Activating Green Light

The green light can be activated independently or simultaneously with white/UV light.

- **Turn On/Off:** Single-click the scroll wheel to turn on the green light. Single-click again to turn off.
- **Adjust Brightness:** When the green light is on, press and hold the scroll wheel to switch between High and Low green light output.

5.5. Strobe Mode

From any state (on or off), triple-click either the larger or smaller tactical tail switch to activate Strobe mode. Single-click either tactical tail switch to exit Strobe mode.

5.6. Simultaneous Light Use

The green light can be used concurrently with either the white light or the UV light. Activate the desired white/UV light, then single-click the scroll wheel to turn on the green light.

6. Light Modes and Performance

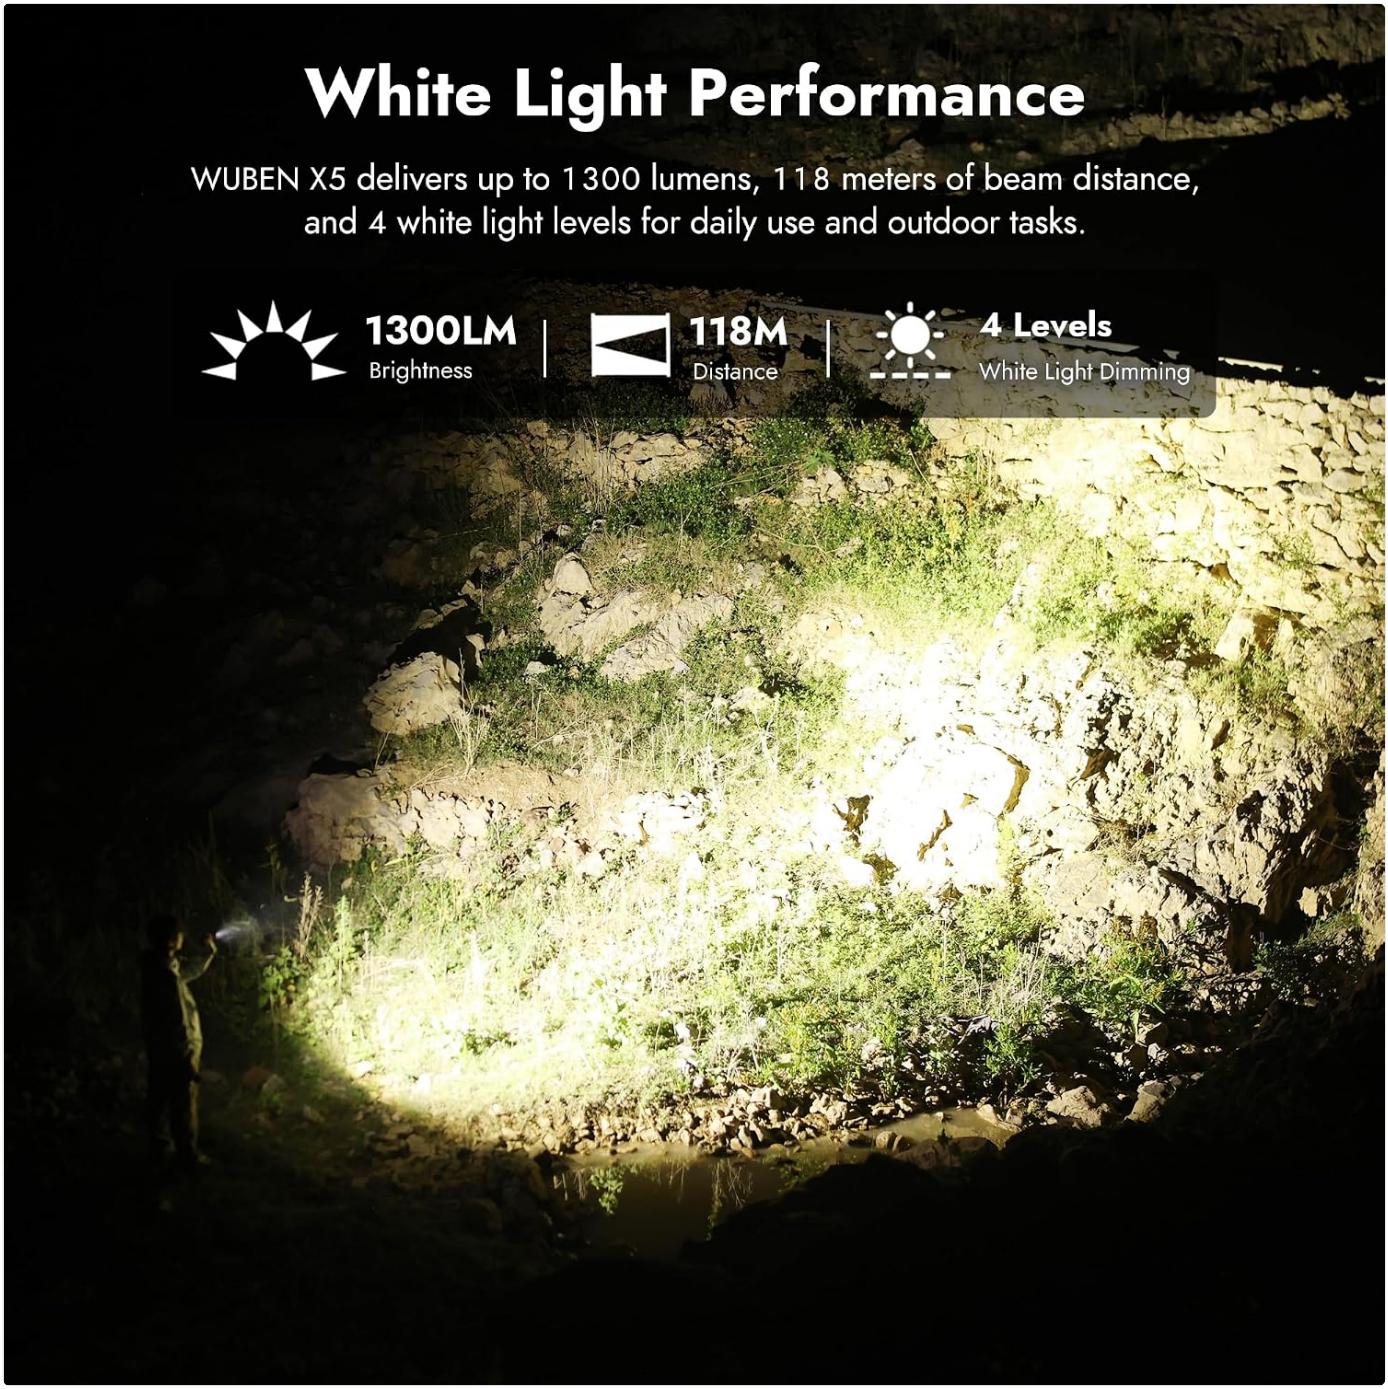

Figure 5: White Light Performance

WUBEN X5 Performance Specifications

Mode	Output (Lumens)	Runtime	Beam Distance (m)
White Light			
Turbo	1300 - 400	1 min - 1.5 hours	118
High	350	2 hours	
Med	150	5 hours	
Low	50	15 hours	
Eco	1	200 hours	
Strobe	1000	/	

Mode	Output (Lumens)	Runtime	Beam Distance (m)
UV Light	2W (365nm)	2 hours	
Green Light			
High Version	5 mW	24 hours	
Low Version	0.39 mW	50 hours	

Note: All specifications are measured by the WUBEN laboratory according to ANSI/NEMA FL1 standards using the WUBEN battery. Results may vary depending on environmental conditions and battery type.

7. Maintenance

- **Cleaning:** Clean the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents. Keep the lens clean for optimal light output.
- **USB Port:** Always ensure the USB-C port cover is securely closed when not charging to prevent dust and water ingress.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, charge the battery every 3-6 months to maintain battery health.
- **Water Resistance:** The WUBEN X5 is rated IP65 for water resistance, meaning it is protected against low-pressure water jets from any direction. It is not designed for submersion.

