5.2. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Go to Settings > About device > Up to date to check for updates.

5.3. Battery Care

- Avoid exposing the device to extreme temperatures (very hot or very cold), as this can degrade battery life.
- Do not leave the device charging for extended periods after it has reached 100% to prolong battery health.
- For optimal performance, use the original OPPO 45W Power Adapter and USB cable.

5.4. Water and Dust Resistance (IP69)

The OPPO K14 G is rated IP69 for water and dust resistance. This means it is protected against high-pressure, high-temperature water jets and dust ingress. However, this resistance is not permanent and may decrease over time with normal wear. Avoid intentional submersion, exposure to seawater, chlorinated water, or liquids other than fresh water. If the device gets wet, dry it thoroughly before charging or using ports.

6. TROUBLESHOOTING

If your device freezes or becomes unresponsive, perform a force restart by pressing and holding the **Power Button** and **Volume Up Button** simultaneously for about 10-15 seconds until the device restarts.
