1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your BvenuBigLite 66-inch 8-blade ceiling fan with light. Please read this manual thoroughly before installation and use, and retain it for future reference.

Key Features:

- **66-Inch Diameter:** Ideal for large rooms up to 20ft x 20ft, including living rooms, great rooms, covered patios, and porches.
- **Dual-Finish Blades:** Features reversible blades with a classic black finish on one side and a rustic walnut finish on the other, allowing customization to match your decor.
- **Ultra-Quiet Reversible DC Motor:** Offers 6-speed settings (gentle breeze to strong airflow) and operates quietly (as low as 30dB). The reversible function provides cooling in summer and improved air circulation in winter.
- **Dimmable LED Light with Memory Function:** Adjust brightness from 10% to 100% and color temperature from 3000K (warm) to 6000K (cool). The memory function saves your last light and fan settings.
- **Multiple Control Options:** Control the fan and light via the included remote control, a dedicated mobile application, or a wall switch.
- **Flexible Mounting:** Includes 4-inch, 8-inch, and 24-inch downrods to accommodate various ceiling heights (12-32 inches) and vaulted ceilings up to 15 degrees.

2. SAFETY INFORMATION

Please read and follow all safety instructions carefully to prevent injury or damage.

- **Electrical Safety:** Always disconnect power at the circuit breaker before installing, cleaning, or servicing the fan. Consult a qualified electrician if you are unsure about wiring procedures.
- **Mounting:** Ensure the mounting structure can support the weight of the fan (at least 35 lbs). Use only the hardware provided or approved for ceiling fan installation.
- **Blade Clearance:** Maintain a minimum clearance of 7 feet from the floor to the bottom of the fan blades and at least 30 inches from the blade tips to any walls or obstructions.
- **Outdoor Use:** This fan is suitable for covered outdoor areas (e.g., patios, porches) but must not be exposed directly to rain.

or water.

- **Children and Pets:** Keep children and pets away from the fan during operation and installation.
- **Light Source:** Do not attempt to replace the integrated LED light source. Contact customer support if the light malfunctions.

4. SETUP AND INSTALLATION

Professional installation is recommended. Ensure power is disconnected at the circuit breaker before proceeding.

Installation Steps:

- 1. Prepare Mounting Location:** Securely attach the mounting bracket to a ceiling joist or an approved outlet box capable of supporting the fan's weight.
- 2. Assemble Downrod:** Select the appropriate downrod length (4", 8", or 24") for your ceiling height. Feed the fan wires through the downrod and secure the downrod to the fan motor assembly.
- 3. Hang Fan:** Carefully lift the fan assembly and hang it from the mounting bracket.
- 4. Wiring:** Connect the fan's electrical wires to the household wiring according to the provided wiring diagram. Ensure all connections are secure with wire nuts. Install the remote receiver.

5. **Attach Blades:** Securely attach the 8 fan blades to the motor housing. Choose either the black or walnut side of the blades to face downwards.
6. **Install Light Kit:** Connect the LED light kit wires and attach the light kit to the bottom of the fan motor assembly.
7. **Secure Canopy:** Slide the canopy up and secure it to the mounting bracket, covering all wiring.

5. OPERATING INSTRUCTIONS

Your BvenuBigLite ceiling fan can be controlled via the included remote control, a mobile application, or a wall switch.

Remote Control and App Operation:

- **Power On/Off:** Use the power button on the remote or app to turn the fan and light on or off.
- **Fan Speed:** Select from 6 fan speeds using the dedicated buttons on the remote (1-6) or the slider in the app.
- **Reversible Function:** Press the 'Forward/Reverse Switch' button on the remote or toggle the setting in the app to change the blade direction.
 - **Summer Mode (Downward Airflow):** Blades rotate counter-clockwise to create a cooling breeze.
 - **Winter Mode (Upward Airflow):** Blades rotate clockwise to circulate warm air near the ceiling.
- **Light Control:**
 - **Brightness:** Adjust light brightness from 10% to 100% using the brightness buttons on the remote or the slider in the app.
 - **Color Temperature:** Change the light color from 3000K (warm white) to 6000K (cool white) using the color temperature switching button or the app.
 - **Night Light:** Activate the night light option for a soft, low-level illumination.
- **Timer Function:** Set a 2-hour timer for the fan to automatically turn off.
- **Memory Function:** The fan will recall your last used light brightness, color temperature, and fan speed settings when turned back on.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finishes.
- **Blade Screws:** Check all blade attachment screws periodically to ensure they are tight. Loose screws can cause noise and wobble.
- **Light Cover:** The light cover can be removed for cleaning by gently twisting or unlatching it, depending on the design.

Clean with a soft, dry cloth.

- **No Lubrication Needed:** The DC motor is permanently lubricated and does not require additional oiling.

7. TROUBLESHOOTING

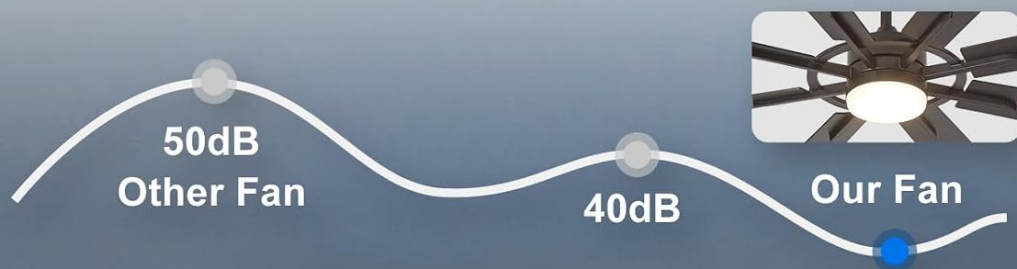

Before contacting customer support, refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low or not paired.	Check circuit breaker; Ensure all wiring connections are secure; Replace remote battery or re-pair remote.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Use a balancing kit (not included) to balance blades; Ensure mounting bracket is securely fastened.
Light does not work	Loose wire connection to light kit; Faulty LED driver.	Check light kit wiring connections; If problem persists, contact customer support for LED driver replacement.
Remote control not working	Low battery; Not paired with receiver; Obstruction between remote and receiver.	Replace remote battery; Re-pair remote with receiver (refer to pairing instructions in the full manual); Ensure clear line of sight.
Fan makes noise	Loose screws; Motor hum; Blades hitting an obstruction.	Check and tighten all screws; A slight motor hum is normal for DC motors; Ensure blades have proper clearance.