Figure 6: Built for Tough Conditions (IP65 Water Resistance, Dustproof, 1m Drop Resistance)

8. Troubleshooting

If you encounter issues with your WUBEN X5, please refer to the following common problems and solutions:

- **Flashlight does not turn on:**
  - Ensure the battery is charged. Connect to a USB power source and check the charging indicator.
  - Check if the tactical tail switches are fully pressed.
- **Light output is dim or flickers:**
  - The battery may be low. Recharge the flashlight.
  - Ensure the lens is clean.
- **Flashlight gets hot:**

- This is normal during prolonged use at high output levels. The flashlight has built-in thermal management to prevent overheating. If it becomes excessively hot, it may automatically reduce brightness.

If the problem persists, please contact WUBEN customer support.

9. Specifications

Technical Specifications

Feature	Detail
Model	X5
Light Source	White LED, UV Blacklight (365nm), Green Light
Max Output	1300 Lumens (White Light)
Max Beam Distance	118 meters
Battery Type	Built-in ABN1200 (Non-removable)
Charging Port	USB-C
Max Runtime	200 hours (Eco Mode)
Water Resistance	IP65
Impact Resistance	1.0 meter
Material	Aluminum
Dimensions (L x W x H)	137.05 mm x 35.05 mm x 21 mm (approx.)
Weight	127.2 grams (approx.)
Color Temperature	5000 Kelvin

10. Warranty and Support

The WUBEN X5 Flashlight comes with a **1-year manufacturer's warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use.
The warranty does not cover:

- Normal wear and tear.
- Damage caused by misuse, abuse, negligence, or accident.
- Damage caused by unauthorized repair or modification.
- Damage from battery leakage (not applicable for built-in battery).

For warranty claims or technical support, please contact WUBEN customer service through their official website or your point of purchase. Please have your proof of purchase ready.
